**Mourning and Mitzvah (25th Anniversary Edition)** 2017-08-22 religion is an essential part of our humanity we all follow some form of religion in the original meaning of the word but organized religion establishes definitions boundaries and hierarchies which the founders would be amazed by this is perhaps more true of christianity than most other religions due to the short life of jesus his sudden death the lack of any contemporary records his teaching about the kingdom of god is great it could see us through our time on earth but his followers watered it down and soon lost it altogether it became a kingdom in heaven for the few rather than one here and now for everyone the church or churches that resulted became increasingly irrelevant even a hindrance to seeing it realized many will always find security and truth in the traditions that developed and good for them but for those who can t for those who have given up on religion or never thought it worth considering the original teachings are worth another look if we could recover them and live by them we could change ourselves and the world for the better we could bring god up to date
