## Epub free Cordova learning series science class 4 Copy

conforms to the vision of the national curriculum framework science now revised edition is a series of eight books for classes 1 to 8 this series conforms to the vision of the national curriculum framework the early schooling years in a child s life are of extreme importance these are the times when he focuses his eyes and mind on everything that is new and appealing his mind is untrained and he has learned only the basics of communication his vocabulary is limited but he is eager to learn whatever is presented to him he absorbs like a sponge his attention span is short and he requires constant reinforcement what interests him most is things and events around him this is the golden opportunity to inculcate in him a spirit of adventure and inquiry to teach him to ask to reason and to pick up healthy habits with this in mind our publisher decided to bring out a science series for the junior classes the series engage with science experiment experience express has been designed keeping in mind the experimental learning model its modular design and clearly defined pedagogy help learners focus on first experimenting with a concept by doing then experience it by assimilating and finally express it in simpler terms by articulating brush up each chapter begins with an activity to kick start the road to effective learning checkpoint a set of objective questions to assess the understanding of the learner just after completing a topic activity in the lab or hands on activities to inculcate scientific temper and appreciate the importance of scientific method out of the box a set of guestions to make learners hone their critical thinking and problem solving skills subject integration concepts or ideas posed to learners to bridge the boundaries of all the subjects they learn each day do you know extra or additional bits of information to make the subject interesting and relatable building together concepts or ideas for possible projects to enable learners learn from not just doing but reflecting on what they have learnt weblinks suggestive links from the internet of engaging videos or documentaries on certain topics to enable learners research and understand concepts on their own video clips handy clips to see things on the go and to make learning interactive i book digital support in the form of animations videos interactive activities test generators and widgets my journal a space for the learner to think and write about their experience on the learning and exhibit their creative skills life skills bits of information or suggestive activities to make learners empathetic about environment and their surroundings case study a paragraph on important people or places or organisations or practices related to a topic for the learners to understand and explore more worksheets a set of additional rubrics apart from the ones given in exercises that stand out and allow the learners to express and assess their understanding my health and food guide a booklet published in collaboration with fssai government of india that aim to inculcate better understanding of the practices to a healthy and hygienic india the series engage with science experiment experience express has been designed keeping in mind the experimental learning model its modular design and clearly defined pedagogy help learners focus on first experimenting with a concept by doing then experience it by assimilating and finally express it in simpler terms by articulating brush up each chapter begins with an activity to kick start the road to effective learning
