Solution-based Casework

2020-08-13

solution based casework is an approach to assessment case planning and case management that combines what we know from clinical social work with what we value about sound social work practice it is grounded in family centered social work and draws from clinical approaches within social work and mental health by integrating problem and solution focused approaches that form the clinical and social work traditions treatment partnerships are more easily formed between family caseworker and service provider solution based casework is a skill based practice oriented text that provides the specific guidance that students and new practitioners need in order to make sense quickly of the complex tasks of assessment and case planning in child welfare the book flows out of a long practice experience and was developed in consultation with workers and supervisors who were attempting to remedy problems viewed as contributing to recurrent abuse and neglect it seeks to end adversarial relationships in casework and advocates case plans based on specific outcome skills rather than on those written with vague outcome goals measuring attendance in counseling it serves as a common conceptual framework for integrating disparate segments of a response network thereby allowing all providers in a therapeutic system to work toward common goals the text is divided into three sections in section i the conceptual history and theoretical foundations of solution based casework are presented so that the reader can place this approach to casework within

the ongoing professional conversation about what constitutes sound practice section ii addresses issues of assessment and case planning section iii focuses on case management issues and how treatment team members experience a solution based casework approach

Solution-Focused Case Management **2015-11-06**

blundo and simon have successfully outlined how a solution focused perspective can be a powerful tool for case managers their understanding and presentation are based upon practice scenarios that are real and applied they clearly demonstrate the impact of thinking and language and the importance of building a collaborative relationship with clients their work challenges the traditional theory driven interventions that focus on problems and arrive at a diagnosis they encourage a shift to a coconstructive partnership that requires a practitioner to respect that clients are experts of their own lives Ö they provide a clear step wise discussion of techniques and strategies that can be employed working with individuals and families in case management settings this book is a must read ólawrence t force phd lcsw r professor of psychology mount saint mary college newburgh ny from the foreword solution focused practice is a paradigm that stresses client abilities strengths and individual goals rather than disability written by a team of educatorñpractitioners noted for their expertise in solution focused therapy this how to text for social work counseling and psychology students guides current and future case

managers in learning this strengths based collaborative approach to case management it discusses both the philosophical basis for solution focused casework and demonstrates how it is ideally suited for the case management process the book is based on teaching materials the authors have developed and used in their classes and workshops with undergraduate and graduate students and professionals the text incorporates new research and theoretical developments in solution focused therapy as well as actual practice scenarios demonstrating the process of building a collaborative relationship with individual clients and families replete with strategies and tools for practicing solution focused case management the text describes such essential skills as identifying goals monitoring progress working with other agencies and transitioning out of treatment it discusses issues related to ethical practice and presents strategies for self care additionally the book addresses diversity and social justice and their relationships to solution focused practice student exercises help to reinforce knowledge the text will assist case managers in a variety of settingsóhospitals nursing homes rehabilitation facilities community based mental health agencies schools prisons court systems and shelters for the homeless and victims of domestic violenceóto partner with their clients toward finding strengths based and solution focused approaches to resolving issues in a positive way key features authored by noted experts in solution focused education and practice facilitates a reframing of casework and case management around client strengths and resources provides specific case examples that allow readers to troubleshoot and apply solution focused principles to practice

includes student exercises throughout the book

Management Consulting in Practice **2006**

exploring the relationships between top management consultant teams and their clients this text includes case studies from both the private and public sectors as well as describing how the approaches employed can be utilised for other companies

Solution-based Casework 1999

solution based casework is an approach to assessment case planning and case management that combines what we know from clinical social work with what we value about sound social work practice it is grounded in family centered social work and draws from clinical approaches within social work and mental health by integrating problem and solution focused approaches that form the clinical and social work traditions treatment partnerships are more easily formed between family caseworker and service provider solution based casework is a skill based practice oriented text that provides the specific guidance that students and new practitioners need in order to make sense quickly of the complex tasks of assessment and case planning in child welfare the book flows out of a long practice experience and was developed in consultation with workers and supervisors who were attempting to remedy problems viewed as contributing to recurrent abuse and neglect it is a book that

adversarial relationships in casework and advocates case plans based on specific outcome skills rather than on those written with vague outcome goals measuring attendance in counseling it serves as a common conceptual framework for integrating disparate segments of a response network thereby allowing all providers in a therapeutic system to work toward common goals the text is divided into three sections in section i the conceptual history and theoretical foundations of solution based casework are presented so that the reader can place this approach to casework within the ongoing professional conversation about what constitutes sound practice section ii addresses issues of assessment and case planning section iii focuses on case management issues and how treatment team members experience a solution based casework approach dana n christensen is professor and director of the center for family resource development kent school of social work university of louisville jeffrey todahl is assistant professor with a specialization in marriage and family therapy college of education university of oregon william c barrett is in private practice family intervention of kentucky frankfort kentucky

this book provides a general introduction to the topic of
turbulent flows apart from classical topics in turbulence
attention is also paid to modern topics after studying this
work the reader will have the basic knowledge to follow
current topics on turbulence in scientific literature the theory
is illustrated with a number of examples of applications such
as closure models numerical simulations and turbulent
diffusion and experimental findings the work also contains a
number of illustrative exercises review from the textbook
academic authors association that awarded the book with
the 2017 most promising new textbook award compared to
other books in this subject we find this one to be very up to
date and effective at explaining this complicated subject we
certainly would highly recommend it as a text for students
and practicing professionals who wish to expand their

of narrative based chapters in which youth workers describe and reflect on dilemmas they have faced the knowledge and experiences they brought to bear on them and alternative paths they could have taken each chapter closes with a discussion from the literature about themes raised in the chapter an analysis of dilemma and a set of overarching discussion questions designed to have readers compare and contrast the cases consider what they would do in the situation and reflect on their own practice teaching us a great deal about the norms conventions continuities and discontinuities of youth work this practical book reveals essential dimensions of the profession and contributes to a practice based theoretical foundation of youth work

Mediation Theory and Practice

2014-05-06

this book is a commonsense guide to becoming a reflective practitioner written by a practitioner for practitioners relying on actual practice situations stories and self guided exercises it responds to the questions why should professionals care about reflective practice how do its principles and methods increase competence what characteristics distinguish reflective practitioners every person in a conflict resolution process sees the world differently and acts in a distinctive manner yet by following well developed practice routines practitioners often fail to consider the unpredictability of human interactions and overlook behaviors that are inconsistent with their expectations to respond effectively to surprising and unpredictable events this book encourages

2023-10-05

as a particular kind of writing in so doing he moves from psychoanalysis to the law and medicine to philosophy and the constituents of science freud and foucault jostle here with thomas kuhn ian hacking and robert stoller and einstein and freud's connection emerges as a case study of two icons in the general category of the jewish intellectual while forrester was particularly concerned with analysing the style of reasoning that was dominant in psychoanalysis and related disciplines his path breaking account of thinking in cases will be of great interest to scholars students and professionals across a wide range of disciplines from history law and the social sciences to medicine clinical practice and the therapies of the world

The London medical recorder 1888

an authoritative guide to educational supervision in today's complex environment the wiley handbook of educational supervision offers a comprehensive resource that explores the evolution of supervision through contributions from a panel of noted experts the text explores a wealth of topics including recent and dramatic changes in the complex context of today's schools this important resource describes supervision in a historical context includes a review of adult learning and professional community reviews new teacher preparation and comprehensive induction systems contains perspectives on administrative feedback peer coaching and collaboration presents information on professional development and job embedding learning examines policy and implementation challenges in teacher evaluation written for researchers policy analysts school administrators and

supervisors the wiley handbook of educational supervision draws on concepts theories and research from other closely related fields of study to enhance and challenge our understanding of educational supervision

The Guide to Reflective Practice in Conflict Resolution 2019-03-08

the advancements in decision sciences theory and applications can be regarded as a continuously emerging field in all areas of interest including technology industry energy healthcare education agriculture social sciences and more managers in all disciplines face an endless list of complex issues every day one of the essential managerial skills is the ability to allocate and utilize limited resources appropriately in the efforts of achieving optimal performance efficiently this is no less important for those who work in the transportation sector the handbook of research on decision sciences and applications in the transportation sector explores the importance of decision sciences and the ways in which they apply to the transportation sector this book covers technologies and tools including machine learning mathematical modeling and simulation and their applications in such tasks as reducing fuel costs improving passenger flow and ensuring vehicle safety it is an essential reference source for managers professionals in the transport industry supply chain specialists safety officers it consultants executives practitioners scientists students researchers and academicians

The American Journal of the Medical Sciences 1895

case based reasoning cbr is an artificial intelligence ai technique to support the capability of reasoning and learning in advanced decision support systems cbr exploits the specific knowledge collected on previously encountered and solved situations which are known as cases in this book we have collected a selection of papers on very recent cbr applications these after an in depth analysis of their specific application domain needs propose proper methodological solutions and give encouraging evaluation results which have in some cases led to the commercialization step the collected contributions demonstrate the capability of cbr to solve or handle issues which would be too difficult to manage with other classical ai methods and techniques such as rules or models the heterogeneity of the involved application domains indicates the flexibility of cbr and its applicability in all those fields where experiential knowledge is readily available

The Lancet 1888

an interdisciplinary framework for sustainable helping through cross system collaboration this hands on resource provides clear practical guidance for supportive service professionals working in a home based environment drawing on best practices from a range of disciplines this book provides a clear map for dealing with the complex and often ambiguous situations that arise with individuals

with applications extending to supervision and organizational change readers gain the advice and insight of real world frontline helpers as well as those who receive care highlighting new ways to approach the work and re think previous conceptualizations of problems and strengths helping efforts are organized around a shared forward thinking vision that anticipates obstacles and draws on existing and potential supports in developing a collaborative plan of action the book begins with stories that illustrate core concepts and context presenting a number of useful ideas that can reorient behavioral services while outlining a principle based practice framework to help workers stay grounded and focused problems are addressed and strength based work is expanded into richer conversations about strengths in the context of intention and purpose value and belief hopes dreams and commitments topics include contextual guidance with helping maps engaging people and re thinking problems and strengths dilemmas in home and community services sustainable helping through collaboration and support a strong collaboration between natural networks communities and trained professionals across systems creates an effective helping endeavor ensuring sustainability may involve promoting systems change and building institutional supports for specific supervisory management and organizational practices collaborative helping provides a framework for organizing these efforts into a coherent whole serving the needs of supportive services workers across sectors

The Chemical Trade Journal 1890

the book analyses how international law addresses interactions between international organizations in labour governance these interactions are ubiquitous they offer each organization an opportunity to promote its model of labour governance yet simultaneously expose it to adverse influence from others the book captures this ambivalence and examines the capacity of international law to mitigate it based on detailed case studies of mutual influence between the international labour organization the world bank and the council of europe the book offers an in depth analysis of the pertinent law and its key challenges both at institutional and inter organizational level the author envisions a law of inter organizational interactions as a normative framework structuring interactions and enhancing the effectiveness and legitimacy of multi institutional governance
