Into Grow 2022-04-19 in an era of worsening addiction that continues to ravage our communities the spiritual aspect of recovery seems to be growing increasingly irrelevant into grow introduces the science behind our own human development and intertwines it through the spiritual journey of recovery from addiction as experienced by the author a medical doctor dr given having become an accomplished medical doctor and surgeon loses all that she holds important her material possessions and all she holds dear her children as the result of her progressing alcoholism the story of the process of her recovery unfolds over years as the constant seeking to change her perspective produces new results against her better judgment the author finds that god has gone from a theory to real inside the laboratory of her heart as she finds peace from the bondage of addiction the great uneasiness wired into every soul dissolves into a new awareness spiritual experiences such as the one depicted in this book can t be proven but they can be described through storytelling the author s description of the dissolution of insisting on getting her own way through the steps she took describes a personal freedom that inspires the reader to consider a spiritual solution the word god appears often in this book without offering a definition the definition is free for the reader to embrace and to experience and at the conclusion the author describes an awakening where she attains a state of divine observance where time seems wrapped through the tides in the ocean and the experience of connection

holds space where there is nothing for a drink or a drug to fix
this book offers those suffering from addiction and those that
love them the hope of experiential resurrection

Genocide in Contemporary Children's and Young Adult

Literature 2014-03-14 this book studies children s and young
adult literature of genocide since 1945 considering issues of
representation and using postcolonial theory to provide both
literary analysis and implications for educating the young many
of the authors visited accurately and authentically portray the
genocide about which they write others perpetuate stereotypes
or otherwise distort demean or oversimplify in this focus on
young people s literature of specific genocides gangi profiles and
critiques works on the cambodian genocide 1975 1979 the iraqi
kurds 1988 the maya of guatemala 1981 1983 bosnia kosovo and
srebrenica 1990s rwanda 1994 and darfur 2003 present in
addition to critical analysis each chapter also provides historical
background based on the work of prominent genocide scholars
to conduct research for the book gangi traveled to bosnia
engaged in conversation with young people from rwanda and
spoke with scholars who had traveled to or lived in guatemala
and cambodia this book analyses the ways contemporary
children typically ages ten and up are engaged in the study of
genocide and addresses the ways in which child survivors who
have witnessed genocide are helped by literature that mirrors
their experiences

The Johns Hopkins University Studies in Education 1917

nothing is more important for ministry today than small groups george gallop jr a christian who conducts polls on political and religious matters quoted in chapter 1 of this book lavin is quick to point out that this book is not merely about numerical growth it is about nurturing spiritual growth which in itself is a dynamic that leads to growth in numbers use this publication as a workbook the chapters each end with fascinating questions for consideration and group discussion dr lavin offers five different kinds of group structures for discipleship development each is fully explored offering the reader or study participant the opportunity to determine which style best fits their group he also lists five essentials that must be present for any group to function effectively lavin has had over 35 years of experience in the ministry during which time he has refined the methods that are most successful in leading people to commitment and discipleship this book is filled with fascinating anecdotes and stories that have grown out of his experience with congregations where impressive growth has taken place dr ronald j lavin is senior pastor of king of glory lutheran church fountain valley california he previously served congregations in

indiana iowa and arizona in each church where he served as pastor the membership doubled he graduated cum laude from carthage college northwestern theological school of theology and engaged in graduate studies at the lutheran school of theology chicago lavin has published twelve books and numerous magazine articles he has been in demand as a speaker and seminar leader at schools and churches throughout the country as well as in several foreign countries

Grow to Greatness 2012-04-25 wall street believes that all public companies should grow smoothly and continuously as evidenced by ever increasing quarterly earnings and that all companies either grow or die introducing a research based growth model called smart growth edward d hess challenges this ethos and its dangerous mentality which often deters real growth and pressures businesses to create manufacture and purchase noncore earnings just to appease wall street smart growth accounts for the complexity of growth from the perspective of organization process change leadership cognition risk management employee engagement and human dynamics authentic growth is much more than a strategy or a desired result it is a process characterized by complex change entrepreneurial action experimental learning and the management of risk hess draws on extensive public and private company research incorporating case studies of best buy sysco ups costco starbucks mcdonalds coca cola room board home depot tiffany company p g and jet blue with conceptual innovations such as an authentic earnings and

growth system framework a seven step growth funnel pipeline a growth decision template and a growth risks audit hess provides a blueprint for an enduring business that strives to be better rather than simply bigger

Can India Grow Without Bharat? 2007 unlike many titles on environmental issues that portend a dark future environmental success stories delves into the most daunting ecological and environmental challenges humankind has faced and shows how scientists citizens and a responsive public sector have dealt with them successfully in addition to presenting the basic chemical and environmental science underlying problems like providing clean drinking water removing ddt and lead from agriculture and our homes and curtailing industrial pollution this book also discusses the political actors agency regulators and community leaders who have collaborated to enact effective legislation sharing the stories of the people organizations and governments who have addressed these problems successfully frank m dunnivant explains how we might confront the world s largest and most complex environmental crisis climate change now is the time for rededicated scientific exploration and enlightened citizen action to save our environment and dunnivant s book offers a stirring call to action
