highlighting while reading the oracle paradox a techno thriller
novel of the near future when a powerful artificial intelligence
called oracle identifies individuals who pose a significant risk
to the stability of our society or who have a high probability of
posing such a risk in the future and sends assassins to kill
them e i know that i know nothing is a saying derived from
plato s account of the greek philosopher socrates for i was
conscious that i knew practically nothing plato apology 22d
translated by harold north fowler 1966 1 it is also sometimes
called the socratic paradox although this name is often
instead used to refer to other in essence the oracle paradox
describes the friction between relevance of the external data
