gustavo alonso wikipedia

May 23 2024

gustavo alonso is a spanish swiss researcher in the areas of computer science and electrical engineering he is a full professor at the department of computer science 1 and associated with the department of information technology and electrical engineering 2 of eth zürich

gustavo alonso google scholar

Apr 22 2024

gustavo alonso professor of computer science eth zürich switzerland verified email at inf ethz ch homepage data management distributed systems databases fpgas

gustavo alonso ieee xplore author details

Mar 21 2024

gustavo alonso is a professor of computer science at eth zürich his research interests include data management systems hardware acceleration and system architecture both software and hardware gustavo has a phd and msc from uc santa barbara usa as well as an engineering degree from politecnica de madrid spain

dblp gustavo alonso

Feb 20 2024

gustavo alonso ana klimovic tom kuchler michael wawrzoniak rethinking serverless computing from the programming model to the platform design vldb workshops 2023

talks and presentations eth z

Jan 19 2024

andrei popovici gustavo alonso dynamic weaving for aspect oriented programming a 10 year perspective talk given at asod 2012 in postdam germany for the most influential paper award awarded to the paper published at asod 02

contact the authors eth z

Dec 18 2023

gustavo alonso is professor of computer science at the swiss federal technical university of zurich ethz he holds degrees in computer science m s 1992 and ph d 1994 from the university of california at santa barbara and in telecommunications engineering eng 1989 from the madrid technical university in spain

do os abstractions make sense on fpgas proceedings of the

Nov 17 2023

muhsen owaida david sidler kaan kara and gustavo alonso centaur a framework for hybrid cpu fpga databases in 2017 ieee 25th annual international symposium on field programmable custom computing machines fccm pages 211 218

gustavo alonso papers with code

Oct 16 2023

gustavo alonso professor of computer science crunchbase

Sep 15 2023

gustavo alonso is a professor of computer science at eth zürich he studied telecommunications and electrical engineering at the technical university of madrid etsit universidad politécnica de madrid

desalination in nuclear power plants gustavo alonso

Aug 14 2023

authors alonso del valle and ramirez explore the possibilities of the cogeneration of water and electricity using a nuclear reactor

desalination in nuclear power plants 1st edition elsevier

Jul 13 2023

desalination in nuclear power plants presents the latest research on a variety of nuclear desalination techniques for different nuclear reactor systems it includes also several aspects regarding competitiveness sustainability safety and licensing process

future of database system architectures

Jun 12 2023

citation alonso gustavo ailamaki natassa krishnamurthy sailesh madden sam sivasubramanian swami et al 2023 future of database system architectures as published doi org 10 1145 3555041 3589360 publisher acm companion of the 2023 international conference on management of data

serverless fpga work in progress proceedings of the 1st

May 11 2023

by exploring re configurability of fpgas and their acceleration power we propose an innovative light weight serverless platform for fpga based faas applications which aims to reduce these overheads in this study we explore the feasibility of the idea by implementing key elements of such platform onto the fpga

gustavo alonso intechopen

Apr 10 2023

chapters authored implementation of the discrete wavelet transform used in the calibration of the enzymatic biosensors by gustavo a alonso juan manuel gutie rrez jean louis marty and roberto mun oz part of the book discrete wavelet transforms

nvm is it not very meaningful for databases research

Mar 09 2023

abstract persistent or non volatile memory pmem offers expanded memory capacity and faster access to persistent storage however there is no comprehensive empirical analysis of existing database engines under different pmem modes to understand how databases can benefit from the various hardware configur show more

do os abstractions make sense on fpgas semantic scholar

Feb 08 2023

dario korolija timothy roscoe gustavo alonso published in usenix symposium on operating 2020 computer science engineering tldr coyote is built and evaluated an open source portable configurable shell for fpgas which provides a full suite of os abstractions working with the host os expand view paper usenix org

galloping instabilities of z shaped shading louvers gustavo

Jan 07 2023

the results of a parametric analysis based on static wind tunnel tests and performed on different z shaped louvers to determine translational galloping instability regions are presented in this paper

services electronic resource concepts architectures
