The Representation of Statistics by Mathematical Formulæ

1982

sir david cox s most important papers each the subject of a new commentary by professor cox

Statistical Papers

2005

from the preface jack kiefer s sudden and unexpected death in august 1981 stunned his family friends and colleagues memorial services in cincinnati ohio berkeley california and ithaca new york shortly after his death brought forth tributes from so many who shared in his life but it was only with the passing of time that those who were close to him or to his work were able to begin assessing jack s impact as a person and intellect about one year after his death an expression of what jack meant to all of us took place at the 1982 annual meeting of the institute of mathematical statistics and the american statistical association jack had been intimately involved in the affairs of the ims as a fellow since 1957 as a member of the council as president in 1970 as wald lecturer in 1962 and as a frequent author in its journals it was doubly fitting that the site of this meeting was cincinnati the place of his birth and residence of his mother other family and friends three lectures were presented there at a memorial session by jerry sacks dealing with jack s personal life by larry brown dealing with jack s contributions in statistics and probability and by henry wynn dealing with jack s contributions to the design of experiments these three papers together with jack s bibliography were published in the annals of statistics and are included as an introduction to these volumes

Selected Statistical Papers of Sir David Cox: Volume 1, Design of Investigations, Statistical Methods and Applications

1900

this text consists of very high quality articles which not only give a very good account of the field of statistical mechanics in the soviet union but also provide stimulating materials for researchers working on this topic

The Representation of Statistics by Mathematical Formule

1900

from the preface jack kiefer s sudden and unexpected death in august 1981 stunned his family friends and colleagues memorial services in cincinnati ohio berkeley california and ithaca new york shortly after his death brought forth tributes from so many who shared in his life but it was only with the passing of time that those who were close to him or to his work were able to begin assessing jack s impact as a person and intellect about one year after his death an expression of what jack meant to all of us took place at the 1982 annual meeting of the institute of mathematical statistics and the

american statistical association jack had been intimately involved in the affairs of the ims as a fellow since 1957 as a member of the council as president in 1970 as wald lecturer in 1962 and as a frequent author in its journals it was doubly fitting that the site of this meeting was cincinnati the place of his birth and residence of his mother other family and friends three lectures were presented there at a memorial session by jerry sacks dealing with jack s personal life by larry brown dealing with jack s contributions in statistics and probability and by henry wynn dealing with jack s contributions to the design of experiments these three papers together with jack s bibliography were published in the annals of statistics and are included as an introduction to these volumes

Statistical Papers

1973

sir david cox is one of the seminal statistical thinkers of the twentieth and twenty first centuries in this selection of his work professor cox reviews his most influential and interesting papers published before 1993 each paper is the subject of a candid commentary written especially for this collection in these he describes the context in which the papers arose and their subsequent influence he also identifies avenues for future research organized in two volumes and grouped by theme the papers and commentaries provide excellent coverage of many of the most significant advances in statistics in recent times

Twenty-Two Papers on Statistics and Probability

1961

sir david cox is one of the seminal statistical thinkers of the twentieth and twenty first centuries in this selection of his work professor cox reviews his most influential and interesting papers published before 1993 each paper is the subject of a candid commentary written especially for this collection in these he describes the context in which the papers arose and their subsequent influence he also identifies avenues for future research organized in two volumes and grouped by theme the papers and commentaries provide excellent coverage of many of the most significant advances in statistics in recent times

Some Papers Concerning the Papers of Statistics

1975

the late professor pao lu hsu s statistical work was primarily concerned with inference in univariate and multivariate linear models and with the associated distribution theory both exact and asymptotic this volume contains all of hsu s mathematical papers published between 1935 and 1970 it comprises 40 articles and several additional commentaries and discussions of hsu s work in inference multivariate analysis and probability by lehmann anderson and chung further commentaries by various authors have been appended to some of the papers hsu s colleagues kiang and tuan in beijing have rewritten their memorial tribute for this occasion

Small-area Statistics Papers

2015-12-16

masafumi akahira and kei takeuchi have collaborated in research on mathematical statistics for nearly thirty years and have published many articles and papers this volume is a collection of their papers some published in well known and others in lesser known journals the papers cover various fields but the main subject is the theory of estimation asymptotic non regular sequential etc all the papers are theoretical in nature but have implications for applied problems

Collected Papers I

1991

reprint of the original first published in 1875 the publishing house anatiposi publishes historical books as reprints due to their age these books may have missing pages or inferior quality our aim is to preserve these books and make them available to the public so that they do not get lost

Mathematical Problems of Statistical Mechanics

1974

reprint of the original first published in 1875

Nineteen Papers on Statistics and Probability

1955
