are you the type of leader people want to follow you can be but first you ve got to understand what sets great leaders apart from all the rest certainly leaders need people skills execution skills a deep knowledge of industry trends the ability to articulate a vision and more they must be competent but that s just the tip of the iceberg what s below the waterline what s deep inside the best leaders that makes them different mark miller contends it is their leadership character in his latest enlightening and entertaining business fable he describes the five unique character traits exhibited by exceptional leaders and how to cultivate them the heart of leadership begins with young and ambitious blake brown being passed over for a desperately wanted promotion despite an outstanding individual performance confused and

frustrated he turns to his former mentor debbie brewster rather than attempting to solve blake s problem for him she sends him on a quest to meet with five of his late father s colleagues each of whom holds a piece of the puzzle he s trying to solve as blake puts the pieces together he discovers that in the final analysis a lack of skills isn t what holds most leaders back skills are too easy to learn without demonstrated leadership character however a skill set will never be enough most often when leaders fail to reach their full potential it is an issue of the heart this is blake s ultimate revelation this book shows us that leadership needn t be the purview of the few it is within reach for millions around the world the heart of leadership is a road map for every person who desires to make a difference in the lives of others and become a leader people want to follow

the only leaders worth following explores what makes some leaders successful while others fail in it tim spiker explains the who not what principle that becoming a truly great leader is far more about developing who we are as people than improving what we do in spite of data logic and personal experiences that point to it few leaders intentionally and consciously order their own leadership development or the leadership development within their organizations by this principle what lives within the well developed who that makes an exceptional leader to start it is far more complex than having good moral character it means addressing our insecurities and drive for self preservation it requires investigation into our core assumptions about life and the personal disciplines we exercise in short it means becoming inwardly sound and others focused while becoming a well developed who is challenging it is both the most important and most efficient path to reaching our potential as leaders who our leaders are rather than what they do ultimately determines if we will follow them over the long

haul and it will determine if others will follow us as well
