the crown prince of shadow beach his entire life the grandson of the man who built it from nothing into a homey surf town the son of the volatile father who ruled over the pier and beach below with a tripwire temper and a charming grin and the brother of an odd but gifted murdered child an event that kept dicky out of the water and buried deep in a drug fueled haze to get his father out of prison dicky needs to scrounge together six figures as fast as he can and the opportunity presents itself in a high risk drug deal on the mexican border running heroin from the cartels to an equally violent group of white supremacists getting the drugs back without getting himself jailed or killed is only step one step two is getting his father sprung step three is saving the family bar from the corporate vultures picking apart his town the final step is getting his life back on track by winning back lainey the one that got away along with the son he never knew and every step brings dicky back to the tragedies of the past and the mess he s made of his present told with effortless charm and a simmering tension chris fraser pens a fully realized portrait of a man who needs to get back into the water because the waves he s trying to navigate on land keep pulling him under when veronica married guy she didn t know it would mean more than twenty years of constant change a new home every year in a different coastal town finally she d had enough and fled with her teenage daughter to whisper mountain to the home of her oldest friend what she found there was a new life a shifting from sea tides to hidden mountain springs which renewed her but also tested the courage of all three women following the death of his parents in a car crash eleven year old alex dove is torn from his life on a remote farm in tasmania and sent to school in england when he returns to australia twelve years later the timeless beauty of the land and his encounter with a young woman whose own life has been marked by tragedy persuade him to stay they marry and he finds himself drawn into the eccentric often hilarious dynamics of island life longing for children the couple open their home to a disquieting guest a teenage castaway whose presence in their home begins to unravel their tenuously forged happiness the harrowing story of five men who were sent into a dark airless miles long tunnel hundreds of feet below the ocean to do a nearly impossible job with deadly results a quarter century ago boston had the dirtiest harbor in america the city had been dumping sewage into it for generations coating the seafloor with a layer of black mayonnaise fisheries collapsed wildlife fled and locals referred to floating tampon applicators as beach whistles in the 1990s work began on a state of the art treatment plant and a 10 mile long tunnel its endpoint stretching farther from civilization than the earth s deepest ocean trench to carry waste out of the harbor with this impressive feat of engineering boston was poised to show the country how to rebound from environmental ruin but when bad decisions and clashing corporations endangered the project a team of commercial divers was sent on a perilous mission to rescue the stymied cleanup effort five divers went in not all of them came out alive drawing on hundreds of interviews and thousands of documents collected over five years of reporting award winning writer neil swidey takes us deep into the lives of the divers engineers politicians lawyers and investigators involved in the tragedy and its aftermath creating a taut action packed narrative the climax comes just after the hard partying dj gillis and his friend billy juse trade assignments as they head into the tunnel sentencing one of them to death an intimate portrait of the wreckage left in the wake of lives lost the book which dennis lehane calls extraordinary and compares with the perfect storm is also a morality tale what is the true cost of these large scale construction projects as designers and builders emboldened by new technology and pressured to address a growing population s rapacious needs push the limits of the possible this is a story about human risk how it is calculated discounted and transferred and the institutional failures that can lead to catastrophe suspenseful yet humane trapped under the sea reminds us that behind every bridge tower and tunnel behind the infrastructure that makes modern life possible lies unsung bravery and extraordinary sacrifice while southend on sea like many seaside towns may not have been at the forefront of the struggle for suffrage and equal rights in the lives of women between 1850 and 1950 there are surprisingly famous names linked to the town and its women novelist rebecca west living in nearby leigh on sea during the first world war and her lover h g wells played a key role in the suffrage and feminist movements and in women s entry into the scientific and literary professions princess louise a visitor to the town was known to be a feminist regardless of her position and mrs margaret kineton parkes founder member of the women s tax resistance league and involved in the women s freedom league gave a number of talks to the town s female population the most high profile of local residents was mrs rosa sky the one time treasurer of the women s social and political union and an active member of the women s tax resistance league but others were quietly active behind the scenes this book is not about the distinguished and
