

## Free epub The tsars last armada .pdf

on may 14 15 1905 in the tsushima straits near japan an entire russian fleet was annihilated its ships sunk scattered or captured by the japanese in the deciding battle of the russo japanese war the japanese lost only three destroyers but the russians lost twenty two ships and thousands of sailors it was the first modern naval battle employing all the new technology of destruction the old imperial navy was woefully unprepared the defeat at tsushima was the last and greatest of many indignities suffered by the russian fleet which had traveled halfway around the world to reach the battle dogged every mile by bad luck and misadventure their legendary admiral dubbed mad dog led them on an extraordinary eighteen thousand mile journey from the baltic sea around europe africa and asia to the sea of japan they were burdened by the tsar s incompetent leadership and the old slow ships that he insisted be included to bulk up the fleet moreover they were under constant fear of attack and there were no friendly ports to supply coal food and fresh water the level of self sufficiency attained by this navy was not seen again until the second world war the battle of tsushima is among the top five naval battles in history equal in scope and drama to those of lepanto trafalgar jutland and midway yet despite its importance it has been long neglected in the west with a novelist s eye and a historian s authority constantine pleshakov tells of the russian squadron s long difficult journey and fast horrible defeat on may 14 1905 for the first time an asian nation defeated a european power russia s total defeat at tsushima the deciding battle of the russo japanese war confirmed japan as a rising superpower would be ruler of the east in a single day the russian fleet was annihilated while japan lost only 3 destroyers it was the first modern naval battle employing all the new technology of destruction the defeat at tsushima was the last greatest of many indignities incurred by the russian fleet which had traveled halfway around the world to reach the battle dogged every mile by bad luck misadventure despite its importance its drama the history of the battle of tsushima has long been neglected in the west illustrations a timely and important book he brings to it rare clarity and common sense his book is a fast paced account of the last sixteen months of the tsar s life brief sharp but laced with well judged feeling for the dramas of the time catherine merriale observer in march 1917 nicholas ii the last tsar of all the russias abdicated and the dynasty that had ruled an empire for three hundred years was forced from power by revolution in this masterful and forensic study robert service examines the last year nicholas s reign and the months between that momentous abdication and his death with his family in ekaterinburg in july 1918 drawing on the tsar s own diaries and other hitherto unexamined contemporary records the last of the tsars reveals a man who was almost entirely out of his depth perhaps even willfully so it is also a compelling account of the social economic and political foment in russia in the aftermath of alexander kerensky s february revolution the bolshevik seizure of power in october 1917 and the beginnings of lenin s soviet republic russia is famous for its vodka and its culture of extreme intoxication but just as vodka is central to the lives of many russians it is also central to understanding russian history and politics in vodka politics mark lawrence schrad argues that debilitating societal alcoholism is not hard wired into russians genetic code but rather their autocratic political system which has long wielded vodka as a tool of statecraft through a series of historical investigations stretching from ivan the terrible through vladimir putin vodka politics presents the secret history of the russian state itself a history that is drenched in liquor scrutinizing rather than dismissing the role of alcohol in russian politics yields a more nuanced understanding of russian history itself from palace intrigues under the tsars to the drunken antics of soviet and post soviet leadership vodka is there in abundance beyond vivid anecdotes schrad scours original documents and archival evidence to answer provocative historical questions how have russia s rulers used alcohol to solidify their autocratic rule what role did alcohol play in tsarist coups was nicholas ii s ill fated prohibition a catalyst for the bolshevik revolution could the soviet union have become a world power without liquor how did vodka politics contribute to the collapse of both communism and public health in the 1990s how can the kremlin overcome vodka s hurdles to produce greater social well being prosperity and democracy into the future viewing russian history through the bottom of the vodka bottle helps us to understand why the liquor question remains important to russian high politics even today almost a century after the issue had been put to bed in most every other modern state indeed recognizing and confronting vodka s devastating political legacies may be the greatest political challenge for this generation of

russia's leadership as well as the next russian orthodoxy resurgent is the first book to fully explore the expansive and ill understood role that russia's ancient christian faith has played in the fall of soviet communism and in the rise of russian nationalism today john and carol garrard tell the story of how the orthodox church's moral weight helped defeat the 1991 coup against gorbachev launched by communist party hardliners the soviet union disintegrated leaving russians searching for a usable past the garrards reveal how patriarch aleksy ii a former kgb officer and the man behind the church's successful defeat of the coup is reconstituting a new national idea in the church's own image in the new russia the former kgb who run the country vladimir putin among them proclaim the cross not the hammer and sickle meanwhile a majority of russians now embrace the orthodox faith with unprecedented fervor the garrards trace how aleksy orchestrated this transformation positioning his church to inherit power once held by the communist party and to become the dominant ethos of the military and government they show how the revived church under aleksy prevented mass violence during the post soviet turmoil and how aleksy astutely linked the church with the army and melded russian patriotism and faith russian orthodoxy resurgent argues that the west must come to grips with this complex and contradictory resurgence of the orthodox faith because it is the hidden force behind russia's domestic and foreign policies today new york times bestseller from the national bestselling author of stalin an epic history on the grandest scale financial times about the most successful dynasty of modern times a family who created the world's greatest empire and then lost it all an essential addition to the library of anyone interested in russian history the new york times book review the romanovs ruled a sixth of the world's surface for three centuries how did one family turn a war ruined principality into the world's greatest empire and how did they lose it all this is the intimate story of twenty tsars and tsarinas some touched by genius some by madness but all inspired by holy autocracy and imperial ambition simon Sebag Montefiore's gripping chronicle reveals their secret world of unlimited power and ruthless empire building overshadowed by palace conspiracy family rivalries sexual decadence and wild extravagance drawing on new archival research Montefiore delivers an enthralling epic of triumph and tragedy love and murder that is both a universal study of power and a portrait of empire that helps define russia today this is the most comprehensive bibliography of the spanish armada of 1588 in recent years and the only up to date reference which provides a critical assessment of important source materials and an annotated bibliography of all genres of literature in western languages eugene razor describes 1114 titles and is the first to assess the vast collection of writings that have accompanied the recent 400th anniversary of the armada campaign cross references from the narrative to bibliographical entries and a full index make the guide easy for researchers at all levels to use in their study of naval and european history this authoritative reference covers one of the most important campaigns in naval history the first part of the book consists of a narrative assessing the literature on the spanish armada in terms of background history leaders preparations and tactics and the consequences of the conflict source materials include all published books monographs official histories government publications dissertations bibliographies pertinent journals and periodicals and related articles collections of archival and research sources and their locations other significant holdings published and broadcasted interviews fiction drama and art english spanish french dutch and other western languages are covered in a comprehensive manner and both english and spanish perspectives are presented carefully the book also offers a short chronology the index cites authors and subjects both the battle of tsushima the epic battle between the japanese and russian navies on may 27 28 1905 is examined in far greater detail than ever before making extensive use of official records personal accounts and a wealth of untouched information on the russian navy's activities this battle little known about by a general readership is brought vividly to life also the immense coaling operation with the names of all the colliers is described in very informative and sometimes amusing detail the later stages of the battle its details often described as lost in the fog of battle are clearly portrayed as is the chaotic high speed night action when numerous japanese destroyer and torpedo boat flotillas terrorised the russian seamen exhaustive examination of japanese flotilla records has made it possible to reproduce an exciting and very informative account placing the reader on board the attacking vessels suffering collisions and gunfire as they career in and around the russian battle line while the human side of both participants brings into sharp focus the horrors of war tsushima was not only the culmination and climax of the pre dreadnought era it was the most decisive naval battle ever fought other battles are

more well known but they did not achieve such a result neither in their decisiveness nor in bringing the war in which they were fought to a conclusion obs inaktiverad pga saknat avtal obs Ätten romanov var den framgångsrikaste dynastin i modern tid och erövrade enorma områden tills den styrde över en sjättedel av jordens yta hur kunde en enda familj förvandla ett krigshärjat furstendöme till världens största imperium och hur kunde de förlora alltsammans detta är den ingående berättelsen om tjugo tsarer och tsaritsor drabbade av genialitet och galenskap befläckade av samvetslöst dödande och sexuell dekadens den avslöjar en hemlig värld av gränslöst självhärskardöme hänsynslöst imperiebygge och palatsintriger den är skriven med en bländande litterär säkerhet och hämtar material ur ny arkivforskning så blir romanov en fängslande berättelse om seger och tragedi kärlek och död en allmän studie av makt och ett viktigt porträtt av det imperium som fortfarande präglar dagens ryssland Ätten romanov styrde ryssland som tsarer under 300 år 1613 1918 det var en släkt som bestod av störda och lysande begåvade självhärskare som med hänsynslös personlig kraft lyfte ett område som ödelagts av inbördeskrig till ett mäktigt självständigt imperium som dominerade europa peter den store en mordisk berusad tyrann fysisk jätte politisk reformator och härskargeni och katarina den stora den passionerade tyska prinsessan som avsatte sin egen make och blev en enastående politisk ledare av en guldålder var rysslands två främsta regenter och är ett par av dem som skildras i montefiores nya bok romanovit on ylivertaista eepistä historiaa siihen verrattuna game of thrones on kuin teekutsut pappilan puutarhassa antony beevor miten verisesti keskenään riitelevä suku onnistui saamaan venäjän otteeseensa ja rakentamaan maailman loistavimman dynastian ja miten he tuhosivat sen kun romanovit nousivat osin sattuman kautta venäjän valtaistuimelle maa oli sotien ja nälänhädän raunioittama vähitellen suku sai sekasortoista maasta rautaisen otteen ja ryhtyi laajentamaan alueitaan tuloksena oli valtakunta jota mikään mahti ei voinut kaataa paitsi romanovit itse kun hallitsijasuku romahti myös suomelle avautui mahdollisuus itsenäistyä millaisia ihmisiä olivat yhdeksäntoista romanov suvun hallitsijaa ja heidän lähipiirinsä entä eläkö romanovien henkinen perintö uutta kukoistuskauttaan nyky venäjän johdossa simon sebag montefiore syntyi vuonna 1965 ja opiskeli historiaa cambridgessa hänen kirjansa catherine the great and potemkin oli ehdolla samuel johnson duff cooper ja marsh biography palkintojen saajaksi stalin sai british book awardsin vuoden historiategos palkinnon nuori stalin sai costa biography awardin iso britannia la times book prize for biographyn yhdysvallat le grand prix de la biographie politiquen ranska sekä kreiskyn palkinnon politiikan alan teoksena itävalta bbc teki montefioren kirjan jerusalemin pohjalta televisiodokumenttisarjan montefioren kirjoja on julkaistu yli 35 kielellä hänet on hyväksytty royal society of literatures jäseneksi ja hän asuu lontoossa vaimonsa romaani kirjailija santa montefioren ja heidän kahden lapsensa kanssa simon sebag montefioren teokset ovat olleet maailmanlaajuisia arvostelu ja myyntimenestyksiä niitä on käännetty yli 45 kielelle hänen teoksensa ruhtinas potemkin ja katariina suuri oli ehdolla samuel johnson duff cooper ja marsh biography palkintojen saajaksi josif stalinin elämäkerta stalin punaisen tsaarin hovissa sai british book awardsin vuoden historiategos palkinnon nuori stalin sai costa biography awardin iso britannia la times book prize for biographyn yhdysvallat le grand prix de la biographie politiquen ranska sekä kreisky palkinnon parhaana palkinnon politiikan alan teoksena itävalta hänen teoksensa jerusalem oli myös maailmanlaajuinen myyntimenestys montefiore opiskeli historiaa cambridgessa jossa hänelle on myönnetty filosofian tohtorin arvo tietokirjallisuuden lisäksi montefiore on kirjoittanut romaanit sashenka ja red sky at noon hänen romaanssa one night in winter palkittiin vuoden poliittisena romaanina iso britanniaassa hän on kirjoittanut ja juontanut viisi bbc n televisiodokumenttia istanbulin jerusalemin rooman espanjan ja wienin historiasta ?????? ?????????? ?????????? ?? ?????? ?????? ?????????????????? ?? ?? ?? ?? ?????????????????? ?? ?????????????????? ?????????????????? travel through history and around the world to learn about the greatest mistakes blunders and bloopers of all time everyone makes mistakes and nearly everyone likes to know about them especially when made by someone else the worst blunders of all time shocking tales from pandora s box to putin s invasion presents some of our most notable blunders from the silly to the consequential from ancient history to current events it offers the pleasure of schadenfreude and of an easy going reading experience as well as here and there some learning opportunities the reader will see when relatively big things have gone wrong and couldn t be called back such as iconic mythical blunders like pandora opening that troublesome box and eve taking her ill advised bite to great historical oops such as napoleon s invasion of russia in 1812 as well as some less monumental but nonetheless exemplary mistakes such as the curse of the bambino when the boston red

sox sold babe ruth at the time a pitcher to the new york yankees these and other exemplary oops are presented in a light hearted way with some exceptions being catastrophic current catastrophes such as trump s egregious mishandling of the covid 19 pandemic author david p barash will take readers from the tragic to the whimsical with the latter represented by for example wrong way corrigan an early twentieth century aviator who thought he was flying nonstop from new york to california but confused by a heavy fog ended up in ireland pointing out these and other mistakes will be an exercise in monday morning quarterbacking and 20 20 hindsight thus the worst blunders of all time shall backstrapolate looking in the rear view mirror at mistakes made by others the worst blunders of all time is neither an advice book nor a series of cautionary tales it s an easy and accessible read especially useful as therapy in these difficult times however its nonetheless accurate and informative giving rise to some potentially useful take home messages keyed to its material ideally we should all benefit from our own mistakes making lemonade out of lemons while also following eleanor roosevelt s advice learn from the mistakes of others you cannot live long enough to make them all yourself

too often we think of the modern political state as a universal institution the inevitable product of history rather than a specific creation of a very particular history bertrand badie and pierre birnbaum here persuasively argue that the origin of the state is a social fact arising out of the peculiar sociohistorical context of western europe drawing on historical materials and bringing sociological insights to bear on a field long abandoned to jurists and political scientists the authors lay the foundations for a strikingly original theory of the birth and subsequent diffusion of the state the book opens with a review of the principal evolutionary theories concerning the origin of the institution proposed by such thinkers as marx durkheim and weber rejecting these views the authors set forward and defend their thesis that the state was an invention rather than a necessary consequence of any other process once invented the state was disseminated outside its western european birthplace either through imposition or imitation the study concludes with concrete analyses of the differences in actual state institutions in france prussia great britain the united states and switzerland as the dark ages enveloped europe a civilization was born on the banks of the dneiper river rus whose capital at kiev surpassed in grandeur most cities of europe was home to the ukrainian people whose princes made war on constantinople and established the city states of what would become russia the cities of rus were destroyed by the mongols their remains falling to the polish lithuanian kingdom with the steppe restored to wilderness the kraina borderlands of the hardy frontiersmen known as cossacks who in the 17th century destroyed powerful polish lithuanian and muscovite armies gained ukrainian independence and established a unique social order drawing on english ukrainian and french sources this book chronicles the military and social origins of ukraine and describes the differences between ukraine and its neighbors the author refutes the claim that ukraine and russia were once united in a common political system

the aim of this book is to explore some of the main pre occupations of literature culture and criticism dealing with historical themes in post soviet russia focusing mainly on literature in the years 1991 to 2006 introd a history of winning intelligence practices from the spanish armada to cyberwar that offers timeless practical lessons we ignore at our peril according to conventional wisdom strategic surprise and other intelligence failures are both inevitable and ultimately irrelevant because at least in international politics and war military muscle matters more than brains in decision advantage jennifer e sims counters this argument by investigating the history of intelligence through centuries of international conflict including the 16th century s spanish armada two us civil war battles the hunt for president lincoln s assassin and key diplomatic crises before the two world wars sims dives deep into these events to show that the competitive pursuit of intelligence advantage has been a measurable buildable and consequential form of power that can help competitors win against otherwise stronger opponents from these observations the author develops a general guide to building intelligence readiness whether for war diplomacy or international manhunts refuting arguments that intelligence is a sideshow because intentions are unknowable and predictions risky she redefines success as gaining information advantages over an adversary prescribes four practical pathways for gaining them and confirms what seems to be simple common sense smart competitors know how to learn and the ones who learn best tend to win thinking of

intelligence in this way sims argues adds a moral character to an enterprise that is too often mired in excessive secrecy and tyrannical agendas by lifting the veil on international politics decision advantage shows how good intelligence can lessen the likelihood of wars of misperception and folly suppose roosevelt stalin churchill hitler and hirohito had united to conquer an even greater foe no one could top their power not the germans not the japanese not the russians not the united states from pearl harbor to panzers rolling through paris to the siege of leningrad and the battle of midway war seethed across the planet as flames of destruction rose higher and hotter and then suddenly the real enemy came the invaders seemed unstoppable their technology far beyond human reach and never before had men been more divided for jew to unite with nazi american with japanese and russian with german was unthinkable but the alternative was even worse as the fate of the world hung in the balance slowly painfully humankind took up the shocking challenge the house of mountbatten derives from the house of battenberg the princess alice 1843 1873 married grand duke louis iv of hesse and they became the parents of princess victoria of hesse 1863 1950 who married prince louis of battenberg they changed their name to a more english sounding name during the world war i thus taking on the name mountbatten louis became the first marquess of milford haven and was the father of four children two of the children became wives to the rulers of greece and sweden while another child louis 1900 1979 became earl mountbatten of burma and the last viceroy of india one of louis and victoria s grandchildren is prince philip duke of edinburgh and husband of queen elizabeth ii of great britain why cliffsap guides go with the name you know and trust get the information you need fast written by test prep specialists about the contents introduction test taking tips and strategies overview of the test and scoring with information on multiple choice questions the document based question the change over time essay and the comparative essay part i subject review review of the 5 historical periods covered on the test sample multiple choice questions with answers and explanations part ii ap world history practice tests 3 full length practice tests with answers and explanations ap is a registered trademark of the college board which was not involved in the production of and does not endorse this product ap test prep essentials from the experts at cliffsnotes an american bookworks corporation project contributors todd carney phd charles a desnoyers phd philip c dimare phd james godwin phd shawndra holderby phd kathryn jasper ma david meier phd judith rae ross phd and ryan wilkinson ba more than notes cliffsap cliffscomplete cliffsquickreview cliffstestprep cliffsstudysolver the jesuit review of faith and culture nov 13 2017 official organ of the book trade of the united kingdom

travel through history and around the world to learn about the greatest mistakes blunders and bloopers of all time everyone makes mistakes and nearly everyone likes to know about them especially when made by someone else the worst blunders of all time shocking tales from Pandora's box to Putin's invasion presents some of our most notable blunders from the silly to the consequential from ancient history to current events it offers the pleasure of Schadenfreude and of an easy going reading experience as well as here and there some learning opportunities the reader will see when relatively big things have gone wrong and couldn't be called back such as iconic mythical blunders like Pandora opening that troublesome box and Eve taking her ill

advised bite to great historical oops such as napoleon s invasion of russia in 1812 as well as some less monumental but nonetheless exemplary mistakes such as the curse of the bambino when the boston red sox sold babe ruth at the time a pitcher to the new york yankees these and other exemplary oops are presented in a light hearted way with some exceptions being catastrophic current catastrophes such as trump s egregious mishandling of the covid 19 pandemic author david p barash will take readers from the tragic to the whimsical with the latter represented by for example wrong way corrigan an early twentieth century aviator who thought he was flying nonstop from new york to california but confused by a heavy fog ended up in ireland pointing out these and other mistakes will be an exercise in monday morning quarterbacking and 20 20 hindsight thus the worst blunders of all time shall backstrapolate looking in the rear view mirror at mistakes made by others the worst blunders of all time is neither an advice book nor a series of cautionary tales it s an easy and accessible read especially useful as therapy in these difficult times however its nonetheless accurate and informative giving rise to some potentially useful take home messages keyed to its material ideally we should all benefit from our own mistakes making lemonade out of lemons while also following eleanor roosevelt s advice learn from the mistakes of others you cannot live long enough to make them all yourself

too often we think of the modern political state as a universal institution the inevitable product of history rather than a specific creation of a very particular history bertrand badie and pierre birnbaum here persuasively argue that the origin of the state is a social fact arising out of the peculiar sociohistorical context of western europe drawing on historical materials and bringing sociological insights to bear on a field long abandoned to jurists and political scientists the authors lay the foundations for a strikingly original theory of the birth and subsequent diffusion of the state the book opens with a review of the principal evolutionary theories concerning the origin of the institution proposed by such thinkers as marx durkheim and weber rejecting these views the authors set forward and defend their thesis that the state was an invention rather than a necessary consequence of any other process once invented the state was disseminated outside its western european birthplace either through imposition or imitation the study concludes with concrete analyses of the differences in actual state institutions in france prussia great britain the united states and switzerland

a history of winning intelligence practices from the spanish armada to cyberwar that offers timeless practical lessons we ignore at our peril according to conventional wisdom strategic surprise and other intelligence failures are both inevitable and ultimately irrelevant because at least in international politics and war military muscle matters more than brains in decision advantage jennifer e sims counters this argument by investigating the history of intelligence through centuries of international conflict including the 16th century s spanish armada two us civil war battles the hunt for president lincoln s assassin and key diplomatic crises before the two world wars sims dives deep into these events to show that the competitive pursuit of intelligence advantage has been a measurable buildable and consequential form of power that can help competitors win against otherwise stronger opponents from these observations the author develops a general guide to building intelligence readiness whether for war diplomacy or international manhunts refuting arguments that intelligence is a sideshow because intentions are unknowable and predictions risky she redefines success as gaining information advantages over an adversary prescribes four practical pathways for gaining them and confirms what seems to be simple common sense smart competitors know how to learn and the ones who learn best tend to win thinking of intelligence in this way sims argues adds a moral character to an enterprise that is too often mired in excessive secrecy and tyrannical agendas by lifting the veil on international politics decision advantage shows how good intelligence can lessen the likelihood of wars of misperception and folly
