when i first lived in ukraine i was preoccupied with its ideas of the past and future once maidan started there was nothing but the present every hour held the possibility of transformation and of terrible violence after leaving university in 2004 sophie pinkham moved to siberia to volunteer for the red cross tackling the rising aids crisis by folding origami tulips over the next decade she travelled and worked across the post soviet world from lake baikal to the black sea at a time when the young countries of the region were struggling to define their new identities black square is a multidimensional portrait of a period of tumultuous change and of a generation that came of age after the fall of the ussr only to see protestors shot on kiev s main square crimea annexed by russia and a bitter war in eastern ukraine we meet a charismatic doctor fighting the aids epidemic even as he struggles with his own drug addiction an iconoclastic artist with a penchant for public nudity and a russian jewish clarinettist agitating for ukrainian liberation with a deep knowledge of the literature and legends of the region and a keen outsider s eye for the dark absurdities of post soviet society black square delivers an indelible impression of a region and a world on the brink this guidebook is for college instructors who teach a course in introduction to logic at a teachers college or provide a workshop in this subject for in service mathematics teachers it can also be used by high school mathematics teachers for teaching students who are capable and interested in logic learning
