Translatio Studiorum 2013-03-27

The present volume collects seventeen case studies that characterize the various kinds of translations within European culture over the last two millennia. Intellectual identities establish themselves by means of a continuous translation and rethinking of previous meanings, a sequence of translations and transformations in the transmission of knowledge from one intellectual context to another. This book provides a view on a wide range of texts from ancient Greece to Rome, from the medieval world to the Renaissance, indicating how the process of *translatio studiorum* evolves as a continuous transposition of texts of the ways in which they are rewritten, their translations, interpretations, and metamorphosis, all of which are crucial to a full understanding of intellectual history.

Pieter Coecke van Aelst (1502–1550) was renowned throughout Renaissance Europe as a draftsman, painter, and publisher of architectural treatises. The magnificent tapestries he designed were acquired by the wealthiest clients of the day, up to and including rulers such as Emperor Charles V, King Francis I of France, King Henry VIII of England, and Grand Duke Cosimo I de' Medici of Tuscany. At the same time, Coecke was remarkable not only for the complexity and unparalleled quality of his tapestries but also for his fluency in various media. This lavishly illustrated volume examines the full range of his work, from tapestry and stained glass window designs to panel paintings, prints, drawings, and architectural treatises. Though only forty-eight when he died, Coecke was one of the greatest Netherlandish artists of the sixteenth century. His paintings and drawings, initially wrought in the style of the Antwerp Mannerists, evolved through his enthusiastic response to Italian Renaissance design and influenced generations of artists in his wake. This comprehensive study explores Coecke's stylistic development as well as his substantial contribution to the body of great Renaissance art in Flanders, featuring twenty monumental tapestries along with many of their cartoons and preparatory sketches, plus seven paintings, additional drawings, and printed matter. Many of them newly photographed for this volume, *Grand Design* provides a thorough reappraisal of Coecke's work, amply justifying the high regard in which Coecke's work was held and its wide dissemination long after his death.

the essential buddhist perspective howe argues is that reality lacks the solidity which we habitually assume it has and that therefore the appropriate attitude toward life is to play it as we would a game with unusual seriousness for itself rather than for any ulterior motive even that of investing it with meaning howe also demonstrates that the real subject of representational art is always just itself the significance of such art depends upon the concession that it has no significance in the same way it is precisely the self deconstructive nature of shakespeare s plays which makes their buddhist like affirmative positions visible

over the course of several centuries venice fashioned and refined a portrait of itself that responded to and exploited historical circumstance never conquered and taking its enduring independence as a sign of divine favor free of civil strife and proud of its internal stability venice broadcast the image of itself as the most serene republic an ideal state whose ruling patriciate were selflessly devoted to the commonweal all this has come to be known as the myth of venice exploring the imagery developed in venice to represent the legends of its origins and legitimacy david rosand reveals how artists such as gentile and giovanni bellini carpaccio titian jacopo sansovino tintoretto and veronese gave enduring visual form to the myths of venice he argues that venice more than any other political entity of the early modern period shaped the visual imagination of political thought this visualization of political ideals and its reciprocal effect on the civic imagination is the larger theme of the book

La Sicilia e il Grand Tour 2011-11-10T00:00:00+01:00

this book provides an overview of the literary grotesque in 19th century europe with special emphasis on charles dickens whose use of this complex aesthetic category is thus addressed in relation with other 19th century european writers the crossing of geographical boundaries allows an in depth study of the different modes of the grotesque found in 19th century

fiction it provides a comprehensive analysis of the reasons behind the extensive use of such a favoured mode of expression intertextuality and comparative or cultural analysis are thus used here to shed new light on dickens s influences both given and received as well as to compare and contrast his use of the grotesque with that of key 19th century writers like hugo gogol thackeray hardy and a few others the essays of this volume examine the various forms taken by the grotesque in 19th century european fiction such as for example the fusion of the familiar and the uncanny or of the terrifying and the comic as well as the figures and narrative techniques best suited for the expression of a novelist s grotesque vision of the world these essays contribute to an assessment of the links between the grotesque the gothic and the fantastic and more generally the genres and aesthetic categories which the 19th century grotesque fed on like caricature the macabre and tragicomedy they also examine the novelists grotesque as contributing to the questioning of society in victorian britain and 19th century europe echoing its raging conflicts and the shocks of scientific progress this study naturally adopts as its theoretical basis the works of key theorists and critics of the grotesque namely victor hugo charles baudelaire and john ruskin in the 19th century and mikhail bakhtin wolfgang kayser geoffrey harpham and elisheva rosen in the 20th century

The Aramaic Books of Enoch and Related Literature from Qumran 2024-05-16

this book brings to life the story of the construction of some of the most outstanding early renaissance buildings in venice through a series of individual case studies richard j goy explores how and why great buildings came to be built he addresses the practical issues of constructing such buildings as the torre dell orologio in piazza san marco the arsenale gate and the churches of santa maria della carita and san zaccaria focusing particular attention on the process of patronage the book is the first to trace the complete process of creating important buildings from the earliest conception in the minds of the patrons the venetian state or other institutional patrons through the choice of architect the employment of craftsmen and the selection of materials in an interesting analysis of the participants roles goy highlights the emerging importance of the superintending master the protomaestro

in the transmission we encounter various transformations of biblical proper names the basic phonetic relationship between semitic languages on the one hand and non semitic languages like greek and latin on the other hand is so complex that it was hardly possible to establish a unified tradition in writing biblical proper names within the greek and latin cultures since the greek and latin alphabets are inadequate for transliteration of semitic languages authors of greek and latin bibles were utter grammatical and cultural innovators in greek and latin bibles we note an almost embarrassing number of phonetic variants of proper names a survey of ancient greek and latin bible translations allows one to trace the boundary between the phonetic transliterations that are justified within semitic greek and latin linguistic rules and those forms that transgress linguistic rules the forms of biblical proper names are much more stable and consistent in the hebrew bible than in greek latin and other ancient bible translations the inexhaustible wealth of variant pronunciations of the same proper names in greek and latin translations indicate that greek and latin translators and copyists were in general not fluent in hebrew and did therefore not have sufficient support in a living hebrew phonetic context this state affects personal names of rare use to a far greater extent than the geographical names whose forms are expressed in the oral tradition by a larger circle of the population

fascist and colonial legacies have been determinant in shaping how italian colonialism has been narrated in italy till the late 1960s this book deals with the complex problem of public memory and discursive amnesia the detailed research that underpins this book makes it no longer possible to claim that after 1945 there was an absolute and traumatic silence concerning italy s colonial occupation of north and east africa however the abiding public use of this history confirms the existence of an extremely selective and codified memory of that past the author shows that colonial discourse persisted in historiography newspapers newsreels and film popular culture appears intertwined with political and economic interests and the power inscribed in elite and scientific knowledge while readdressing the often mistaken historical time line that ignores that actual italian colonial ties did not end with the fall of fascism but in 1960 with somalia becoming independent this book suggests that a new post fascist italian identity was the crucial issue in reappraisals of a national colonial past

quale autore potrà mai dire come e perché un personaggio gli sia nato nella fantasia la domanda che si pone pirandello trova nei suoi scritti una risposta inequivocabile un'opera d'arte è il parto della fantasia nella quale si è inserito un germe vitale pronto a crescere per avere vita propria e a fecondare la fantasia servetta sveltissima e un po' dispettosa e beffarda è sempre un'emozione un'emozione feconda per l'appunto il sintagma fortemente espressivo da cui questo volume prende le mosse è utilizzato dall'autore in molte occasioni e sempre in riferimento al mistero della creazione artistica ovviamente un simile problema si intreccia all'interno dell'intera opera pirandelliana con una gamma molto vasta di tematiche connesse capaci di muoversi dall'essenza stessa dell'arte di pirandello ovvero la definizione di umorismo fino alla sperimentazione trasversale dei generi e dei codici artistici vale a dire il continuo travaso di idee e la costante autoreferenzialità tenendo conto soprattutto di queste due prospettive i saggi qui raccolti propongono una lettura di alcune delle più significative opere pirandelliane che presentano questo intreccio di problematiche tese a svelare fin dove l'autore lo permette il mistero della sua creazione artistica

cities are shaped as much by a repertoire of buildings works and objects as by cultural institutions ideas and interactions between forms and practices entangled in identity formations this is particularly true when seen through a city as forceful and splendid as venice the essays in this volume investigate these connections between art and identity through discussions of patronage space and the dissemination of architectural models and knowledge in venice its territories and beyond they celebrate professor deborah howard's leading role in fostering a historically grounded and interdisciplinary approach to the art and architecture of venice based on an examination and re-interpretation of a wide range of archival material and primary sources the contributing authors approach the notion of identity in its many guises as self-representation as strong sub-currents of spatial strategies as visual and semantic discourses and as political and imperial aspirations employing interdisciplinary modes of interpretation these studies offer ground-breaking analyses of canonical sites and works of art diverse groups of patrons as well as the life and oeuvre of leading architects such as jacopo sansovino and andrea palladio in so doing they link together citizens and nobles past and present the real and the symbolic space and sound religion and power the city and its parts venice and the stato da mar the serenissima and the sublime port
