Prevention from the Inside-Out 2003-03-26

corporate responsibility is considered an oxymoron by much of society corporations are among the least trusted of our institutions and the 2008 financial crisis bp s oil spill in the gulf of mexico and the collapse of the house of cards that was enron have only added to public skepticism so at a time when trust in corporations has reached an all time low why is interest in corporate responsibility at an all time high a plausible explanation is that increasing numbers of stakeholders are demanding responsibility from corporations hyper transparency of corporate activities fueled by disclosure laws and the internet has increased awareness to the point where corporate behavior is under constant scrutiny smart business leaders are aware of this scrutiny and of the high costs of a public scandal they know that in the long run it is cheaper to act responsibly now than to dig out from a pr disaster later tim mohin is a veteran corporate responsibility practitioner who has led programs at apple intel and amd in this book tim tells us why he believes he is making a difference where it counts and how others can do the same his book is a manual on how to steer the corporate supertanker toward doing good for people and our planet changing business from the inside out provides a fascinating roadmap to the corporate responsibility and sustainability field from beginning a career to forming a program to navigating the complicated politics of a corporation mohin likens the corporate treehugger role to being the designated driver at the corporate cocktail party throughout his book he argues strongly that activists can accomplish more for the planet and society by serving as a voice of responsibility within the corporation rather than protesting outside the factory gates corporations are clearly the drivers of the world economy and the corporate responsibility practitioner has an essential role in bringing ethical and sustainable values to the c suite and making sure that they are accomplished whether you are a practitioner needing advice a mid career professional wanting to change course or an mba wondering how to incorporate responsibility into your career this book has the answers you need

Changing Business from the Inside Out 2017-09-08

an examination of why government agencies allow environmental injustices to persist many state and federal environmental agencies have put in place programs policies and practices to redress environmental injustices and yet these efforts fall short of meeting the principles that environmental justice activists have fought for in from the inside out jill lindsey harrison offers an account of the bureaucratic culture that hinders regulatory agencies attempts to reduce environmental injustices it is now widely accepted that america s poorest communities communities of color and native american communities suffer disproportionate harm from environmental hazards with higher exposure to pollution and higher incidence of lead poisoning cancer asthma and other diseases linked to environmental ills and yet harrison reports some regulatory staff view these problems as beyond their agencies area of concern requiring too many resources or see neutrality as demanding color blind administration drawing on more than 160 interviews with interviewees including 89 current or former agency staff members and more than 50 environmental justice activists and others who interact with regulatory agencies and more than 50 hours of participant observation of agency meetings both open and closed door harrison offers a unique account of how bureaucrats resist undermine and disparage environmental justice reform and how environmental justice reformers within the agencies fight back by trying to change regulatory practice and culture from the inside out harrison argues that equity not just aggregated overall improvement should be a metric for evaluating environmental regulation
