by jemmer teferra isbn 13 978 1 84747 009 6 published 2006 pages 135 description written by his mother this is the tragic
story of abi a young man from ethiopia who took his own life after a battle against mental illness abi escaped the horror of
ethiopia s marxist military revolution this book provides a unique insight into the psychological trauma suffered by the
victims of war this original and extraordinarily moving book charts abi s life in words and pictures and attempts to make
sense of his tragic death about the author dr jemmer teferra was abi s mother this book was written by her and her family

in abi s memory dr jember teferra set up a trust to fund research into the psychological problems of the victims of war her aim was to help people in a similar position to her son she also wants to provide more insight into this area and inform psychiatrists of this type of mental illness book extract we never know what it feels like to be with the good lord where we have no more earthly care to worry about i hope somehow those who have left us to be with him can see or know that their past concerns are addressed their wishes have been fulfilled what was worrying our beloved abi at the last session in the hospital consulting room at the royal preston hospital avondale unit where we were sitting for group discussion i clearly remember what the psychiatrist said i am afraid your son s case does not fit into a british black or a british white mental illness category i can just remember my son abruptly getting up very angry and rushing to the door opening it and turning towards me before walking out i can still hear him saying you are wasting your time emamma this people are dummies i have repeatedly told you that they do not understand my case i think that if i ever get healed i will help other victims like myself it will only be someone like me who has been through such illness that can help those in similar circumstances he was not only concerned for himself but for all other in similar circumstances he obviously had a burning desire to be in a position to help those victims of political conflict political imprisonment displacement and other human suffering such as escapees like himself from enforced conscription in today s world we are told that some 20 or more wars officially or unofficially go on in different parts of the world therefore there must surely be more and more abi s whose pain agony and depression and other related mental health problems are not understood or dismissed by the ordinary mental health services and psychiatrists abi very unfortunately has suddenly chosen to leave us by taking his own life we will always feel hurt and up set and cherish his memory whenever we think how much pain agony and suffering have caused this action but we can still save many of them who are in his category we as a family have felt committed to his cause within our limitation we can at least address his concern by setting up a trust to help carry out research which will result in attention being given and focusing on victims of wars political conflicts political imprisonment enforced conscriptions and displacement as well as any direct or indirect problems related to these situations
