The Gutenberg Elegies 2006-11-14 a thoughtful and heartfelt book a literary cri de coeur a lament for literature and everything implicit in it the washington post in our zeal to embrace the wonders of the electronic age are we sacrificing our literary culture renowned critic sven birkerts believes the answer is an alarming yes in the gutenberg elegies he explores the impact of technology on the experience of reading drawing on his own passionate lifelong love of books birkerts examines how literature intimately shapes and nourishes the inner life what does it mean to hear a book on audiotape decipher its words on a screen or interact with it on cd rom are books as we know them dead at once a celebration of the complex pleasures of reading and a boldly original challenge to the new information technologies the gutenberg elegies is an essential volume for anyone who cares about the past and future of books a wise and humane book he is telling us in short nothing less than what reading means and why it matters the boston sunday globe warmly elegiac a candid and engaging autobiographical account sketches his own almost obsessive trajectory through avid childhood reading this profoundly reflexive process is skillfully described the new york times book review provocative compelling powerfully conveys why reading matters why it is both a delight and a necessity the harvard review

Manners of the Age 2010 gutenberg simply put helped found the modern age

Gutenberg 2002-04-11 the gutenberg parenthesis traces the epoch of print from its fateful beginnings to our digital present and draws out lessons for the age to come the age of print is a grand exception in history for five centuries it fostered what some call print culture a worldview shaped by the completeness permanence and authority of the printed word as a technology print at its birth was as disruptive as the digital migration of today now as the internet ushers us past print culture journalist jeff jarvis offers important lessons from the era we leave behind to understand our transition out of the gutenberg age jarvis first examines the transition into it tracking western industrialized print to its origins he explores its invention spread and evolution as well as the bureaucracy and censorship that followed he also reveals how print gave rise to the idea of the mass mass media mass market mass culture mass politics and so on that came to dominate the public sphere what

can we glean from the captivating profound and challenging history of our devotion to print could it be that we are returning to a time before mass media to a society built on conversation and that we are relearning how to hold that conversation with ourselves brimming with broader implications for today's debates over communication authorship and ownership jarvis exploration of print on a grand scale is also a complex compelling history of technology and power

The Gutenberg Parenthesis 2023-06-01 what does obscene mean what does it have to say about the means through which meaning is produced and received in literary artistic and more broadly social acts of representation and interaction early modern france and europe faced these questions not only in regard to the political religious and artistic reformations for which the renaissance stands but also in light of the reconfiguration of its mediasphere in the wake of the invention of the printing press the politics of obscenity brings together researchers from europe and the united states in offering scholars of early modern europe a detailed understanding of the implications and the impact of obscene representations in their relationship to the gutenberg revolution which came to define western modernity

0000 2018-01-22 major transformations in society are always accompanied by parallel transformations in systems of social communication what we call the media in this book historian Frédéric Barbier provides an important new economic political and social analysis of the first great media revolution in the west Gutenberg's invention of the printing press in the mid fifteenth century in great detail and with a wealth of historical evidence Barbier charts the developments in manuscript culture in the twelfth and thirteenth centuries and shows how the steadily increasing need for written documents initiated the processes of change which culminated with Gutenberg the fifteenth century is presented as the age of start ups when investment and research into technologies that were new at the time including the printing press flourished tracing the developments through the sixteenth century Barbier analyses the principal features of this first media

revolution the growth of technology the organization of the modern literary sector the development of surveillance and censorship and the invention of the process of mediatization he offers a rich variety of examples from cities all over europe as well as looking at the evolution of print media in china and korea this insightful re interpretation of the gutenbergs revolution also looks beyond the specific historical context to draw connections between the advent of print in the rhine valley paper valley and our own modern digital revolution it will be of great interest to students and scholars of early modern history of literature and the media and will appeal to anyone interested in what remains one of the greatest cultural revolutions of all time

Gutenberg's Europe 2017-05-23 revolutions in communication offers a new approach to media history presenting an encyclopedic look at the way technological change has linked social and ideological communities using key figures in history to benchmark the chronology of technical innovation kovarik s exhaustive scholarship narrates the story of revolutions in printing electronic communication and digital information while drawing parallels between the past and present updated to reflect new research that has surfaced these past few years revolutions in communication continues to provide students and teachers with the most readable history of communications while including enough international perspective to get the most accurate sense of the field the supplemental reading materials on the companion website include slideshows podcasts and video demonstration plans in order to facilitate further reading revolutionsincommunication.com

Revolutions in Communication 2015-11-19 john naughton is the observer s networker columnist a prominent blogger and vice president of wolfson college cambridge the times has said of his writing it draws on more than two decades of study to explain how the internet works and the challenges and opportunities it will offer to future generations and cory doctorow raved that this is the kind of primer you want to slide under your boss s door in from gutenbergs to zuckerbergs naughton explores the living history of one of the most radically transformational technologies of all time from gutenbergs to zuckerbergs is a clear eyed history of one of the most central features of modern life the internet once a technological novelty and now the very plumbing of the information age the internet is something we have learned to take largely for granted so how exactly has

postphenomenology media ecology posthumanism and complexity theory richard lewis s book offers a method for such a reflection and shows how our everyday media environments constitute us as post human subjects one that is becoming and constitutes through relations also with our media technologies an original interdisciplinary effort including for example the term intrasubjective mediation and a must read book for everyone interested in how we become with and through technologies prof mark coeckelbergh university of vienna technology media literacy and the human subject is a clearly and concisely written book that employs a fruitful transdisciplinary approach it at once offers an excellent grounding in the literature whilst simultaneously developing a useful tool for students to reflect deeply and critically upon their own engagement with media thoroughly recommended alexander thomas university of east london what does it mean to be media literate in today s world how are we transformed by the many media infrastructures around us we are immersed in a world mediated by information and communication technologies icts from hardware like smartphones smartwatches and home assistants to software like facebook instagram twitter and snapchat our lives have become a complex interconnected network of relations scholarship on media literacy has tended to focus on developing the skills to access analyze evaluate and create media messages without considering or weighing the impact of the technological medium how it enables and constrains both messages and media users additionally there is often little attention paid to the broader context of interrelations which affect our engagement with media technologies this book addresses these issues by providing a transdisciplinary method that allows for both practical and theoretical analyses of media investigations informed by postphenomenology media ecology philosophical posthumanism and complexity theory the author proposes both a framework and a pragmatic instrument for understanding the multiplicity of relations that all contribute to how we affect and are affected by our relations with media technology the author argues persuasively that the increased awareness provided by this posthuman approach affords us a greater chance for reclaiming some of our agency and provides a sound foundation upon which we can then judge our media relations this book will be an indispensable tool for educators in media literacy and media studies as well as academics in philosophy of
