Film and Television Analysis 2024-01-31

television and its viewers reviews cultivation research which investigates the relationship between exposure to television and beliefs about the world james shanahan and michael morgan both distinguished researchers in this field scrutinize cultivation through detailed theoretical and historical explication critical assessments of methodology and a comprehensive meta analysis of twenty years of empirical results they present a sweeping historical view of television as a technology and as an institution shanahan and morgan s study looks forward as well as back to the development of cultivation research in a new media environment they argue that cultivation theory offers a unique and valuable perspective on the role of television in twentieth century social life television and its viewers the first book length study of its type will be of interest to students and scholars in communication sociology political science and psychology and contains an introduction by the seminal figure in this field george gerbner

Television and Its Viewers 1999-09-09

this book explores adaptation in its various forms in contemporary television drama it considers the mechanics of adaptation as an ever more prevalent form of production most notably in the reworking of literary sources for television it also explores the broader process through which the television industry as a whole is currently making necessary adaptations in how it tells stories especially in relation to important concerns of equality diversity and inclusion offering and analysing 16 original interviews with leading british television producers writers directors production designers casting directors and actors and with a particular focus on female and or minority ethnic industry perspectives the book examines some of the key professional and creative approaches behind television adaptations today the book connects these industry insights to the existing conceptual and critical frameworks of television studies and adaptation studies illuminating the unique characteristics of television adaptation as a material mode of production and revealing television itself as an inherently adaptive artform

Adapting Television Drama 2022-01-01

television series enjoy an unbroken popular as well as scholarly attention it is surprising however that in works on seriality in media and cultural studies approaches to television studies and television history still play a rather minor role yet seriality should always be thought of in terms of television since the two have always been

inextricably interwoven economically technically and aesthetically but what else constitutes the serial in television and how does it change its face in times of digitalization streaming and interactivity is it possible to think of a genuine serial theory of the televisual and what in turn can be learned from this for seriality beyond television the essays in this volume contribute to shedding new light on the serial as a core principle of television and to providing new impulses for a television theory of the serial on the basis of diverse examples from the current range of television series

Colour Television Theory 1971

since its original publication in 1987 channels of discourse has provided the most comprehensive consideration of commercial television drawing on insights provided by the major strands of contemporary criticism semiotics narrative theory reception theory genre theory ideological analysis psychoanalysis feminist criticism and british cultural studies the second edition features a new introduction by robert allen that includes a discussion of the political economy of commercial television two new essays have been added one an assessment of postmodernism and television the other an analysis of convergence and divergence among the essays and the original essays have been substantially revised and updated with an international audience in mind sixty one new television stills illustrate the text each essay lays out the general tenets of its particular approach discusses television as an object of analysis within that critical framework and provides extended examples of the types of analysis produced by that critical approach case studies range from rescue 911 and twin peaks to soap operas music videos game shows talk shows and commercials channels of discourse reassembled suggests new ways of understanding relationships among television programs between viewing pleasure and narrative structure and between the world in front of the television set and that represented on the screen the collection also addresses the qualities of popular television that traditional aesthetics and quantitative media research have failed to treat satisfactorily including its seriality mass production and extraordinary popularity the contributors are robert c allen jim collins jane feuer john fiske sandy flitterman lewis james hay e ann kaplan sarah kozloff ellen seiter and mimi white

series investigates new categories of high end drama and explores the appeal of programmes from netflix sky atlantic hbo national geographic fx and cinemax an investigation of contemporary us televisuality provides insight into the appeal of upscale programming beyond facts about its budget high production values and or feature cinematography rather this book focuses on how the construction of meaning often relies on cultural discourse production histories as well as on tone texture or performance which establishes the locus of engagement and value within the series max sexton and dominic lees discuss how complex production histories lie behind the rise of the us high end series a form that reflects industrial changes and the renegotiation of formal strategies they reveal how the involvement of many different people in the production process based on new relationships of creative authority complicates our understanding of original content this affects the construction of stylistics and the viewing strategies required by different shows the cultural as well as industrial strategies of recent television drama are explored in the young pope the knick stranger things mars fargo the leftovers boardwalk empire and vinyl

Television, Theory and Practice 1937

providing an overview of japanese media theory from the 1910s to the present this volume introduces english language readers to japan s rich body of theoretical and conceptual work on media for the first time the essays address a wide range of topics including the work of foundational japanese thinkers japanese theories of mediation and the philosophy of media the connections between early japanese television and consumer culture and architecture s intersection with communications theory tracing the theoretical frameworks and paradigms that stem from japan s media ecology the contributors decenter eurocentric media theory and demonstrate the value of the japanese context to reassessing the parameters and definition of media theory itself taken together these interdisciplinary essays expand media theory to encompass philosophy feminist critique literary theory marketing discourse and art provide a counterbalance to the persisting universalist impulse of media studies and emphasize the need to consider media theory situationally contributors yuriko furuhata aaron gerow mark hansen marilyn ivy takeshi kadobayashi keisuke kitano akihiro kitada thomas loser anne mcknight ryoko misono akira mizuta lippit miryam sas fabian schäfer marc steinberg tomiko yoda alexander zahlten

Channels of Discourse, Reassembled 2010-01-27

a discussion of a truly international range of television programs

this title covers alternative modes of television such as digital and satellite

After the Break 2013

containing new thinking and original surveys media cultural theory brings together leading international scholars to address key issues and debates within media and cultural studies through the use of contemporary media and film texts such as bridget jones diary and the lord of the rings trilogy and using case studies of the usa and the uk after september 11th james curran and david morley examine central topics including media representations of the new woman in contemporary society the creation of self in lifestyle media the nature of globalization the rise of digital actors and media ideal as a course reader with each essay covering a different major area or advance in original research media cultural theory is global in its reach through its engagement with broad questions it is an invaluable book that can be applied to the studies of media and cultural studies students the english speaking world over

Colour Television Theory 1971

since the assassination of john f kennedy motion pictures and television productions some based on historical fact and conjecture others clearly fanciful have embraced the idea that conspiracies shape many events hide others and generally dictate much of the course of modern life often to the disadvantage of the average person as a result conspiracy theories have developed into a potent undercurrent in american politics by the 1990s it was not unusual to find conspiracies used as explanations for a wide range of political events that would otherwise seem to have quite ordinary explanations thus a vast right wing conspiracy was suggested as the source of bill clinton s troubles just as conspiracy like machinations of the liberal media were used to explain why the picture of world events did not coincide with conservative views and this is to say nothing of the bitter arguments that still erupt over varying explanations for the attacks of 9 11 regardless of a person s opinion about such claims what these and many other examples clearly show is that conspiracy theory explanations have penetrated mainstream american thought here author gordon arnold examines the evolution of this cultural climate in the united states conspiracy theory in film television and politics examines the intersection of various film and television productions in the context of unfolding political developments the chapters follow this story chronologically showing how screen media have both reflected and shaped the cultural milieu in which traumatic events and political controversies have been interpreted with increasing cynicism

the work also reviews the original contexts in which film television and political manifestations of conspiracy ideas first appeared

High Theory/low Culture 1986

what happens to our sense of agency our general ability to perform actions in our life worlds in the course of media reception and appropriation whilst considering media communication as a special form of social action this work reconsiders the key concepts of social action theory pragmatism communication theory as well as film game and television theory it thus integrates agency as the key to understanding doing media and at the same time conceptualizes agency as a specific mode of involvement across media boundaries this approach amalgamates miscellaneous ideas and conceptions such as interactivity participation cognitive control play or empowerment and applies the theoretical considerations on the basis of textual analyses of the films inception and the proposal the tv shows lost and i m a celebrity and the video games grand theft auto iv and the walking dead

Television Technical Theory 2013-08-06

this is paul levinson s original doctoral dissertation submitted to new york university and successfully defended in 1978 the dissertation presents levinson s anthropotropic theory of media evolution anthropo human tropic towards which argues that as media evolve they become increasingly human in function thus telegraph gives way to telephone we hear words not dots and dashes photography changes from black and white to color etc the theory also explains why some media survive the advent of successor media and others do not radio survived the advent of television because hearing without seeing is a natural mode of human communication it gets dark every night and we still hear we can easily close our eyes and continue to hear whereas silent movies were obliterated by talkies it is very difficult in the natural world to see without hearing something or other the theory also predicts the creation of media that will enable us to access all kinds of information from any place in the world any time regardless of where we and that information might be or exactly what we now do with smartphones

Why Theory? 2017

examining television drama from a semiotic viewpoint cracking morse code explains the need to develop semiotic theory further in order to acknowledge all the sign systems that practitioners have exploited in successful television drama

Feminist Film Theory 1999-04

george gerbner's cultivation theory provides a framework for the analysis of relationships between television viewing and attitudes and beliefs about the world since the 1970s cultivation analysis has been a lens through which to examine television's contributions to conceptions of violence sex roles political attitudes and numerous other phenomena hundreds of studies during this time have mostly found that there are relationships between television exposure and people's worldviews but important questions remain just how big are these relationships are they real are some people more vulnerable to them than others do they vary across different topics and will we continue to find them in new media environments in this collection of nineteen chapters leading scholars review and assess the most significant developments in cultivation research in the past ten years the book highlights cutting edge research related to these questions and surveys important recent advances in this evolving body of work the contributors point us toward new directions and fresh challenges for

cultivation theory and research in the future

Seeing It on Television 2021-03-25

television can be imagined in a number of ways as a profuse flow of images as a machine that produces new social relationships as the last lingering gasp of western metaphysical thinking as a stuttering relay system of almost anonymous messages as a fantastic construction of time richard dienst engages each of these possibilities as he explores the challenge television has posed for contemporary theories of culture technology and media five theoretical projects provide still life in real time with its framework the cultural studies tradition of raymond williams marxist political economy heideggerian existentialism derridean deconstruction and a deleuzian anatomy of images drawing lessons from television programs like twin peaks and crime story television events like the gulf war and television personalities like madonna dienst produces a remarkable range of insights on the character of the medium and on the theories that have been affected by it from the earliest theorists who viewed television as a new metaphor for a global whole a liberal technology empty of ideological or any other content through those who saw it as a tool for consumption making time a commodity to those who sense television s threat to being and its intimate relation to power dienst exposes the rich pattern of television s influence on philosophy and hence on the deepest levels of contemporary experience a book of theory still life in real time will compel the attention of all those with an interest in the nature of the ever present ever shifting medium and its role in the thinking that marks our time

High Theory 2001

written in clear and lively prose television explains how television programs and commercials are made and how they function as producers of meaning author jeremy butler demonstrates the ways in which cinematography and videography acting lighting set design editing and sound combine to produce meanings that viewers take away from their television experience this popular text teaches students to read between the lines encouraging them to incorporate critical thinking into their own television viewing television provides essential critical and historical context lucidly explaining how different critical methods have been applied to the medium such as genre study ideological criticism and cultural studies hundreds of illustrations from television programs introduce the reader to the varied ways in which television goes about telling stories presenting news and selling products and a companion site tvcrit com supplements the text with color frame grabs and illustrative video clips highlights of this

third edition include new segments on reality television and television animation since 1990 an updated and expanded chapter surveying critical methods applied to television a wide variety of examples including recent television shows and a supplemental dvd to provide teachers with video examples and exercises with its distinctive approach to examining television this text is appropriate for courses in television studies media criticism and general critical studies in addition television will encourage critical thinking in television production courses

Colour Television 1994-03

use first two paragraphs only for general catalogs this volume offers a response to three ongoing needs to develop the main composition principles pertinent to the visual communication medium of television to establish the field of television aesthetics as an extension of the broader field of visual literacy and to promote television aesthetics to both students and consumers of television based on effective empirical research from three axes perception cognition and composition the aesthetic principles of television images presented are drawn from converging research in academic disciplines such as psychology perceptual cognitive and experimental neurophysiology and the fine arts painting photography film theater music and more although the aesthetics of the fine arts were traditionally built on contextual theories that relied heavily on subjective evaluation on critical analyses and on descriptive research methods the aesthetics of today s visual communication media consider equally valuable empirical methodologies found in all sciences investigations in these different academic disciplines have provided the constructs and strengthened the foundations of the theory of television aesthetics offered in this book special features include a great variety of pictures supporting the topics discussed a thorough up to date and specifically related bibliography for each of the major parts of the book computer drawings illustrating the concepts examined in the text scientific data tables and charts documenting the research findings cited simplified explanations of the processes of visual auditory and motion perceptions of images enhanced by specific diagrams detailed analyses of the threefold process of stimulation perception and recognition of televised images and workable easy to understand and use rules of picture composition visual image evaluations and television program appreciation
