**The Degrees of the Zodiac Symbolized** 2004-05-01 the zodiac as the universal matrix is not only one of rudhyar s most accessible and easy to read books it is also the only book in which rudhyar provides comprehensive descriptions of each of the ten astrological planets in each of the twelve signs of the zodiac and the descriptions themselves are more striking psychological and critical than what we came to expect from rudhyar during the second half of the 20th century written during 1942 it uses the birth charts of many world leaders of the time as examples the premise of the universal matrix is significant and intriguing for in it rudhyar attributes substantive and causal qualities to the zodiac in the work rudhyar describes the zodiac the universal matrix as a substantive electromagnetic field of zodiacal influence which is permanently anchored to the earth the emanations of which beat constantly upon us yet such statements which might surprise some readers familiar with rudhyar s astrological work is actually consistent with his lifelong metaphysics indeed the basic concept of fields enveloping the planet and human beings is of ancient origin and it is an integral part of theosophy from which rudhyar largely drew his metaphysical underpinnings here s some sample descriptions mars in leo when the leo type of energies are activated by the forceful and outgoing planet mars fireworks may be expected this produces a colorful personality or at least a strong will to dominate there is an intense urge toward dramatic self expression and when concrete materials for self expression or for personal show are not available the person is likely to use imaginary materials mercury in libra in a negative sense mercury in libra reveals a frivolous butterfly mentality and also a social urge which is more a matter of intellectual attitudes than one of deep realizations mental pride and sensitiveness to social criticism may be in evidence or an extreme subservience of the mental life to social or cultural traditions venus in gemini when gemini forces are illumined by the presence of venus experiences and sensations are valued mostly for the meaning which can be derived from them thus the person with such a natal configuration may pass from experience to experience from human contact to more human contacts simply to provide food for the development of her sense of value and her quality of emotional response they are like the kisses given to the flowers by the bee all that the bee wants is honey it is better not to become attached to persons with a natal venus in gemini if one wants lasting happiness but an intimate though brief contact with them should be revealing and stimulating for they are artists in expression and catalytic agents for growth mars in cancer this is a rather unsatisfactory position for mars because this planet symbolizes all outgoings and cancer is a field for the activity of concentrating and indrawing forces thus either mars in cancer is not allowed to operate with any degree of power by a number of inhibiting influences or else the energy of mars is thrust into a work which is not congenial in the former case the person born with mars in cancer demonstrates a weak capacity for action and for initiative great moodiness irritability or so called artistic

temperament in the second alternative he tends to act with aggressive selfishness he makes unreasonable demands upon others loses his sense of proportion and makes a show of himself and his personal problems
