treated as a subject of moral theology or literature it suddenly became extremely widespread this book provides the first interdisciplinary account of this phenomenon taken from several angles including literature the arts politics society and philosophy as well as sociology its authors rank among the best international specialists on suicide and the figures dealt with include major intellectuals and writers such as ugo foscolo emilio salgari giuseppe pellizza da volpedo giacomo leopardi and carlo michelstaedter this oxford handbook provides a fresh overall view and interpretation of the modern economic growth of one of the largest european countries whose economic history is less known internationally than that of other comparably large and successful economies it will provide for the first time a comprehensive quantitative new economic history of italy the handbook offers an interpretation of the main successes and failures of the italian economy at a macro level the research conducted by a large international team of scholars contains entirely new quantitative results and interpretations spanning the entire 150 year period since the unification of italy on a large number of issues by providing a comprehensive view of the successes and failures of italian firms workers and policy makers in responding to the challenges of the international business cycle the book crucially shapes relevant questions on the reasons for the current unsatisfactory response of the italian economy to the ongoing second globalization most chapters of the handbook are contemporary catalonia and rejects the exclusion of castilian as a language capable of expressing catalan ness this study charting the construction of a catalan identity from the nineteenth century cultural renaissance until the present day explores the interaction of language culture and identity in contemporary catalonia drawing on postcolonial and multicultural literary theories it argues that castilian and catalan language narratives are expressions of the same culture through detailed analyses of texts by terenci moix francisco candel ignasi riera montserrat roig juan marsé ramon pallicé and manuel vázquez montalbán among others the author demonstrates that such writers share similar preoccupations and points of view and also engage in a complex literary and cultural dialogue that cuts across the established linguistic divisions that characterise cultural politics in catalonia the catalan literary establishment's exclusion of castilian as a language capable of expressing catalan ness is challenged and the author proposes redefining traditional understandings of catalan literature to take into account texts produced by all members of catalan society stewart king is a in 150 years italy transformed itself from a poor and backward country into one where living standards are among the highest in the world in measuring wellbeing giovanni vecchi provides an innovative analysis of this change by drawing on family accounts that provide engaging insights into life and are the micro data that create the foundations for the macro picture of variations and fluctuations in the development of italy vecchi provides a nuanced account of the changes he emphasizes that the concept of wellbeing is multidimensional and must include non monetary aspects of life nutrition

health and education as well as less tangible elements such as freedom or the possibility to exercise one's political rights the book deals with this polyhedral nature of wellbeing among the insights are that italians succeeded in combining growth with equity but that the gap between the north and south did not narrow the while longevity has increased education has not improved as much as it could have and that for close to three decades italy's virtuous path has come to a halt the wellbeing of the italian people is at the crossroads between progress and decline measuring wellbeing engagingly combines a unique dataset and an innovative statistical method that can be adapted to other countries
