Community and the Politics of Place 1990 thomas jefferson envisioned a nation of citizens deeply involved in public life today americans are lamenting the erosion of his ideal what happened in the intervening centuries daniel kemmis argues that our loss of capacity for public life which impedes our ability to resolve crucial issues parallels our loss of a sense of place a renewed sense of inhabitation he maintains of community rooted in place and of people dwelling in that place in a practiced way can shape politics into a more cooperative and more humanly satisfying enterprise producing better people better communities and better places the author emphasizes the importance of place by analyzing problems and possibilities of public life in a particular place those northern states whose settlement marked the end of the old frontier national efforts to keep citizens apart by encouraging them to develop open country and rely upon impersonal procedural methods for public problems have bred stalemate frustration and alienation as alternatives he suggests how western patterns of inhabitation might engender a more cooperative face to face practice of public life community and the politics of place also examines our ambivalence about the relationship between cities and rural areas and about the role of corporations in public life the book offers new insight into the relationship between politics and economics and addresses the question of whether the nation state is an appropriate entity for the practice of either discipline the author draws upon the growing literature of civic republicanism for both a language and a vantage point from which to address problems in american public life but he criticizes that literature for its failure to consider place though its focus on a single region lends concreteness to its discussions community and the politics of place promotes a better understanding of the quality of public life today in all regions of the united states

Community Politics 1971 explains how americans need to develop or restore a sense of community in order to reconstruct society

Sites of Pluralism 2019-05-15 this book explores the politics of localism drawing on the work of groups in three communities in post industrial nottinghamshire third way politics gave a high priority to local participation seen as a way of rebuilding social networks and shifting welfare provision from the state onto civil society however under increasingly difficult conditions of austerity significant contradictions emerge between the aims of entrenching new markets for service provision and reviving communities and democratic participation exploring in depth community organisers understandings of political economy and its local effects and the governance practices which set the frameworks for fiercely independent community groups the book outlines the forms of politics which emerge this includes a challenge to the dominant thinking of the neoliberal consensus but also frustration and a sense of political communal loss which has left these communities alienated from both national politics and the often unattainable benefits of global mobility an alienation which makes the brexit vote of 2016 explicable as the disruptive outcome of a slow burning political crisis of long duration

Politics in States and Communities 2012 in an era of global transition contemporary grassroots organizing represents the dominant form of resistance available to people who seek to control their lives it is the basis for restoring public life empowering individuals and communities and challenging the state and the capital through empirically based case studies and theoretical essays mobilizing the community discusses strategies tactics ideology and leadership often used in grassroots mobilization it covers citizen initiatives ethnic self help organizations community based development and service delivery programs political lobbying and advocacy efforts political party building and direct action protest groups the empowerment of various groups middle class suburbanites the poor women gay men lesbian women communists neopopulists workers immigrants hispanics and blacks is addressed this comprehensive volume provides powerful suggestions to scholars practitioners and analysts of urban studies and political science as well as activists this is a very useful volume its emphasis on the process of community organizing leads to a focus on tactics strategy resource acquisition and alliance formation this compliments the more usual survey studies of movement participants which tend to be static and give equal weight to each individual housing studies

The Organization Ecology of Interest Communities 2016-04-29 community development is routinely invoked as a practical solution to tackle a myriad of social problems even though there is little consensus about its meaning and purpose through a comparative analysis of competing perspectives on community development since 1968 this book critically examines the contradictory ideas and practices that have shaped this field in the us and the uk this approach exposes a problematic politics that have far reaching consequences for those committed to working for social justice this accessible book offers an alternative model for thinking about the politics of community development and so will appeal to academics postgraduate students and community development workers

Public Policy in the Community 2011-07-13 this book shows how ordinary americans imagine their communities and the extent to which their communities boundaries determine who they believe should benefit from the government s resources via redistributive policies by contributing extensive empirical analyses to a largely theoretical discussion it highlights the subjective nature of communities while confronting the elusive task of pinning down pictures in people s heads a deeper understanding of people s definitions of their communities and how they affect feelings of duties and obligations provides a new lens through which to look at diverse societies and the potential for both civic solidarity and humanitarian aid this book analyzes three different types of communities and more than eight national surveys wong finds that the decision to help only those within certain borders and ignore the needs of those outside rests to a certain extent on whether and how people translate their sense of community into obligations

Community Development as Micropolitics 2016-07-20 diverse communities is a critique of robert putnam s social capital thesis re examined from the perspective of women and cultural minorities in america over the last century barbara arneil argues that the idyllic communities of the past were less positive than putnam envisions and that the current collapse in participation is better understood as change rather than decline arneil suggests that the changes in american civil society in the last half century are not so much the result of generational change or television as the unleashing of powerful economic social and cultural forces that despite leading to division and distrust within american society also contributed to greater justice for women and cultural minorities she concludes by proposing that the lessons learned from this fuller history of american civil society provide the normative foundation to enumerate the principles of justice by which diverse communities might be governed in the twenty first century

Boundaries of Obligation in American Politics 2010-03-08 a systematic examination of emotions and world politics showing how emotions underpin political agency and collective action after trauma

Local Parties in Political and Organizational Perspective 2021-12-13 together building better stronger communities is about our communities and how we need them to work at their best in today s political environment this environment is extremely challenging and is likely to remain so for some time in meeting these challenges communities that work democratically work best and they become stronger because a democracy engages the energies of everyone and everyone is needed to combat today s problems many books are to be read in the comfort of an easy chair or at a desk together isn t it was written to be read one chapter at a time and then discussed by any group of people who want to understand how they can contribute to making their community a better place to live raise a family and work communities where people are learning together are better able to adapt to changes in circumstances that they can t control reading this book together can be the first step to creating such a learning community

Community Without Unity 2009 in 1983 benedict anderson s imagined communities revolutionized the anthropology of nationalism anderson argued that print capitalism fostered nations as imagined communities in a modular form that became the culture of modernity now in represented communities john d kelly and martha kaplan offer an extensive and devastating critique of anderson s depictions of colonial history his comparative method and his political anthropology the authors build a forceful argument around events in fiji from world war ii to the 2000 coups showing how focus on imagined communities underestimates colonial history and obscures the struggle over legal rights and political representation in postcolonial nation states they show that the self determining nation state actually emerged with the postwar construction of the united nations fundamentally changing the politics of representation sophisticated and impassioned this book will further anthropology s contribution to the understanding of contemporary nationalisms
