

Free reading Financial management in public enterprises Full PDF

first published in 1987 this book contains studies on some important aspects of public enterprise based on the experience of a wide spectrum of developed and developing countries public enterprise and evaluation seeks to introduce some fundamental ideas on the concept of evaluation at four levels deals with evaluation as a system and succinctly reviews the experience of the united kingdom argentina malaysia pakistan nepal and india capital structures of public enterprises brings out the economic issues that are implicit in the arrangements of capitalisation in vogue in the public enterprise sector public enterprise and the public exchequer is an in depth analytical study of certain aspects of the budget link of public enterprises and shows how this has not yet been adequately realised and privatisation in the african context deals with the concept of privatisation now coming into prominence and presents a non doctrinaire review of the problems it raises performance evaluation is not a simple task in private enterprises and it is all the more complicated in public enterprises this paper emphasizes three main points a a public enterprise must be evaluated b a public enterprise must not be evaluated like a private enterprise and c a public enterprise should be evaluated by starting with private profit and making a series of adjustments to make it fair to the nation and to managers this paper suggests introducing a signaling system which consists of three major components the first is a performance evaluation system in which national goals are translated into explicit enterprise objectives and quantified in a performance criterion the second is a performance information system in which actual achievements are monitored the third is an incentive system in which the welfare of managers and workers is linked to national welfare by a pecuniary or non pecuniary bonus system based on achievement of particular target values of the criterion variables the paper proposes a phased system of implementation stressing how performance evaluation must be the product of an evolutionary process involving both enterprise managers and government supervisors this book attempts to understand issues of corporate governance in the case of the public sector units in india originally published in 1959 the subject of this book is an aspect of economic development which despite its importance had rarely attracted more than incidental attention at the time the author s interest in public enterprise in underdeveloped countries was stimulated by a year s residence in turkey he felt the time had come for a general comparative study defining comparative as 1 between developed and underdeveloped countries and 2 between different underdeveloped countries at dissimilar stages of development or with dissimilar development perspectives

the purpose of the first is to discover what the developed can offer the underdeveloped by way of adaptable experience and relevant ideas that of the second to examine the use of public enterprise in the many different social economic and political contexts to be found in the less advanced parts of the world the first book to use economic logic to develop a quantitative approach to making divestiture decisions this volume written by robert h floyd clive s gray and r p short contains three papers dealing with various aspects of the public enterprise sector and the impact that these may have on macroeconomic analysis very valuable for both policy makers and researchers professor athar hussain director development economics research programme sticerd the london school of economics and political science the really novel idea is to bring together the experience of three rather diverse countries and then to discuss eastern europe in the light of this experience state holding companies are likely to play a major role in eastern europe over the next ten years or more but very little has been written on them and few of the people advising the east europeans have any real knowledge about them professor robert rowthorn university of cambridge rich and substantial professor john toyne institute of development studies university of sussex most informative the conclusions are appropriately restrained well balanced and wise the emphasis on the differences between portfolio management and enterprise management is a distinction that east europe will eventually have to learn raymond vernon emeritus professor john f kennedy school of government harvard university large and poorly performing state owned enterprises pose a problem for countries attempting to move away from government controls towards more liberal economic environments privatization is an unproven solution which is proving difficult to implement on a major scale intermediate solutions may therefore prove to be the way forward this book focuses on one of these the state holding company it first discusses the state holding company as a managerial form which permits decentralised public enterprise management and offers a framework for its analysis then drawing upon the experience of both developed and developing countries it examines the extent to which the indirect state ownership of public enterprises through holding companies can contribute to transition processes it shows that the experience of countries like italy egypt and algeria has direct relevance for institutional structures evolving in the newly transforming countries of eastern europe which are struggling to find a balance between public enterprise ownership and efficiency judith clifton francisco comín and daniel díaz fuentes in privatisation in the european union reject the two dominant explanations provided in literature which include a simple americanisation of policy and a varied privatisation experience without a common driving force using a systematic comparative analysis of privatisation experiences in each country from the 1980s to the beginning of the twenty first century the authors show how the process of european integration and the need

for internationally competitive industries have constituted key driving forces in the quest for privatisation across the eu as privatisation slows down at the turn of the millennium what future can citizens expect for public enterprises privatisation in the european union is essential reading for researchers students and policy makers interested in privatisation eu policy and the history of public enterprises this book presents a number of cases both in centrally planned and market economy systems where the culture and practice of entrepreneurship were successfully introduced into the structure and activities of public enterprises the book shows how sponsorship can help promote both public and private economic initiatives by either turning the public enterprise into an entrepreneurial and intrapreneurial organization or by helping small private business in the start up stage case study of punjab and haryana india this book contains a study of the economics and management of public enterprises in pakistan it examines their performance organizational behavior relationships with other government organizations outside of the sector and the issues that confront the public enterprise sector and the government this book helps fill the void in teaching materials about the latin american public sector it began as two case studies of public enterprises jointly carried out by the office for public sector studies of the university of texas at austin which the author directed and the universidad del pacifico in lima over the years the cases expanded into in both the developed world and the third world public enterprise has come to assume considerable importance in the structure and development of national economies originally published in 1984 this book by an acknowledged international authority on public enterprise explores this concept in both the major and the developing economies he analyses how public enterprise functions and demonstrates how it may be integrated into both traditional western mixed economies and third world economies with a much high level of state control study conducted by institute of public enterprise hyderabad in many parts of the world public enterprise is in crisis privatisation programmes are being widely touted as the solution to many of the problems of inefficiency and slow rates of growth associated with public enterprise this book discusses the underlying causes of those problems and critically examines some of the solutions that have been adopted its geographical coverage is wide and it cuts across the political spectrum the experiences of countries in four continents are analysed in an attempt to shed light on current dilemmas recurrent patterns are found problems are frequently seen to be political as much as economic and bureaucracy and administrative confusion is often found to be at the heart of poor financial performance yet since political aims economic environment and administrative and managerial capabilities vary so widely universal solutions remain more difficult to define than universal problems originally published in 1971 this is a rigorous analysis of the economic aspects of the efficiency of public enterprises at the time the author first restates and extends the relevant

parts of welfare economics and then illustrates its application to particular cases drawing on the work of the national board for prices and incomes of which he was deputy chairman the analysis is developed stage by stage with the emphasis on applicability and ease of comprehension rather than on generality or mathematical elegance financial performance the second best the optimal degree of complexity of price structures and problems of optimal quality are first discussed in a static framework time is next introduced leading to a marginal cost concept derived from a multi period optimizing model the analysis is then related to urban transport shipping gas and coal this is likely to become a standard work of more general scope than the authors earlier book on electricity supply it rests however on a similar combination of economic theory and high level experience of the real problems of public enterprises conference report on public enterprise and the role of law in india indonesia malaysia and sri lanka covers such aspects as control and regulation financial supervision business organization and management the need for research and training etc references conference held in colombo 1974 may 26 to 31 this book explores the complex question is privatisation a good public policy a serious academic work on a theme few would like to operate this volume examines the structure and trends in compensation in public and private enterprises and multinational corporations in india it suggests an innovative paradigm for compensation management in public enterprises in order to enhance their productivity their national and international competitiveness and their bond with public enterprises discussing some novel concepts such as the cost to company performance related pay and employee stock option plans this book also includes engaging interactions with policy makers and executives public enterprises reforms occupy the central place in the schemes of economic reforms in india in many developing countries opting for economic reforms public enterprise reforms have come at the beginning of the cycle of economic reforms in india it has not happened so and the results are there for us to see the present book makes an attempt to present a case for reforming public enterprises in india and also the agenda for action for this purposes it outlines the challenges ahead for public enterprises and the need for reforms viewed from the global perspective it outlines the performance of the public enterprises and the areas requiring the attention of the reformers it presents the case of a state in which reforms have to be carried out and the context for such reforms it identifies regulations as one of the key component of the reforms the book also elucidates the reform experience of some of the states it presents a balanced view of the theory and practice of public enterprise management in the reform context it incorporates case studies of nine public enterprises to demonstrate the need and effect of economic reforms discussion on public enterprise management and operations in developing countries comparative study of public enterprise management in different countries around the world pointing to historical trends and current issues and problems

experts survey an interesting collection of countries in the americas asia the middle near east europe and australia they also discuss public enterprise management education references with each chapter contribute to the usefulness of this assessment for political scientists public administrators international businessmen and those engaged in international studies in many countries the activities of public enterprises have an important fiscal impact while the precise nature of this impact is often obscured it is important that it be reflected in measures of overall fiscal activity the paper is intended to raise and clarify some of the issues involved in this task originally published in 1986 this volume brings together papers on the organisational structure of select public enterprises from nine countries developed and developing they are set in different forms work in different sectors and have diverse experiences often on similar issues the papers are written by top executives of the respective enterprises and therefore contain an authentic presentation of the problems and processes of organisation the editor has included at the beginning an analytical review on certain fundamental aspects of organisational structure which for the purpose of this volume has been conceived in wide terms every one of these aspects is not exactly covered by every empirical paper at the end he has provided a comparative review trying to keep to a minimum repetition of material from the papers this book presents the key interactions in local government and public enterprise drawing together the challenges for local governance in the practice of public entrepreneurship and its response to collaboration place and place making specifically this book includes the impact of local partnerships and public entrepreneurs in local policy implementation it is written by established authors bringing together their experience and practice of local partnerships and public entrepreneurship in place based strategies and will be of value to local government new forms of enterprise partnerships wider agencies and public entrepreneurship scholars as well as policymakers responsible for implementation of place based regeneration this text will be of key interest to students scholars and practitioners in public administration business administration local government entrepreneurship public sector management and more broadly to those with interests in public policy business and management political science economics urban studies and geography a number of public enterprise pe executives have long felt the need for a book which would provide necessary information and analysis of various dimensions of pe management and privatisation the book provides at one place a precise and authoritative account of the concept policy and analysis of major issues confronting pes public ownership per se does not make pe performance sub optimal the operation of the government system of which pe is a sub system has not been conducive to performance during the last six decades inadequate political will and vested interests have come in the way of freeing pes from excessive and throttling controls and demoralising accountability not letting the

managers manage with the freedom required in the liberalised and globalised set up is the problem the multifarious and complex managerial problems of pes which get compounded by faltering moves towards privatisation cannot be wished away these have been considered in the book at some length the book first published in 1980 continues to be a standard work on the subject this latest edition has been revised by dr r k mishra director institute of public enterprise hyderabad report on the financial aspects of state intervention in public enterprises in pakistan outlines development of the public sector the nationalization period from 1972 to 1977 and industrial investment under national planning notes industrial policy on pricing the extent to which financial losses are covered and subsidies provided lists public enterprises even managers critical of pakistan s new performance evaluation system consider its targeting and bonus system a powerful incentive to improve efficiency

Studies in Public Enterprise 2017-09-08

first published in 1987 this book contains studies on some important aspects of public enterprise based on the experience of a wide spectrum of developed and developing countries public enterprise and evaluation seeks to introduce some fundamental ideas on the concept of evaluation at four levels deals with evaluation as a system and succinctly reviews the experience of the united kingdom argentina malaysia pakistan nepal and india capital structures of public enterprises brings out the economic issues that are implicit in the arrangements of capitalisation in vogue in the public enterprise sector public enterprise and the public exchequer is an in depth analytical study of certain aspects of the budget link of public enterprises and shows how this has not yet been adequately realised and privatisation in the african context deals with the concept of privatisation now coming into prominence and presents a non-doctrinaire review of the problems it raises

Performance Evaluation for Public Enterprises 1991

performance evaluation is not a simple task in private enterprises and it is all the more complicated in public enterprises this paper emphasizes three main points a a public enterprise must be evaluated b a public enterprise must not be evaluated like a private enterprise and c a public enterprise should be evaluated by starting with private profit and making a series of adjustments to make it fair to the nation and to managers this paper suggests introducing a signaling system which consists of three major components the first is a performance evaluation system in which national goals are translated into explicit enterprise objectives and quantified in a performance criterion the second is a performance information system in which actual achievements are monitored the third is an incentive system in which the welfare of managers and workers is linked to national welfare by a pecuniary or non pecuniary bonus system based on achievement of particular target values of the criterion variables the paper proposes a phased system of implementation stressing how performance evaluation must be the product of an evolutionary process involving both enterprise managers and government supervisors
