take a journey off the beaten path and discover the hidden gem that is the Lozère department in France as presented in this travelog known as the Roof of France. The Lozère is a breathtakingly beautiful region that boasts the ancient Gévaudan and the stunning Causses towering limestone plateaus that offer a unique geological landscape. The plateau of the typical Causse is as wide as Dartmoor and as lofty as Helvellyn, a vast expanse of stony wasteland that blooms with wildflowers in the spring and is home to a people with a distinct language, physique, and primitive customs.

Observations on the Construction of the Roof of King's College Chapel, Cambridge 1840

Hidden behind the Himalayas and ruled over by a god-king, Tibet has always cast a powerful spell over travellers from the West. In this remarkable and ultimately tragic narrative, Peter Hopkirk recounts the forcible opening up of this medieval land during the nineteenth and twentieth centuries and the extraordinary race between agents, soldiers, missionaries, mountaineers, explorers, and mystics from nine different countries to reach Lhasa, Tibet's sacred capital. His story concludes with the ultimate act of trespass: the Chinese invasion of 1950.

The Roof of France; Or, the Causses of the Lozère 2019-12-05

When Sydney Wignall set off on a climbing expedition to the Himalayas in the 1950s, little did he realize that he was embarking on an extraordinary and life-threatening adventure which would involve both the Indian and Chinese governments at the highest level, betrayed by one of the many spies operating on the Nepalese border with Tibet. His group was captured by the People's Liberation Army; their subsequent escape to freedom over the Himalayas in mid-winter is one of mountaineering's great epics.
