WALNECK'S CLASSIC CYCLE TRADER, OCTOBER 2004

1998-01

this volume is prepared from lecture notes for the course intercalation in layered materials which was held at the ettore majorana centre for scientific culture at erice sicily in july 1986 as part of the international school of materials science and technology the course itself consisted of formal tutorial lectures workshops and informal discussions lecture notes were prepared for the formal lectures and short summaries of many of the workshop presentations were prepared this volume is based on these lecture notes and research summaries the material is addressed to advanced graduate students and postdoctoral researchers and assumes a background in basic solid state physics the goals of this volume on intercalation in layered materials include an introduction to the field for potential new participants an in depth and broad exposure for students and young investigators already working in the field a basis for cross fertilization between workers on various layered host materials and with various intercalants and an elaboration of the complementarity of intercalated layered materials with deliberately structured superlattices
