*The Theme of Boundaries in the Poetry of Robert Frost* 2007 essay from the year 2018 in the subject literature basics language english abstract this paper discusses the theme of detachment in old english poetry it focuses on the poems the wanderer the seafarer and the wife s lament here the narrators all come to tell of their own dramatic experiences of detachment from a beloved place or person the theme of detachment is surely quite controversial as it triggers emotions often more intricate than mere nostalgia we will then see how this emotion is represented through the three speaking voices of the poems and how the texts invite us to understand the experience of exile in close relation to the natural world and to the questions of captivity and liberation

### **The Theme of Detachment in Old English Poetry. "The Wanderer", "The Seafarer" and "The Wife's Lament"**

2020-06-16 one of keats finest sonnets begins much have i traveled yet keats traveled very little only to italy where he died shelley also an introspective and intellectual dabbled in politics often with a comic effect and although he could not swim he was devoted to sailing wordsworth marched to france praising the revolution which he later regretted coleridge wandered to germany and german metaphysics later he created the ancient mariner which is the mythic centerpiece of the romantic period each of these poets feels that the occupation of a poet demand a dedication to a life of action as well as inward discovery consequently the image of the journey with its double reference to natural and psychic realities is one of the unifying motifs of nineteenth century poetry alfred tennyson the author claims was one of the last poets able to make both voyages but he could only do so with great effort and at great expense by nature introspective he found the life of the mind far more appealing than the life of action yet he knew like milton and keats before him that great poetry demands the voyage without as well as the voyage within his early poetry then is concerned with the pull of the two voyages and thus it becomes in arnold s worlds the dialogue of the mind with itself there is for modern readers something intensely interesting about such a divided personality for we see in tennyson almost the same dilemma that faces contemporary artists often when we read his poems we feel that tennyson is of our age but then at times he seems as remote from us as bishop wilberforce and his anti darwin fulminations what then is there about tennyson that makes him appear so modern and yet so dated the answer is not easily given although this has been one of the primary concerns of tennyson s critics in this book the author shows how tennyson became the mental voyager exploring both the inner and outer worlds and further how in making the two voyages he followed the pattern of development of other romantic artists of the nineteenth century he examines certain themes and images in tennyson s early verse which in their frequent recurrence attain symbolic status and by doing so he shows that there is a very clear cut pattern in tennyson s poetry one which is repeated time and again throughout the poet s work to 1850

Variations on a Theme (Classic Reprint) 2015-07-18 seminar paper from the year 2003 in the subject english language and literature studies literature grade 1 a the university of sydney anglistics course australian literature 1920 1960 1 entries in the bibliography language english abstract when reading poetry i as a reader want to imagine a picture conveyed to me by the language used in the poem i want to be drawn into the poem want to feel part of what is written and want to be able to see the images of the words in my own thoughts the question therefore must be how a poet achieves such an effect in the reader this

paper will examine closely some of the means used by the two poets Kenneth Slessor and Judith Wright to make their language embody the image they are trying to convey the paper will at first focus especially on short individual passages to examine the use of stylistic devices and use of sound the second part will focus on the bigger picture and look at the poem as a whole examining the use of recurring images and themes Judith Wright's poem *Woman to Man* reaches its climax in the last line of the poem in which a mother confesses the fear that comes alongside the birth of her child the two lines before this confession seem to intensify the feeling of danger and threat that ultimately leads to the mother's fear

**Selected Poetry Book II** 2013-04-11 first published in 1961 this study analyses Shakespeare's treatment of the universal themes of beauty love and time he compares Shakespeare with other great poets and sonnet writers Pindar Horace and Ovid with Petrarch Tasso and Ronsart with Shakespeare's own English predecessors and contemporaries notably Spenser Daniel and Drayton and with John Donne by discussing their resemblances and differences a not altogether orthodox picture of Shakespeare's attitude to life is presented which suggests that he was not as phlegmatic and equable a person as critics have often supposed

**Poetry Themes** 1977 in close readings of a wide range of texts significant during their own time but little studied today the author presents a new view of late medieval French poetry in all its subtle variety its quirkiness its sumptuous and acrobatic rhyming its frequent moral seriousness its occasional bawdiness and the ambiguities of its authorial I the book is centered on the rich metaphor of poetry as play a joyous activity a game in which both the poet and the public may be players the number of word games is legion and the late medieval poets play different kinds involving puns rhymes riddles sexual jokes irony and ambiguity sometimes the game is blindman's buff where the poet's identity is hidden changed multiplied some poems are farces or high comedy others are morality plays in which the poet casts himself as a player identifying the role played by the poet the place of his or her I in its various embodiments is a major concern in the reading of the texts Guillaume de Machaut serves as the first player of the poetic game and particularly in his ballades as a kind of magister ludi who is the source of the rules

**The Theme of Time in the Poetry of Anna Axmatova** 1971 Ted Hughes is a versatile genius he is famous as a poet of violence violence is essentially one of his obsessive themes in his poetry Hughes seems to equate violence with vehement activity a destructive one this study mainly takes up poems from his first two collections *The Hawk in the Rain* and *Lupercal* it is an attempt to understand the interconnection between animal imagery and violence in fact the early poetry of Ted Hughes is the poetry of animal world violence is often implicated in his celebration of the instinctual energy symbolized by animals we find that the poetry of Ted Hughes has an element of violence for him violence and power go together his own dark gods are the marker of the tiger not the lamb critics have generally referred to the presence of violence in the poetry of Ted Hughes but no detailed study is available where the wide meanings of this aspect are sought to be understood

**The Use of Language, Images and Themes in Australian Poetry - Examining poems by Judith Wright and Kenneth Slessor** 2003-09-08 twentieth century Spanish poetry has received comparatively little attention from critics writing in English Andrew Debicki now presents the first English language history published in the United States to examine the sweep of modern Spanish verse more important he is the first to situate Spanish poetry in the context of European modernity to trace its trajectory from the Symbolists to the Postmodernists avoiding the rigid generational schemes and catalogs of names found in traditional Hispanic literary histories Debicki offers detailed discussions of salient books and texts to construct an original and compelling view of his subject he demonstrates that contemporary Spanish verse is rooted in the modern tradition and poetics that see the text as a unique embodiment of complex experiences he then traces the evolution of that tradition in the early decades of the century and its gradual disintegration from the 1950s to the present as Spanish poetry came to reflect features of the postmodern especially the poetics of text as process rather than as product by centering his study on major periods and examining within each the work of poets of different ages Debicki develops novel perspectives the late 1960s and early 1970s for example were not merely the setting for a new aestheticist generation but an era of exceptional creativity in which both established and new writers engendered a profound intertextual and often self-referential lyricism this book will be essential reading for specialists in modern Spanish letters for advanced students and for readers interested in comparative literature

silent sea slug and the melancholy sea slug giving each a chapter within which the metaphors may be further subdivided and adds a 100 pages of sundry sea slugs scores of varieties including monster spam flying urban myth and exploding fifth it is a book on haiku editors usually select only the best haiku but gill includes good and bad haiku by everyone from the 17th century haiku master to the anonymous haiku rejected in some internet contest this is not to say all poems found were included but that the standard was along more taxonomic or encyclopedic lines poems that filled in a metaphorical or sub metaphorical gap were always welcome also gill shows there is more than one type of good haiku these are new ways to approach haiku sixth it is a book on translation there are approximately 2 translations per haiku and some boast a dozen these are arranged in mixed single double and triple column clusters which make each reading seem a different aspect of a singular almost crystalline whole the authors aim is to demonstrate that multiple reading such as found in hofstadter's le ton beau de marot is not only a fun game but a bona fide method of translating especially useful for translating poetry between exotic tongues seventh it is a book of nature writing natural history or metaphysics in the emersonian sense gill tried to compile relevant or interesting not necessarily both historical this includes the sea slug in literature english or japanese and in folklore and scientific facts to read haiku in their light or conversely bring out science from haiku unlike most nature writers gill admits to doing no fieldwork but sluggishly staying put and relying upon reports from more mobile souls eighth it is a book about food symbolism the sea cucumber is noticed by japanese because they eat it the eating itself involves physical difficulties slipperiness and hardness and pleasures from overcoming them it is also identified with a state of mind where you are what you eat takes on psychological dimensions not found in the food literature of the west ninth it is a book about japanese culture gill does not set out to explain japan and the sea slug itself is silent but the collection of poems and their explanations which include analysis by poets who responded to the author's questions as well as historical sources take us all around the culture from ancient myths to contemporary dreams tenth it is a book about sea cucumbers while most species of sea cucumbers are not mentioned and the coverage of the japanese sea cucumber is sketchy from the scientific point of view gill does introduce this animal graced to live with no brain thanks to the smart materials comprising it and blessed for sucking in dirty sediment and pooping it out clean eleventh it is a book about ambiguity gill admits there is much that cannot be translated much he cannot know and much to be improved in future editions for which purpose he advises readers to see the on line glosses and errata in english and japanese his policy is to confide in rather than slip by the reader unnoticed in the manner of the invisible modern translator and allow the reader to make choices or choose to allow multiple possibilities to exist by not choosing twelfth the book is the first of dozens of spin offs from a twenty book haiku saijiki poetic almanac called in praise of olde haiku ipoo for short gill hopes to finish within the decade thirteenth the book is a novelty item it has a different often witty header caption on top of each page and copious notes that are rarely academic and often humorous
