though the word sociology was coined in europe the field of sociology grew most dramatically in america despite that disproportionate influence american sociology has never been the subject of an extended historical examination to remedy that situation and to celebrate the centennial of the american sociological association craig calhoun assembled a team of leading sociologists to produce sociology in america rather than a story of great sociologists or departments sociology in america is a true history of an often disparate field and a deeply considered look at the ways sociology developed intellectually and institutionally it explores the growth of american sociology as it addressed changes and challenges throughout the twentieth century covering topics ranging from the discipline s intellectual roots to understandings and misunderstandings of race and gender to the impact of the depression and the 1960s sociology in america will stand as the definitive treatment of the contribution of twentieth century american sociology and will be required reading for all sociologists contributors andrew abbot daniel breslau craig calhoun charles camic miguel a centeno patricia hill collins marjorie l devault myra marx ferree neil gross lorine a hughes michael d kennedy shamus khan barbara laslett patricia lengermann doug mcadam shauna a morimoto aldou morris gillian niebrugge alton phillips james f short jr alan sica james t sparrow george steinmetz stephen turner jonathan vanantwerpen immanuel

the blackwell companion to sociology is a milestone collection of new essays by renowned sociologists covering both the traditions and strengths of the field as well as newer developments and directions authors from the us the uk europe and elsewhere have contributed to this all in one reference work highlighting the relevance of interdisciplinary and international perspectives while at the same time representing the scope and quality of sociology in its current form

The Blackwell Companion to Sociology

2001

most social scientists and philosophers claim that sociology and philosophy are disjointed fields of inquiry some have wondered how to trace the precise boundary between them mario bunge argues the two fields are so entangled with one another that no demarcation is possible or indeed desirable in fact sociological research has demonstrably philosophical presuppositions in turn some findings of sociology are bound to correct or enrich the philosophical theories that deal with the world our knowledge of it or the ways of acting upon it while bunge s thesis would hardly have shocked mill marx durkheim or weber it is alien to the current sociological mainstream and dominant philosophical schools bunge demonstrates that philosophical problematics arise in social science research a fertile philosophy of social science unearths critical presuppositions analyzes key concepts refines effective research strategies crafts coherent and realistic syntheses and identifies important new problems bunge examines marx s and durkheim s thesis that social facts are as objective as physical facts the so called thomas theorem that refutes the behaviorist thesis that social agents react to social stimuli rather than to the way we perceive them and merton s thesis on the ethos of basic science which shows that science and morality are intertwined he then considers selected philosophical problems raised by contemporary social studies in a concluding chapter bunge argues forcefully against tolerance of shabby work in academic social science and philosophy alike

sharot sociology ben gurion u of the negev focuses on the differences and interrelationships between religious elites and lay masses he presents several relevant concepts and theories including a model of religious action based on the work of max weber and a discussion of elites and masses as represented in weber s comparison of world religions coverage encompasses religious action in world religions brahmans renouncers and hinduism in india buddhism and animism in sri lanka and southeast asia traditional catholicism in europe islam and judaism protestants catholics and the reform of popular religion and a comparison of religious elites and popular religions c book news inc

A Comparative Sociology of World Religions

2022-07-29

for more than three decades michael apple has sought to uncover and articulate the connections among knowledge teaching and power in education beginning with ideology and curriculum 1979 apple moved to understand the relationship between and among the economy political and cultural power in society on the one hand and the ways in which education is thought about organized and evaluated on the other this edited collection invites several of the world s leading education scholars to reflect on the relationships between education and power and the continued impact of apple s scholarship like apple s work itself the essays will span a range of disciplines and inequalities emancipatory educational practices and the linkage between the economy and race class and gender formation in relation to schools

Ideology, Curriculum, and the New Sociology of Education

1999-09-05

the idea of public sociology as introduced by michael burawoy was inspired by the sociological practice in south africa known as critical engagement this volume explores the evolution of critical engagement before and after burawoy s visit to south africa in the 1990s and offers a southern critique of his model of public sociology involving four generations of researchers from the global south the authors provide a multifaceted exploration of the formation of new knowledge through research practices of co production tracing the historical development of critical engagement from a global south perspective the book deftly weaves a bridge between the debates on public sociology and decolonial frameworks

Critical Engagement with Public Sociology

2010-12-03

bringing together the author s major scholarly work on weber over the last thirty years max weber s comparative historical sociology today addresses major themes in weber s thought whilst also examining the mode of analysis practised in his comparative historical writings by

exploring weber s concepts and procedures the individual chapters seek to convey the rigor of his research strategies demonstrating their uniqueness in this light this study proceeds to identify as incomplete and then reconstruct the analyses undertaken by weber of the rise of confucianism in china the caste system in india and monotheism in ancient israel the analysis then advances to the modern era utilising weber s research procedures to explain the origins of four independent phenomena the singularity of the american political culture the cultural foundations of modern citizenship cultural pessimism kulturpessimismus in nineteenth century germany and the location of work in contemporary german society a dialogue with a variety of recent major schools is pursued throughout this volume offering a rich examination of the major themes in weber s sociology alongside a reconstruction of his mode of analysis and application of his approach this book will appeal to scholars around the world with interests in social theory german and american societies cultural sociology political sociology the sociology of knowledge comparative historical sociology and the sociology of civilizations

Max Weber's Comparative-Historical Sociology Today

2017-03-02

outstanding it presents a comprehensive state of the field and it explores the role of sociological research in guiding higher education practice choice in this volume patricia gumport and other leading scholars examine the sociology of higher education as it has evolved since the publication of burton clark s foundational article in 1973 they trace diverse conceptual and empirical developments along several major lines of specialization and analyze the ways in which wider societal and institutional changes in higher education have influenced this vital field of study in her own chapters gumport identifies the factors that constrain or facilitate the field s development including different intellectual legacies and professional contexts for faculty in sociology and in education she also considers prospects for the future legitimacy and vitality of the field featuring extensive reviews of the literature this volume will be invaluable for scholars and students of sociology and higher education

Sociology of Higher Education

2003

is it true that religion is weakening in modern times or are we facing religious resurgence what is fundamentalism how does it emerge and grow what role does religion play in ethnic and national conflicts is religion a fundamental driving force or do political leaders use religion for their own purposes do all religions oppress women these are some of the questions addressed in this book an introduction to the sociology of religion provides an overview of sociological theories of contemporary religious life some chapters are organized according to topic others offer brief presentations of classical and contemporary sociologists from karl marx to zygmunt bauman and their perspectives on social life including religion throughout the book illustrations and examples are taken from several religious traditions

An Introduction to the Sociology of Religion

1994-01-11

german professors and academic intellectuals are often blamed for passivity or complicity in the national socialist rise to power karl mannheim was a leading representative of a vital minority of university personalities who devoted themselves to making sociology and higher education contribute to democratization sociology as political education is both an analytical account of mannheim s efforts as well as an illustration of the application of sociological knowledge to the world of practical action together with a second biographical volume by the editors forthcoming next season it comprises a complete record of karl mannheim in the university life of the weimar period the comparatively new discipline of sociology was looked upon with favor by the weimar republic s reformers of higher education in advancing its methods mannheim had first to contend first with prominent and influential figures who attacked sociology as a mere political device to undermine cultural and national values for the sake of narrow interests and partisanship he then had to meet the objections of fellow sociologists who were convinced that the discipline could prosper only as an area of specialized study with no claim to educational goals beyond the technical reproduction finally he had to separate himself from proponents of politicized sociology sociological thought should be rigorous critical and attentive to evidence but mannheim argued its system had to be open and congruent with the ultimate responsibility of human beings for their acts loader and kettler supplement mannheim s groundbreaking volume with previously untranslated mannheim texts among them a transcript of his 1930 sociology course in which mannheim answered his critics and clarified his intentions sociology as political education is not only of historical significance but also shows mannheim s relevance for current discussions of academic integrity and politicization this volume will be of interest to sociologists cultural historians and political scientists colin loader is professor of sociology at the university of nevada las vegas david kettler is scholar in residence at bard college and professor emeritus at trent university he is the author with volker meja of karl mannheim and the crisis of liberalism available from transaction

Sociology As Political Education

2020-10-28

this handbook discusses the social context of education outlining the challenges as well as the advances in public and private education systems at the start of the new millennium it presents an integrated account of social theory and methodologies along with applied perspectives

The International Handbook on the Sociology of Education

this book provides current information about the many recent contributions of social systems theory while some sociologists feel that the systems age ended with functionalism in reality a number of recent developments have occurred within the field the author makes these

developments accessible to sociologists and other non systems scholars and begins a synthesis of the burgeoning systems field and mainstream sociological theory the analysis shows not only that important points of rapprochement exist between systems theory and sociological theory but also that systems theory has in some cases anticipated developments needed in mainstream theory

Sociology and the New Systems Theory

in adopting an international perspective that goes beyond the conventional framework of western theology this volume bridges the divide between european and north american scholars through its careful retrieval of their common theoretical and research interests cipriani provides a critical analysis of both classical thought and contemporary currents in this readable text aimed at both experts and students he has achieved a broadening in the scientific approach to the study of religion
