mr groves believes that many christians today are questioning who they truly are and how they fit into the kingdom of god they have had doubts about what god says they will become or what they can be and challenge whether god will keep his word with what he will do in their lives they are having trouble with their faith and trust in god mr groves was also having trouble dealing with his trust and faith one day mr groves felt god s presence imparting the message that he would show what was needed to know and to become one with him mr groves experiences and journey compelled him to reveal what he has learned to others through god s wisdom it is important to include your heart mind body and soul and to conditionally love and trust his word this book reveals mr groves discovery of the power behind trusting him everything that he does and everything he says even when we are in the midst of our troubles he explains how having faith in god and god alone will bring us through whatever we are enduring as mr groves began to reconnect with god and reveal that he had felt left down by god in the past he learns a very valuable lesson and is delivered from the old and into the new with god his journey through trust and faith has led mr groves to tell his story john f groves writes i can recall the journey of transformation that god put me through to become one with him this was the process of being tucked away inside his cocoon of grace and trusting his timing his process and allowing him to completely remake me through his mercy it was time of not knowing what or who i would become once i submitted to his will and not on my own but i followed him even though i could not see what he saw in me

according to rudolf steiner s spiritual science the greatest spiritual event of our time is the renewal and reawakening of our human suprasensory relationship to the higher spiritual worlds the force that leads to this development called by various names in different cultural and religious traditions is called the christ impulse by anthroposophy in accordance with christian terminology because of new naturally endowed suprasensory faculties human beings are increasingly able to experience and perceive through an act of grace the great spiritual force of the christ impulse this experience is said to be a naturally given initiation and today we increasingly hear of such suprasensory experiences today however a healthy approach to these natural phenomena requires us to comprehend suprasensory experiences with full awareness and clear thinking this book builds an all important bridge between the naturally given suprasensory experience and its conscious cognition as a result empirical suprasensory research can investigate the different aspects of christ s etheric becoming and appearance in a way that both methodically and experientially fulfils the justified cognitive and scientific requirements of our age this new paperback edition adds a new introductory chapter

albert einstein is perhaps the missing link between science and religion he believed in god but through scientific research and mathematics he discovered that the world in which we live is not what it seems without intending to do so he discovered an error in one of the major cornerstones of science he discovered the truth about time and the error of evolutionary theory but it was too late the scientific community was already committed and nature would have to take its course ironically history continued to be taught as evolving while many brilliant minds could not the information was suppressed during that time the world seemed to enter into a period of chaos world wars and social uprisings the underpinnings of institutions were overrun and liberated in the name of freedom peace love and rock n roll took center stage forming a new foundation and direction for world events the clash between old world thinking and the modern world continues meanwhile my own story was also unfolding from a non religious simple childhood i came to discover an error in the history of the early christian church it is this error coupled with einstein s discovery which makes for the greatest spiritual find of our time together they mark the end of the age the end of times

theres more to inheriting eternal life than what many of us have been told depending upon your level of spiritual commitment this statement may or may not mean anything to you but it means everything to me why it is because eternal life represents the progressive alternative to endless death the only other potential final destination of my soul therefore as the soul shall subsist forever securing eternal life should be the primary objective of every progressive existence at the same time many have been deceived into believing that inheriting eternal life is as easy as saying a simple prayer or having an undeveloped meager level of faith still the reality is that inheriting eternal life i e the greatest prize of all time will naturally require the greatest investment of all time a life dedicated to the will of the father which is the basis of progressive spiritualism accordingly the scriptures teach us for whosoever will save his life shall lose it and whosoever will lose his life for my sake shall find it for what is a man profited if he shall gain the whole world and lose his own soul or what shall a man give in exchange for his soul see matthew 16 25 26 in my opinion any honest person would come to this conclusion and would rightfully as well as willfully desire to make the necessary investment required to obtain the prize of eternal life the problem is that many honest believers havent been told the whole story and are preparing to go to the judgment with many of their works undone consequently the question of the hour is simply this what more is there to the story conclusively the answers to this inquiry are found within this volume of the pinnacle of holiness building off the former volume which provides a high level description of the path which leads to eternal life this volume will focus on providing detailed information about the path thus it should be viewed as a spiritual training manual which each sojourner soldier can employ to ensure that they are abiding by every criterion associated with inheriting eternal life in the end and with regards to the delicate matter of eternal life the most critical factors are the instructions which the father has revealed to us by his spirit and recorded within his word definitively these spiritual and scriptural disclosures are contained within this volume as the scriptures have said and thine ears shall hear a word behind thee saying this is the way walk ye in it when ye turn to the right hand and when ye turn to the left

the liberation to the african mind the key to black salvation is a strong book written to the millions of african americans who have had their history distorted by the church and public schools because of these distortions black people are estranged and alienated from their culture and the wisdom of their ancestors the book challenges african americans to begin to think for themselves especially in the realm of religion it is a prophetic book with a revolutionary perspective it is prophetic in that it points to the direction the black church must take to effectively address the spiritual needs of the black community it is revolutionary because it challenges the church and believers to establish a new paradigm an african spiritual frame of reference the black church must transform itself and take on a new view of the scriptures doctrines and dogmas of christendom this book documents the fact that what blacks have been given as christianity is in reality stolen african mythology cosmology and history that has been corrupted by roman and greek priest philosophers and emperors it is one of the most powerful challenges to orthodox christianity to date the truth will liberate you from their strong delusions while there is indeed some positive and beneficial aspects to church membership it is time for the black church to make its exodus from the western religious way of faith in god to the african spiritual way of knowledge of god black pastors and religious leaders must begin to teach that which will bring about the manifestation of the fullness of christ this is the charge given to all church leadership by the bible they teach from and he himself gave some to be apostles some prophets some evangelist some pastors and teachers for the equipping of the saints for the work of the ministry for the edifying of the body of christ till we all come to the unity of the faith and the knowledge of the son of god to be a perfect man to the measure of the stature of the fullness of christ ephesians 4 11 13 there are far too many babes in christ in the church it is not the fault of the believers but a reflection of corrupted doctrines and false dogmas in addition the unity of the black church must become a priority not one church or believer can say they have no need of the rest of the body of christ in good conscience yet unity in the black church is more a rhetorical than an actual reality imagine what could be done if the wealth of the church was combined to establish a super fund unity must be at the top of the agenda for the black church and for the black community lastly though we have the proverbial church on every corner there is an undeniable spiritual crisis in the black community the liberation of the african mind the key to black salvation makes the spiritual resurrection of the black man a valid goal and priority it will challenge many long held beliefs and dogmas however christendom must be examined and that which is not of god must be abandoned not since marcus garvey fredrick douglas and the honorable elijah muhammad have blacks questioned the validity or efficacy of christianity mr muhammad made an attempt to make blacks aware that christianity was the religion of the people who had enslaved them every race worships god in a way that is peculiar to their culture since the days of captivity blacks have worshiped the god of their conquerors and oppressors worshipping a white man as god is not only a form of idolatry but extremely detrimental to the black psyche

the line of western spirituality began in egypt and continued through the time of christ has it become stalled in the years since robert clarke says yes it has in the four gold keys clarke going by his own spiritualization in the psychic depths argued that the way out of western civilization s essential atheism lies in the psychological teachings of swiss psychologist carl jung in an order outside time

clarke reinterprets western spirituality using jungian symbolism to show that the great stories of ancient egypt and of the old and new testament are processes of what jung called individuation this is the individual s journey from lowest to highest self from osiris to horus from moses to joshua from david to solomon from john the baptist to jesus christ these pairings also reflect what joseph campbell calls the hero s journey which may ultimately spiritualize the whole culture clarke traces the connections between egyptian jewish and christian mythology and concluding that the west s spiritual lineage has become stalled maintains that we can attain wholeness only by making sense of the clues provided by our mythology this is the royal line of higher self incarnations through the collective unconscious the ultimate example of individuation clarke says is the christ who must now be further understood and developed and taking christ as our symbol of the self direct experience of the sacred by each of us can enable us to achieve our greatest spiritual potential both as individuals and as a whole culture an order outside time shows how that spiritual journey began and how it must be continued

oconus is a military term for deployment outside the continental united states most often this means in a region that one would call enemy territory in such a place attack can be expected from any source at any time and soldiers are trained to anticipate such an event and prepare for it as christians we find ourselves deployed by the holy spirit in a territory that we are very familiar with but to which we no longer belong what was our natural environment now seems to be hostile towards us friends and even close relatives now seem to avoid us and we are under constant attack both behind our backs and to our faces before we were saved the world may have seemed to be a pleasant place but something changes when we receive the lord what has changed certainly the world around us hasnt changed it must have something to do with our salvation jesus made it clear to those who chose to follow him that they should expect such a change he made it clear that we can only love the world or him not both we might not have thought about loving the world but there was a certain allegiance to all the things we are familiar with when we are shipped overseas for a military operation we really miss the kind of life we enjoyed here we are attached to our home and we are glad that the deployment to hostile territory is just temporary but we believers have another home promised to us by the same lord we trusted in for our salvation so our deployment here in enemy territory is also temporary and we know in advance how it all ends
