there is something visceral about ownership this is mine you can't have it this is mine you can share it this is ours try to find it contemporary literature and investigative journalism are showing that the scale of the problem of tax evasion money laundering organised crime terrorism bribery corruption and gross human rights abuses is vast ownership specifically the quest to identify beneficial owners has been chosen by national and international regulators as the touchstone the litmus test in the fight back an owner by definition must possess something for which they are financially accountable but what is meant by ownership this book explains why ownership is pivotal to accountability and what ownership means in common law civil law and shariah law terms it looks in detail at state regional and international transparency strategies and at an equally powerful global private counter initiative to promote beneficial ownership avoidance through the use of so called orphan structures where there is no owner there is no accountability the distinction between privacy and legitimate confidentiality on the one hand and concealment on the other is explained with reference to commercial and trade law and practice principles of corporate governance and applicable business human rights this book introduces one further counter initiative the phenomenon of transient ownership made possible through the use of cryptocurrency and the blockchain the study concludes with a blueprint for action with recommendations addressed to states international organisations practitioners and other stakeholders

When popular protests started in Tunisia in late 2010 few anticipated the implications these events would have for the entire Arab region. In the following years this region witnessed deep changes, increased divisions and even failing states. Meanwhile Tunisia managed to assert itself as a new democracy. How did this small country manage its democratic transition within such a short period and what implications has this had for its foreign policy and its role in international politics? This book assesses Tunisia's transition inside and out from four angles: Tunisian polity and politics, which provide the framework for its foreign policy; since the Arab Spring; bilateral relations before and after the Arab Spring; Tunisia's activism in international organisations as well as their presence in Tunisia and transnational issues in Tunisia. Drawing on a broad range of primary sources including authors' own interview material conducted with politicians and representatives of civil society and international NGOs involved in the transition process, the book shows that since 2011 Tunisia has not only developed fundamentally at the domestic level but also at the level of external relations: new and old alliances, a broadening of relations and new activism of civil society and of Tunisia in international organisations. Certificates that Tunisia has the potential to play an increasingly important role regionally as well as internationally, providing an encompassing picture of Tunisia's changed role and successful transition from an autocracy to a democracy, the book allows students and scholars in the field to understand the last country standing better: a country that both the scientific community and the political scene should not underestimate for the promises it holds.

this book explores how the globalization of securities markets has affected market manipulation and insider trading it delves into the responses of securities regulators discussing new regulations designed to deter such misconduct as well as they ways in which detection investigation and prosecution techniques are adapting to tackle insider trading and market manipulation that crosses international boundaries

providing a timely analysis of china s engagement with eurasia r james ferguson focuses on the challenges obstructing china s path to becoming a sustainable global power engagement across eurasia presents china its leaders and policymakers with intensified contact with regional and national conflicts posing environmental developmental and strategic dilemmas

the handbook of european security law and policy offers a holistic discussion of the contemporary challenges to the security of the european union and emphasizes the complexity of dealing with these through legislation and policy considering security from a human perspective the book opens with a general introduction to the key issues in european security law and policy before delving into three main areas institutions policies and mechanisms used by security defence policy and internal affairs form the conceptual framework of the book at the same time an extensive analysis of the risks and challenges facing the eu including threats to human rights and sustainability as well as the european union s legal and political response to these challenges is provided this handbook is essential reading for scholars and students of european law security law eu law and interdisciplinary legal and political studies

the past 18 months have seen a radical increase in incidents of jihadist terrorism within the united kingdom from the manchester arena attack to the houses of parliament to london bridge as a result there are renewed calls for a high level national conversation about the causes of and the responses to this particular terrorist problem this book identifies policy and research gaps from an evidence based perspective it analyses what we know what we don t know and what we need to know in relation to understanding and countering the jihadist terrorist threat it provides readers with a synthesis of the knowledge and evidence that exists on each of the key topic areas representing a distinctive and valuable resource for policymakers academics and students the contributors to the volume are leading international and national experts from both the scholarly and policy

Investing in Income Properties 2019-05-08

as fast evolving technologies transform everyday communication and literacy practices many young children find themselves immersed in multiple digital media from birth such rapid technological change has consequences for the development of early literacy and the ways in which parents and educators are able to equip today s young citizens for a digital future this seminal handbook fulfils an urgent need to consider how digital technologies are impacting the lives and learning of young children and how childhood experiences of using digital resources can serve as the foundation for present and future development considering children aged 0 8 years chapters explore the diversity of young children s literacy skills practices and expertise across digital tools technologies and media in varied contexts settings and countries the handbook explores six significant areas part i presents an overview of research into young children s digital literacy practices touching on a range of theoretical methodological and ethical approaches part ii considers young children s reading writing and meaning making when using digital media at home and in the wider community part iii offers an overview of key challenges for early childhood education presented by digital literacy and discusses political positioning and curricula part iv focuses on the multimodal and multi sensory textual landscape of contemporary literary practices and how children learn to read and write with and across media part v considers how digital technologies both influence and are influenced by children s online and offline social relationships part vi draws together themes from across the handbook to propose an agenda for future research into digital literacies in early childhood a timely resource identifying and exploring pedagogies designed to bolster young children s digital and multimodal literacy practices this key text will be of interest to early childhood educators researchers and policy makers

Gothic for Girls 1890

this book has as its subject matter the academic education of officers and builds on the signing of the bologna declaration in 1999 by twenty nine european ministers for education and science who thereby agreed to coordinate higher education across europe by for instance the implementation of the bachelor s and master s system in the meantime military academies have also introduced the bama system into their programs for officers education which marks a transition from the old days when officers education took place within a national military system under military command and was firmly grounded in principles traditions and needs as professed by the ministries of defence and the armed forces in particular so the bologna declaration can be seen as crucial leverage for the development of in house academic degree programs as a fundamental part of officers education with this volume the editors of nl arms 2019 strive to offer a platform to both academics and military and civilian practitioners as well as to combinations of these to reflect and share their thoughts on officers education before and after bologna both in the netherlands and abroad to this end controversies and challenges affecting various aspects and systems of officers education have been grouped into five themes respectively the first four themes comprise institutional settings and change educational philosophy educational challenges and reflective practices and didactical solutions the fifth theme international perspectives provides insights into the strategic environments and challenges faced by sister academies as well as ways to further officers education across europe such as offered by erasmus programs all the editors of this year s volume are affiliated with the faculty of military sciences of the netherlands defence academy in breda the netherlands

Ownership, Financial Accountability and the Law 2015-08-20

this book analytically reviews the impact of the global anti money laundering and counter terrorist financing aml cft framework on the compliance trajectory of a number of jurisdictions to this framework the work begins by examining the international financial sector reform and its evolution to inculcate the global framework for aml cft regulations it challenges the resulting uniform aml cft due to its paradoxical impact on the compliance trajectory of african countries and emerging economies acs ees this is done through an examination of the pre conditions for effective regulation and compliance drivers for acs ees that reveals the behavioural impact of the aml cft standards on the bloc of countries through the application of agency theory it explores the relationship between acs ees on the one hand and the international financial institutions that formulate disseminate and facilitate compliance with the global framework for aml cft standards on the other the remaining chapters review empirically the compliance pressures and resulting compliance trajectory of acs ees with the aml cft standards the final part of the book provides a detailed explanation of the compliance challenges of acs ees and the legitimacy concerns that facilitate this this book offers a new direction on the impact of global aml cft standards on acs ees and contributes to the understanding of the conditions under which the global standards are likely to facilitate proactive compliance within these blocs of countries as such it will be a valuable resource for academics researchers and policy makers working in this area

Annual Report 2017-09-22

offering an alternative exploration of the court of justice of the european union cjeu and its work this book aims to start a conversation between legal political and gendered examinations of the court of justice and some of the substantive areas of law it is concerned with in doing so it provides a broader and more holistic view of the court and its work which can add to our understanding of the institution its role and its case law as well as the contribution it can and does make to shaping law and policy and eu and national level
