using an "event study" methodology this paper analyzes the aftermath of civil war in a cross section of countries it focuses on those experiences where the end of conflict marks the beginning of a relatively lasting peace the paper considers 41 countries involved in internal wars in the period 1960-2003 in order to provide a comprehensive evaluation of the aftermath of war the paper considers a host of social areas represented by basic indicators of economic performance health and education political development demographic trends and conflict and security issues for each of these indicators the paper first compares the post and pre war situations and then examines their dynamic trends during the post conflict period it conducts this analysis both in absolute and relative terms the latter in relation to control groups of otherwise similar countries the paper concludes that even though war has devastating effects and its aftermath can be immensely difficult when the end of war marks the beginning of lasting peace recovery and improvement are indeed achieved

The Science of War

2015-08-21

the central thesis of this research paper is that war continues to be an ugly business despite the profusion of laws and conventions designed to muzzle its devastation and limit the harm to non combatants no ethical theory of warfare can justify the horrific effects of war⁷ particularly as we view the lethality of modern weapons and the damage they can inflict upon their targets many just war theorists have tried to argue that unintended collateral damage is not a crime against humanity if it is the result of military operations waged in a just cause thus the justice of going to war *jus ad bellum* has carried more ethical weight than the resulting ways and means for waging war *jus in bello* while the just war tradition has served us well in establishing the moral and ethical basis for waging war it has been less persuasive and consistent with regards to the means in the world of digitization and precision guided munitions crimes against humanity have become a banal side effect perhaps the time has come to reassess what our just war tradition should be for the centuries ahead perhaps the time has come to ban war as an option for resolving conflict

stories and a few essays and plays his most successful novel slaughterhouse five or the childrens crusade a duty dance with death was his sixth book and published in 1969 this research paper will focus on the connection between billy pilgrim the main character of slaughterhouse five and the life of kurt vonnegut furthermore it will make use of this connection in order to suggest why kurt vonnegut wrote this book pilgrim who is an american world war ii veteran and survived the allied air raid on dresden in early 1945 strikes the reader as a very eccentric person he believes that he has come unstuck in time vonnegut 1991 p 23 and time travels to his childhood to his wedding to the battle of the bulge and to the air raid but not only that he has lost control over the temporal aspects of his life he furthermore believes that he has been kidnapped by aliens from the planet tralfamadore and taken to their world as an exhibit in a terrarium in order to point out the close relationship between the author and the main character i will subdivide this paper into several sections shortly giving information about the author s biography and providing a quick summary of slaughterhouse five this information has to be considered and related in order to understand vonnegut s motivation for writing this novel it is vital to realize that pilgrim is vonnegut and that whatever pilgrim feels is what vonnegut experienced in his life

excerpt from evolving chaplain doctrine in operations other than war a research paper presented to a598 elective research in low intensity conflict command and general staff college the reason i say this is because chaplain doctrine contained in fm 16 1 treats all ministry as generic that is ministry is the same in all types of units what works in one unit will work in another ministry is ministry is ministry only the environment changes not ministry fm 16 1 is not alone in this view joint pub 1 05 supports this idea when it says changes in religious ministry support activities will be more a matter of changing intensity and emphasis than dramatically altered duties about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Perplexity of What is Just in War After We Have Accepted What is Just About War. Reflections on JUS IN BELLO.

1996

research paper from the year 2012 in the subject african studies grade none university of benin course international studies and diplomacy language english abstract war is the highest form of political struggle for resolving contradictions when they have developed to a certain stage either between classes nations states or political groups hence the rapport between war and peace is being determined by the approach or position of diplomacy since the failure of diplomacy usually laid the basis for the start of war and after all wars peace often reign it is of enormous significance to recognize the important relationship between war and diplomacy like all civil wars the nigerian civil war was unique in the context of the nation s history this is because it was the most vivid expression of a country turned against itself as with civil wars in other countries the nigerian civil war can be analyzed within the context of a failed diplomatic act hence this paper discussed the position of negotiation or peace talk before and after the nigerian civil war of 1967 1970 it has also looked at the general impact of diplomacy during the period of the crisis
