The Chance of Salvation

the chance of salvation offers a history of conversions in the united states which shows how religious identity came to be a matter of choice shortly after the american revolution people in the united states increasingly encountered an expanded array of religious options evangelical protestants began an effort to convert americans while developing new practices that emphasized conversion as an immediate choice their missionary effort extended to native american nations such as the cherokee in the southeast who received christianity on their own terms enslaved and newly freed african americans likewise created a variety of christian conversion that was centered on religious hope and eschatological expectation mormons drawing on earlier protestant practices

and beliefs enthusiastically proselytized for a new tradition that emphasized individual choice and free will by uncovering the way that religious identity is structured as an obligatory decision this book explains why americans change their religions so much and why the united states is both highly religious in terms of religious affiliation and very secular in the sense that no religion is an unquestioned default

in 1995 i had a life changing encounter an encounter that steered my relationship with god in a whole new direction until then i had excluded god from my every day affairs but after this experience i gradually began to develop a new way of having

communion with god a conversational way of praying now god is very much a part of my day to day life with each passing day i realise that god craves relationship with me and he is willing to take me just as i am with him i know i can simply be me i can chat with him wherever and whenever and i experience a personal touch of his love his humour and his pure goodness my diary of upside down prayers is a compilation of some of the fun times i have spent with heavenly father lord jesus and holy spirit within the pages of my diary you will find answers to questions such as who is hf does god knit is reincarnation a part of the christian faith just to mention a few you may also find yourself catching on to the upside down way of speaking which though may sometimes come across as informal is in no way irreverent but more importantly it is my prayer that the words on the pages of this little book will encourage you to invite god into your everyday life and to comfortably be yourself in his presence

the search for salvation is an innovative and interdisciplinary study of lay faith in scotland in the later middle ages examining both the religious ideas and practices of the people and the ways in which these were shaped by images in literature art and church writings contrary to traditional views which portray the late medieval scottish church as weak and corrupt the book argues for the vitality and flourishing of lay piety in the later fifteenth and first half of the sixteenth century it thus sheds new light on the coming of the protestant reformation as well as revealing the richness of the world of medieval scottish religious imagery each chapter

examines one aspect of faith and the lay responses to it the first part of the book discusses three central concepts in people s understanding of death and salvation the day of judgement heaven and hell and purgatory the second part looks at the way in which people perceived of and related to three central figures of christianity god mary and jesus in examining such a wide variety of beliefs the book goes beyond the study of religion to provide an understanding of the nature and functioning of medieval society as a whole

notions of which behaviours comprised sin and what actions might lead to salvation sat at the heart of christian belief and practice in early modern england but both of these vitally important concepts were fundamentally reconfigured by the reformation remarkably little work has been undertaken exploring the ways in which these essential ideas were transformed by the religious changes of the sixteenth century in the field of reformation studies revisionist scholarship has underlined the vitality of late medieval english christianity and the degree to which people remained committed to the practices of the catholic church up to the eve of the reformation including those dealing with the mortification of sin and the promise of salvation such popular commitment to late medieval lay piety has in turn raised questions about how the reformation itself was able to take root whilst post revisionist scholars have explored a wide range of religious beliefs and practices such as death providence angels and music there has been a surprising lack of engagement with the two central religious preoccupations of the vast majority of people to address this omission this collection focusses upon the history and theology of sin and salvation in reformation and post reformation england exploring their complex social and cultural constructions it underlines how sin and salvation were not only great religious constants but also constantly evolving in order to survive in the rapidly transforming religious landscape of the reformation drawing upon a

range of disciplinary perspectives historical theological literary and material art historical to both reveal and explain the complexity of the concepts of sin and salvation the volume further illuminates a subject central to the nature and success of the reformation itself divided into four sections part i explores reformers attempts to define and re define the theological concepts of sin and salvation while part ii looks at some of the ways in which sin and salvation were contested through confessional conflict polemic poetry and martyrology part iii focuses on the practical attempts of english divines to reform sin with respect to key religious practices while part iv explores the significance of sin and salvation in the lived experience of both clergy and laity evenly balancing contributions by established academics in the field with cutting edge contributions from junior researchers this collection breaks new ground in what one historian of the period has referred to as the social history of theology
