surveying the judicial and public policy issues central to the identification and protection of women's rights susan mezey traces the developing legal parameters of gender equality from early court rulings that prohibited employment discrimination and sexual harassment through today's decisions on reproductive rights and same sex relationships mezey analyzes the broader political context within which critical judicial decisions have been made he beat them he abused them and he tortured them he broke their dreams but they came back stronger terrie and paul are two of the bravest people i have ever met i have only shared the briefest glimpse into the true horrors this brother and sister have endured but i rarely come across cases this bad after the unspeakable abuse and shocking betrayals two incredible human beings came through to inspire us all sara payne obe co founder of phoenix survivors terrie and paul's step father had been living with them for six months when the abuse and grooming began what started as innocent conversations and goodnight kisses quickly developed into something far darker and depraved everyday terrie was assaulted and abused her rapes were photographed filmed and shared paul was regularly taunted and mercilessly beaten but despite the bruises and the scars and the desperate pleas for help no one saw their pain but through it all they stuck together battling for their childhoods for over a decade and masterminding creative ways to outwit their stepfather and buy themselves fleeting moments of joy in march 2013 thirty years on terrie and paul made the brave decision to give up their right to anonymity to tell of the years of abuse they endured at the hands of their recently convicted step father and raise awareness for the ongoing battle for justice for victims of child abuse a powerful testament of what can be achieved through courage and love this is their inspiring story he beat them he abused them and he tortured them he broke their dreams but they came back stronger from the earliest days till now islam and the world of islam have not been harmed so severely by any external enemy as by some simple minded muslim ulema themselves in fact the enemies of islam have utilized the unwise religious edicts of these naive ulema as a basis to attack islam the wrong trend among the ulema took place when under the influence of changing sociopolitical environment they preferred to adopt some politically coloured islamic interpretations and ignored the clear teachings of the qur'an and the noble precedence set by the holy prophet sa killing of apostates is one of such erroneous trends and baseless convictions in fact this menacing tenet is based neither on the qur'an nor on the practice of the prophet of islam this dangerous and untenable belief produced very grave consequences hazrat mirza tahir ahmad rh the fourth successor of the promised messiah as in a lecture delivered at jalsa salana the annual gathering uk on 27th july 1986 analysed in depth all aspects of this heinous tenet he showed it to be an utterly false and unfounded belief and smashed once for all the so called arguments of the ulema in support of this claim he has proved it to be a false belief his arguments are based on the holy qur'an the sunnah and ahadith of the holy prophet sa and the historical events that took place in the eras of the righteous caliphs ra hazrat mirza tahir ahmad rh deals with the subject extensively and it is earnestly hoped that the address will help unbiased researchers to fully understand the true teachings of islam on the subject it is also hoped that it will go a long way to creating a new spirit in which islamic teachings are appreciated in their real essence and true nature and prejudice against islam is eradicated the relationship between islamic law and international human rights law has been the subject of considerable and heated debate in recent years the usual starting point has been to test one system by the standards of the other asking is islamic law compatible with international human rights standards or vice versa this approach quickly ends in acrimony and accusations of misunderstanding by overlaying one set of norms on another we overlook the deeply contextual nature of how legal rules operate in a society and meaningful comparison and discussion is impossible in this volume leading experts in islamic law and international human rights law attempt to deepen the understanding of human rights and islam paving the way for a more meaningful debate focusing on central areas of controversy such as freedom of speech and religion gender equality and minority rights the authors examine the contextual nature of how islamic law and international human rights law are legitimately formed interpreted and applied within a community they examine how these fundamental interests are recognized and protected within the law and what restrictions are placed on the freedoms associated with them by examining how each system recognizes and limits fundamental freedoms this volume clears the ground for exploring the relationship between islamic law and international human rights law on a sounder footing in doing so it offers a challenging and distinctive contribution to the literature on the subject
