DC Machines and Transformers (For GTU) 2015-10-06 portfolio flows to emerging markets ems tend to be correlated a possible explanation is the role global benchmarks play in allocating capital internationally the so called benchmark effect this paper finds that benchmark driven investors indeed play a large role in a key segment of the market the em local currency government bond market accounting for more than one third of total foreign holdings as of end 2014 we find that the prominence of these investors declined somewhat after the May 2013 taper tantrum but remain high this distinction is important in understanding the drivers of em capital flows and their sensitivity to different types of shocks in particular a high share of benchmark driven investors may result in capital flows that are more sensitive to global shocks and less sensitive to country factors

MOBILE COMPUTING 2020-04-01 this anthology of essays and articles explores topics ranging from untouched wilderness to scientific ethics and the nature of curiosity itself scientists and writers are both driven by a dogged curiosity immersing themselves in detailed observations that over time uncover larger stories as Rebecca Skloot says in her introduction all the stories in this collection are written by and about people who take the time and often a substantial amount of risk to follow curiosity where it may lead so we can all learn about it the best American science and nature writing 2015 includes work from both award winning writers and up and coming voices in the field from Brooke Jarvis on deep ocean mining to Elizabeth Kolbert on New Zealand's unconventional conservation strategies this is a group that celebrates the growing diversity in science and nature writing alike altogether the writers honored in this volume challenge us to consider the strains facing our planet and its many species while never losing sight of the wonders we're working to preserve for generations to come this anthology includes essays and articles by Sheri Fink Atul Gawande Leslie Jamison Sam Kean Seth Mnookin Matthew Power Michael Specter and others
