this book took the task of conceptualising the change of african civilization in the 21st century it examines african civilization and its encounters in view of the last 500 years of european and american slavery exploitation and diplomatic paralysis in post colonial africa 1960 2014 foreign powers have more influence on africa however africa cannot claim to have the diplomatic prestige to influence european american or asian powers the overwhelming challenges that africa has been experiencing did attract global reaction ranging from military intervention diplomatic push or pull rarely in between and frequent humanitarian involvements it is still inconclusive if global attention on africa has had impact as much as it has been a stomping ground for advisors donors politicians international agencies and a phalanx of well meaning ngos however their impact can be exemplified by the fact that in sub saharan africa every second individual still does not have access to fresh water and electricity in the 21st century in this book the focus is put on sub saharan africa where every other habitant has no access to fresh water and electricity in this book the following modernization strategies are recognized and discussed in africa today westernization africanization chinezation and globalization the evaluation of these policies is done with the civilization approach which is characterized by a big picture view of the integration of society culture including religion and infrastructure over a long period of time on a large territory furthermore in the 21st century global civilization are forming and penetrating contemporary civilizations such as western eastern chinese japanese islamic buddhist hindu and african enforcing the development of large scale global businesses and capital in such a context should african civilization follow the questionable policy of westernization and globalization or should it not follow these challenges and avoid the temptations of fast development and look rather towards the africanization approach which could make it last longer than the so called more modern mentioned civilizations these kinds of considerations are debated in this book

it became apparent to me that due to the complexity of problems that face humanity today those who do not know should not lead professor tshilidzi marwala in 2020 the world found itself in a state of flux a global pandemic disrupted the world order while the digital transformation of the fourth industrial revolution 4ir with its challenges and huge potential benefits presented a fundamental paradigm shift how are africa s leaders to respond today in a crisis decisive leadership is imperative for the public good but as we move beyond the pandemic and confront the changes of the 4ir we must

determine how we will adapt what is clear is that leadership will have to be grounded in scientific and mathematical thinking and in good governance it follows then that for south africa to succeed as a nation in the 21st century we must be able to provide our people with an all embracing education not just science and technology but human and social sciences as well leading in the 21st century presents a comprehensive overview of how the world is changing and lessons we can draw from leaders particularly in the african context from charlotte maxeke and the rain queen modjadji to mangaliso robert sobukwe eric molobi and richard maponya there is much to learn from great leaders the challenges of the 21st century are immense from climate change to social media and the digital divide that deepens our understanding of inequality particularly in the new normal south africa faces not only a shifting global context but a fraught local context of stagnant growth rising unemployment and deep seated inequality worsened in 2020 by the national lockdown necessitated by the coronavirus pandemic the 4ir offers solutions to many of our most pressing problems and we cannot afford to be left behind the certainty is that the 4ir has arrived the debates lie in how we respond to it tshilidzi marwala deciphers it all while providing a framework for navigating these shifts a leading academic of international standing and deputy chair of south africa s presidential 4ir commission tshilidzi marwala provides valuable insights into how leadership should be responding to the digital challenges of the 21st century
