1950

this 2004 annual report on exchange arrangements and exchange restrictions provides a detailed description of the exchange arrangements and exchange trade restrictions of individual imf member countries and hong kong special administrative region as well as aruba and the netherlands antilles the report highlights that the exchange rate of the kuna is determined in the foreign exchange market the croatian national bank may set intervention exchange rates which it applies in transactions with banks outside the interbank market to smooth undue fluctuations in the exchange rate

## ***Recent Developments in the Foreign Trade of Argentina***

1944

published since 1950 this authoritative annual reference is based upon a unique imf database that tracks exchange and trade arrangements for all 186 imf member countries along with hong kong sar aruba and the netherlands antilles the annual report on exchange arrangements and exchange restrictions areaer draws together information available to the imf from a number of sources including during official imf staff visits to member countries there is a separate chapter for each of the 189 countries included and these are presented in a clear easy to read tabular format a summary table allows for simple cross country comparisons of key features of their exchange

and trade regimes the report s introduction summarizes recent global trends and developments it discusses such topical issues as exchange rate arrangements current or capital transactions or prudential regulations the individual country chapters outline exchange measures in place the structure and setting of exchange rates arrangements for payments and receipts procedures for resident and nonresident accounts mechanisms for import and export payments and receipts controls on capital transactions and provisions specific to the financial sector the report now provides more detailed information on the operations of foreign exchange markets and exchange rate mechanisms and better describes the regulatory framework for current and capital account transactions

1974

dr peterson s book is the first in english or spanish to encompass the entire sweep of argentine american relations from the time of argentina s revolt against spain in 1810 to the close of its 150th year of independence through comprehensive analysis and narrative this study illuminates one of the most enigmatic areas of western hemisphere relationships from what would seem to be a bewildering array of incidents professor

peterson isolates the basic undercurrents which mold argentine policies internally argentina s path to stability is shown to be marred by developing social stratification and conflict economic mismanagement and the deep uncertainty of shifts from dictatorship to democracy internationally the germs of discord with the united states are found in nationalism anticolonialism desire for hemispheric leadership and economic competition discussed too are the fascinating crucial weaknesses and errors of human leadership in both countries argentina and the united states 1810 1960 makes an important contribution to an understanding of current as well as historical affairs it greatly helps to explain why in the twentieth century the government and people of the united states frequently face an argentine problem

2003

since completion of the fourth review

argentina's economic situation has become increasingly fragile with episodes of heightened market volatility reflecting more recently political uncertainties while the historic drought has resulted in larger than expected losses to agricultural production exports and fiscal revenues non agricultural activity has been resilient reflecting robust domestic demand in part a result of policy slippages inflation and external pressures have intensified with reserves falling to dangerously low levels on account of the drought and insufficient policy adjustment policy slippages reflected in part political constraints and electoral considerations during the august 13 open primary elections paso the libertarian party libertad avanza received the highest share of votes 30.0 percent followed by the opposition coalition juntos por el cambio 28.3 percent and the governing coalition unidos por la patria 27.3 percent the general elections are scheduled to take place on october 22 with a run off on november 19 if needed a new administration will assume office in early december
