Brilliant photography showcases the great art and architecture that African civilisations have created while engaging text written by experts of African heritage covers every facet of African cultures from music and literature to oral traditions and languages. Specially commissioned CGI artworks recreate iconic buildings and life in lost cities like Timbuktu and Great Zimbabwe. Explore the pages of this awe-inspiring African history book to discover the whole story of the African continent covering every aspect from culture and trade to politics and society. The chapters explore religion, languages, music, literature and mythology. Developments, biography sections portray influential figures, lives, impact and legacy in African history. Detailed maps set the main sites in context and showcase vast empires and key trade routes. An optional 80-page reference section provides a directory of the histories and cultures of all African sovereign states. Beautifully illustrated and unparalleled in scope, Africa is the perfect book for anyone looking to deepen their understanding of Africa's vital and inspiring history. The period covered is marked by several turning points such as the spread of iron technology, the introduction of innovative irrigation systems and the development of new forms of urbanization in China, India and the Mediterranean. In Central America and in parts of South America, the so-called classical cultures rose for the first time. Science attempted to develop independently of myth and religion as a new method to explain nature and human destiny but this period also witnessed the rise of universal religions such as Buddhism, Hinduism, Christianity and in the seventh century Islam. An appeal to African American Muslims to stand up within themselves, be more responsible for the community they reside in. First published in 1972, Africa and the World places the African past within the wider context of world events while providing a wealth of geographical and ethnographic information about the continent. The book specifically focuses on the pre-colonial and early colonial history of Sub-Saharan Africa. Designed for those interested in the impact of Europe on the non-Western world, the volume provides an account of the major economic and social factors that have shaped African history. Information from studies in anthropology, archaeology, history and art are included as well. Africa and the World is an essential and accessible resource for those interested in world history or African studies.
