organizations have moved already from the rigid structure of classical project management towards the adoption of agile approaches this holds also true for software development projects which need to be flexible to adopt to rapid requests of clients as well to reflect changes that are required due to architectural design decisions with data science having established itself as corner stone within organizations and businesses it is now imperative to perform this crucial step for analytical business processes as well the non deterministic nature of data science and its inherent analytical tasks require an interactive approach towards an evolutionary step by step development to realize core essential business applications and use cases the 4th international data science conference idsc 2021 brought together researchers scientists and business experts to discuss means of establishing new ways of embracing agile approaches within the various domains of data science such as machine learning and ai data mining or visualization and communication as well as case studies and best practices from leading research institutions and business companies the proceedings include all full papers presented in the scientific track and the corresponding german abstracts as well as the short papers from the student track among the topics of interest are artificial intelligence and machine learning implementation of data mining processes agile data science and visualization case studies and applications for agile data science organisationen sind bereits von der starren struktur des klassischen projektmanagements zu agilen ansätzen übergegangen dies gilt auch für softwareentwicklungsprojekte die flexibel sein müssen um schnell auf die wünsche der kunden reagieren zu können und um Änderungen zu berücksichtigen die aufgrund von architekturentscheidungen erforderlich sind nachdem sich die datenwissenschaft als eckpfeiler in organisationen und unternehmen etabliert hat ist es nun zwingend erforderlich diesen entscheidenden schritt auch für analytische geschäftsprozesse durchzuführen die nicht deterministische natur der datenwissenschaft und die ihr innewohnenden analytischen aufgaben erfordern einen interaktiven ansatz für eine evolutionäre schrittweise entwicklung zur realisierung der

wichtigsten geschäftsanwendungen und anwendungsfälle die 4 internationale konferenz zur datenwissenschaft idsc 2021 brachte forschers

The Power of Resilience

2021

the eleventh edition of the european energy markets observatory covers the full year 2008 and the winter 2008 2009 key messages developed
in the report the crisis has put the utilities sector under pressure and challenged the resilient character attributed to the utilities
sector security of supply has improved in electricity little progress was observed in gas contrasted progress towards a single electricity
and gas market even if the european union is the only region with a clear policy on climate change more efforts need to be implemented the
crisis has revealed the need for deeper utilities business models changes utilities need to lower their cost to serve and distribution
costs adapt to new customer relationship streamline and simplify their organizations processes and it to increase efficiency manage their
strategic resources and take advantage of new technologies

want a faster and more powerful pc it s there on your desk eventually it will be time to buy a new pc or put money into an upgrade but

microsoft windows xp power optimization shows you how to get the most out of your current equipment right now simply by tuning your windows setup these professional techniques range from the basic to the advanced and they can be used to achieve both targeted improvement and better overall system performance in every area the gains can be immense and the time it takes is minimal coverage includes enhancing performance by removing unneeded items making smart tradeoffs safely removing unneeded registry entries using command line utilities keeping internet explorer under control making simple but effective system tweaks creating a comprehensive archival system monitoring your system for performance concerns keeping your system in peak operating condition understanding the connection between user activity and system performance automating cleanup and maintenance tasks keeping your pc safe from viruses and human intruders catching and correcting mistakes system optimized what's next once you've helped your system live up to its potential help yourself by turning to microsoft windows xp power productivity also from sybex you'll find expert instruction on harnessing native windows functionality and third party utilities to work faster and smarter

Ubiquitous Security

2003-06

contemporary high performance computing from petascale toward exascale volume 3 focuses on the ecosystems surrounding the world's leading centers for high performance computing hpc it covers many of the important factors involved in each ecosystem computer architectures software applications facilities and sponsors this third volume will be a continuation of the two previous volumes and will include other hpc ecosystems using the same chapter outline description of a flagship system major application workloads facilities and sponsors features describes many prominent international systems in hpc from 2015 through 2017 including each system's hardware and software architecture covers facilities for each system including power and cooling presents application workloads for each site discusses historic and projected trends in technology and applications includes contributions from leading experts designed for researchers and students in high performance computing computational science and related areas this book provides a valuable guide to the state of the art research trends and resources in the world of hpc

as chairmen of hipeac 2005 we have the pleasure of welcoming you to the proceedings of the rst international conference promoted by the hipeac n work of excellence during the last year hipeac has been building its clusters of researchers in computer architecture and advanced compiler techniques for embedded and high performance computers recently the summer school has been the seed for a fruitful collaboration of renowned international faculty and young researchers from 23 countries with fresh new ideas now the conference promises to be among the premier forums for discussion and debate on these research topics theprestigeofasymposiumismainlydeterminedbythequalityofitstech cal program this rst programlived up to our high expectations thanks to the largenumber of strong submissions the programcommittee received a total of 84 submissions only 17 were selected for presentation as full length papers and another one as an invited paper each paper was rigorously reviewed by three programcommittee members and at least one external referee many reviewers spent a great amount of e ort to provide detailed feedback in many cases such feedback along with constructive shepherding resulted in dramatic improvement in the quality of accepted papers the names of the program committee m bers and the referees are listed in the proceedings the net result of this team e ort is that the symposium proceedings include outstanding contributions by authors from nine countries in three continents in addition to

paper presentations this rst hipec conference featured two keynotes delivered by prominent researchers from industry and academia
