institutional focus on europol eurojust and the european public prosecutor's office a substantive focus on international organised and serious crime including terrorism and a focus on procedural rights approximation given the relevance thereof for international information exchange in criminal matters relevant data protection instruments have also been included in the selection the texts have been ordered according to the corresponding multilateral co-operation level either prüm the european union comprising schengen related texts the council of europe or the united nations this edition provides students as well as practitioners judicial and law enforcement authorities lawyers researchers throughout europe with an accurate and up to date edition of essential texts on international and european criminal law all texts have been updated until 13 january 2021 key facts key cases eu law will ensure you grasp the main concepts of your eu law module with ease this book explains the facts and associated case law for the constitution of eu law its institutions the sources of eu law and the means of enforcement the relationship with national law the law of the single market eu competition law eu discrimination law and other social policy key facts key cases is the essential series for anyone studying law at llb postgraduate and conversion courses the series provides the simplest and most effective way to absorb and retain all of the material essential for passing your exams each chapter includes diagrams at the start of chapters to summarise key points structured headings and numbered points to allow for clear recall of the essential points charts and tables to break down more complex information chapters are also supported by a key cases section which provides the simplest and most effective way to absorb and memorise essential cases needed for exam success essential and leading cases are explained the style layout and explanations are user friendly cases are broken down into key components by use of a clear system of symbols for quick and easy visual recognition scientific essay from the year 2009 in the subject law civil private trade anti-trust law business law university of edinburgh school of law course ec competition law language english abstract the first aim of this paper is to establish the essential facilities doctrine's efd undeniable existence in ec law and to determine how its application has evolved over time by analysing the relevant case law by outlining the legal theory of the efd part i shows that the doctrine is a well established competition law remedy within the refusal to supply framework of article 82 ec this paper argues that the efd should be an exceptional measure only applied after careful balancing of the dominant undertaking's freedom of contract and right to property against the potential

benefits to consumer welfare by investigating how the efd has been applied practically in refusal to supply case law the second half of part i identifies the different criteria under which refusal to grant access to an essential facility was deemed to constitute an abuse and concludes that the circumstances in which the efd was initially applied were not consistent it is submitted that it was not until the bronner judgment that the eu institutions began applying the efd to refusal to supply cases within a coherent and sufficiently strict legal framework part ii will deal with the second aim of this essay namely to evaluate the legal evolution of the doctrine s controversial application to intellectual property rights iprs because compulsory licensing of iprs can have grave negative repercussions on innovation and consumer welfare this paper maintains that the efd s application to iprs should be exceptional and subject to the strictest of conditions it accordingly supports the notion that iprs require special deference in comparison to physical property rights and notes that the efd is applied to iprs under stricter legal standards than when applied to other property rights this book comprises the principal multilateral legal instruments on international and european criminal law with a special institutional focus on europol eurojust and the european public prosecutor s office a substantive focus on international organised and serious crime including terrorism and a focus on procedural rights approximation given the relevance thereof for international information exchange in criminal matters relevant data protection instruments have also been included in the selection the texts have been ordered according to the corresponding multilateral co operation level either prüm the european union comprising schengen related texts the council of europe or the united nations this edition provides students as well as practitioners judicial and law enforcement authorities lawyers researchers throughout europe with an accurate and up to date edition of essential texts on international and european criminal law all texts have been updated until 8 december 2023 this new edition of the law society of ireland manual on european law has been comprehensively revised and updated to include all recent developments in the area of eu law it covers all important new cases and legislation the competition law section has been expanded to cover the area of public sector competition and to include ongoing developments in the area of mergers the section on jurisdictional and enforcement of judgment rules has been completely re written to reflect the introduction of regulation 44 2001 on jurisdictional and enforcement of judgements which came into effect on 1 march 2002 other new initiatives in the area of private law are outlined new material is introduced in the form of a new section on litigation before the european courts with specific reference to the article 234 reference procedure there is also a new section outlining in considerable detail other areas of commercial significance where the eu law has made an impact published in conjunction with the law society of ireland the titles in this innovative series provide a unique guide to the law practice and procedure in ireland each title provides a clear overview of its subject focusing on the practical issues that confront lawyers on an everyday basis written by acknowledged experts in their fields the manuals provide detailed analysis of recent cases and legislation highlight key issues in practice and set out specimen forms and precedents the manuals are essential reading for apprentices studying on the law society of ireland s professional practice course they will also be indispensable to any irish practitioner requiring a practical user friendly and jargon free treatment of key practical areas eu law is a high quality revision guide which covers the key topics found on undergraduate courses a number of pedagogical features help with the preparation for exams and suggest ways to improve marks eu law has greatly influenced national law in scotland the uk and the rest of europe as a result private international law is an essential area of study and of increasing importance to lawyers throughout the eu private international law essentials is the concise guide to private international law that you need whether you re studying revising or a practicing lawyer looking for a summary the law in uk jurisdictions david hill looks at the key elements and issues of private international law as well as the statutes and conventions e g brussels lugano and eu regulations applying throughout the uk in order to contribute to a better understanding of natural causation which is a central concept in civil law the present book offers a large collection of leading cases from 25 european countries and from the court of justice of the european community each case is shortly summarised and commented on

further an important number of cases collected are resolved according to the recently published principles of european tort law european union law provides students with a clear understanding of the law of the eu and the fundamental principles that support it essential information is provided in a user friendly format to facilitate learning and understanding of this key discipline this innovative book is based on the premise that the absence of a single constitutional document for the european union does not imply the absence of a constitution rather the eu constitution composed of a myriad of legal texts case law and practice is a moving target subject to continuous change and comprises several layers of integration with varying geographical scope the book endeavours to make sense of this highly complex constitutional order by focusing on what the authors perceive to be the essential features of the system taking into account the profound changes which have taken place over the past 20 years the eu has become much more than an internal economic market and has recently been active even in areas such as immigration and third country nationals security and defence policy and penal law and procedure rather than casting the reader adrift in a sea of institutional and procedural detail the authors underline the essential values principles and objectives of the integration regime as well as its basic normative structure and hierarchy in this context the decentralised nature of the eu is highlighted as an integral part of its constitutional make up recurring themes running through the book include european citizenship as well as fundamental rights and the rule of law and while stressing the basic values principles and objectives of the eu the book also confronts head on the problems and challenges facing the union and the gap which is often perceived between lofty ideals and harsh realities the book will be particularly useful to students of eu law and european integration but will also appeal to a broader audience of researchers and practitioners including political scientists the book reflects the reforms implemented by the lisbon treaty which entered into force on 1 december 2009 an excellent introduction to eu law for students new to the discipline and acting as an essential revision aid for the more experienced this new edition has been fully revised and updated the author an experienced lecturer at undergraduate level examines the main themes of eu law in a logical and progressive manner focusing on how and why the law has developed as it has this book provides readers with a thorough understanding of eu law including a number of issues presently facing the eu such as enlargement and the prospect of a comprehensive written constitution student friendly it comprises a wide range of pedagogical features including summaries comprehensive tables of cases and legislation a list of abbreviations a glossary of important terms helpful tips on how to approach essay and exam questions broad in scope and highly accessible understanding european union law is essential reading providing a solid foundation for students new to eu law business as well as being a useful revision aid for those more familiar with the topic european law is a core element of all law degrees in england and wales unlocking eu law will ensure you grasp the main concepts with ease providing you with an essential foundation for further study or practice this new fourth edition is fully up to date with the latest developments and includes the european union act 2011 detailed coverage of the lisbon treaty all major new cases this book is essential reading for students studying eu law on undergraduate courses in the uk the unlocking the law series is designed specifically to make the law accessible features include aims and objectives at the start of each chapter key facts charts to consolidate your knowledge diagrams to aid learning summaries to help check your understanding of each chapter problem questions with guidance on answering a glossary of legal terminology the series covers all the core subjects required by the bar council and the law society for entry onto professional qualifications as well as popular option units the website unlockingthelaw.co.uk provides supporting resources such as multiple choice questions key questions and answers and updates to the law as the preferred choice of both teachers and students this textbook offers an unrivalled combination of expertise accessibility and comprehensive coverage the new edition reflects the way the economic crisis has impacted the shape and nature of european union law materials from case law legislation and academic literature are integrated throughout to expose the student to the broadest range of views additional online material on the application of eu law in non member states and on rulings on the fiscal compact ensures the material is completely current the

new edition includes a timeline which charts the evolution of the eu project written in a way which encourages sophisticated analysis the book ensures the student s full engagement with sometimes complex material more importantly it offers the clarity which is essential to understanding a required text for all interested in european union law understanding eu law provides an accessible and modern understanding of european union law based upon an analysis of the principles which have underpinned eu integration international law essentials is an invaluable study guide for students it provides up to date concise and comprehensive coverage of international law and is the ideal text for students who come new to the subject and for those preparing for exams this book is also an excellent resource for those who need to refresh or update their knowledge contents nature and history of international law sources of international law international law and municipal law subjects of international law states birth to death states powers and authority state responsibility use of force human rights law of the sea common spaces settlement of international disputes private enforcement of eu law before national courts successfully illustrates how legal actions brought by private parties can be instrumental in strengthening compliance with eu law through a detailed examination of selected eu legislation across the fields of procurement intellectual property rights consumer protection and competition law folkert wilman compares various remedies and procedures in which private parties have been utilised in the redress of grievances under eu law an essential reference work for practicing lawyers acting before domestic courts in matters of eu law this timely publication offers new insights into private enforcement as a supplementary enforcement instrument and offers clarity on how such a tool impacts on contractual remedies procedural issues and the role of judicial review praise for the book essential reading for anyone interested in the existence and exercise of eu powers in the field of criminal law Öberg s critical examination of the constitutional constraints to eu action also raises many questions that are of great interest in other areas of eu competence the book deserves a wide readership among scholars interested in the constitutional workings of the european union samuli miettinen university of helsinki tallinn university the main strength of this book lies in its comprehensiveness of dealing with the topical issue of eu regulatory criminal law from the fascinating perspective of limits to eu powers its particular contribution to existing scholarship in the field of eu criminal law concerns its focus on judicial checks on the exercise of competences as to which the book offers a convincing proposal for a stricter standard for judicial review in matters of regulatory criminal law and beyond professor jannemieke ouwerkerk leiden law school an excellent read on competence allocation in eu law and what it means in criminal law context this book guides the reader through very complex questions of the contours of subsidiarity national competences and the exact limits of eu powers it also supplies up to date case studies of financial crimes and the need for the eu to act effectively and thereby increase confidence in the market and the challenges it may cause for national systems a very timely contribution ester herlin karnell vu university amsterdam pursuant to the precepts of eu law eu policy makers are bound to ensure that any eu legislation must fall within the remit of the eu s competences this monograph looks at this highly contested issue with particular reference to european union criminal law it looks at the powers enjoyed by the eu to impose criminal sanctions to suggest mechanisms by which legislative powers could be kept in check the book argues that the main responsibility for providing checks against the exercise of eu power lies with the eu judiciary it argues that the most effective form of review is procedural and through the case study of sanctions provides the basis for such a review innovative engaging and rigorous this is an important publication both in the field of european criminal and constitutional law

E.U. Law in a Nutshell 2006 scientific essay from the year 2009 in the subject law civil private trade anti trust law business law university of edinburgh school of law course ec competition law language english abstract the first aim of this paper is to establish the essential facilities doctrine s efd undeniable existence in ec law and to determine how its application has evolved over time by analysing the relevant case law by outlining the legal theory of the efd part i shows that the doctrine is a well established competition law remedy within the refusal to supply framework of article 82 ec this paper argues that the efd should be an exceptional measure only applied after careful balancing of the dominant undertaking s freedom of contract and right to property against the potential benefits to consumer welfare by investigating how the efd has been applied practically in refusal to supply case law the second half of part i identifies the different criteria under which refusal to grant access to an essential facility was deemed to constitute an abuse and concludes that the circumstances in which the efd was initially applied were not consistent it is submitted that it was not until the bronner judgment that the eu institutions began applying the efd to refusal to supply cases within a coherent and sufficiently strict legal framework part ii will deal with the second aim of this essay namely to evaluate the legal evolution of the doctrine s controversial application to intellectual property rights iprs because compulsory licensing of iprs can have grave negative repercussions on innovation and consumer welfare this paper maintains that the efd s application to iprs should be exceptional and subject to the strictest of conditions it accordingly supports the notion that iprs require special deference in comparison to physical property rights and notes that the efd is applied to iprs under stricter legal standards than when applied to other property rights
