Austen Chamberlain and the Commitment to Europe 1996 excerpt from the league of nations the principle and the practice it is undeniable that the great mass of intelligent people of europe and america have come to the belief as a result of the catastrophe that befell the civilized world in 1914 that a different international organization from the one existing at that time was essential to the peaceful development of humanity this opinion crystallized into a demand for a league of nations of some kind and the problem of organizing such a league was given precedence over all the other problems that were pressing for attention at the peace conference the covenant of the league has been adopted by the conference and will shortly go to the signatory states for ratification ought it to be ratified the answer to this question can be given only after we have decided what we mean by the thing itself graham wallas has said it is this last relation between words and things which makes the central difficulty of thought about politics the words are so rigid so easily personified so associated with affection and prejudice the things symbolized by the words are so unstable the cry has gone up for a league of nations but what do we mean by a league of nations is it something new or have there been similar proposals in the past before 1914 or during the war had the nations developed institutions which pointed the way to a league what is the philosophy underlying a league of nations how shall the league be organized more important still what are the actual duties which the league should be called upon to perform for only in so far as it functions continuously will the league of nations be a vital thing finally what shall be america s relation to the league of nations about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**The League of Nations** 1894 includes pictures includes accounts of members of the league includes online resources and a bibliography for further reading the program of the world s peace therefore is our program and that program the only possible program as we see it is this 1 open covenants of peace openly arrived at after which there shall be no private international understandings of any kind but diplomacy shall proceed always frankly and in the public view president woodrow wilson i have loved but one flag and i can not share that devotion and give affection to the mongrel banner invented for a league henry cabot lodge the united nations is one of the most famous bodies in the world and its predecessor the league of nations might be equally notorious in fact president woodrow wilson s pet project was controversial from nearly the minute it was conceived at the end of world war i wilson s pleas at the paris peace conference relied on his fourteen points which included the establishment of a league of nations but while his points were mostly popular amongst americans and europeans alike leaders at the peace conference largely discarded them and favored different approaches british leaders saw their singular aim as the maintenance of british colonial possessions france meanwhile only wanted to ensure that germany was weakened and unable to wage war again and it too had colonial interests abroad that it hoped to maintain britain and france thus saw eye to eye with both wanting a weaker germany and both wanting to maintain their colonies wilson however wanted both countries to rid themselves of their colonies and he wanted germany to maintain its self determination and right to self defense wilson totally opposed the war guilt clause which blamed the war on germany wilson mostly found himself shut out but britain and france did not want american contributions to the war to go totally unappreciated if only out of fear that the u s might turn towards improving their relations with germany in response thus to appease wilson and the americans france and britain consented to the creation of a league of nations however even though his participation in the crafting of the treaty of versailles earned him a nobel prize that year wilson soon learned to his consternation that diplomacy with congress would go no better than his diplomacy with european leaders the only major provision that wilson achieved in europe the league of nations was the most controversial in the united states both aisles of congress had qualms with the idea believing it violated the constitution by giving power over self defense to an international body other interests in the united states especially irish americans had now totally turned against wilson the president s interest in national self determination extended to many european countries including hungary poland czechoslovakia and belgium but it excluded one critical country ireland a country currently embroiled in a revolution against great britain worse irish americans thought the league of nations would harden anglo control of global institutions simply put wilson returned home to find many americans weren t buying the league of nations while the senate was able to build a slim majority in favor of ratification it could not support the necessary two thirds majority although the league of nations was short lived and clearly failed in its primary mission it did essentially spawn the united nations at the end of world war ii and many of the un s structures and organizations came straight from its predecessor with the concepts of an international court and a general assembly coming straight from the league more importantly the failures of the league ensured that the un was given stronger authority and enforcement mechanisms most notably through the latter s security council
