in the early 1990 s dr daniel penoell referred to helichrysum italicum as the super arnica of
aromatherapy one would think with such high praise that it would be in every single aromatherapy text
book but no it was dr kurt schnaubelt who pointed out that although it was not found in an
aromatherapy text book before the 1980 s the oil had been taken to ever aromatherapist s heart and
was now generally accepted as one of our most healing oils other therapists described it as being the
very best essential oil for healing scar tissue but only if you used the oil distilled from plants sourced
from corsica all this puzzled me i wanted to find out more i could not have bargained for the strange
journey the plant lost in history took me on come with me and discover the helichrysum genus which

has no less than 600 chemtypes thirty of these grow in south africa and have become at the core of african medicine five of these have been found to be able to prevent the multiplication of hiv and herpes simplex cells meet the ancient greek heroes who danced in celebration of their sacred goddess and how helichrysum decorated her temples climb down inside a roman necropolis and see how this sun gold plant was used to say farewell to the dead navigate the minefield of essential oil chemistry and understand which bottle of oil to use for each different condition in particular become intimately knowledgeable in an oil which is unsurpassed for treating physical and emotional trauma insidious infection on a dangerous scale scar tissue new and old bruising and hematoma ptsd addiction skin story not only can their energy patterns flow through us they can also be used to facilitate planetary healing it is the plan of this volume to describe from a general point of view the history chemistry biological origin and functions of the essential oils method of production and analysis this is the author's motive for the present treatise on the production chemistry analysis and application of these interesting and important products it has been the author's rare privilege to witness most of these developments first hand in his travels that have lasted for more than twenty years they have taken him the length and breadth of europe through africa asia australia into the new producing centres of north central and south america in all of which places he surveyed the production of essential oils at their source one of the most appealing as well as one of the easiest ways of bringing a breath of summer in to the home is to use dried and pressed flowers to make an almost endless variety of attractive arrangements and designs pot pourri made with colorful fragrant plants and carefully selected herbs and spices recreate evocative scents to remind us of nature's fragrance carol petelin author of the successful the creative guide to dried flowers has drawn on her wealth of experience to provide the ultimate guide to drying and using flowers plants and herbs in a myriad of creative ways first she describes plants that can be most successfully grown even by those with limited garden space and explains how to best harvest and dry them the next section covers the art of dried flower arranging there is advice on working with different combinations of color and form to create arrangements in containers bouquets posies garlands and swags she tells how to gather and press flowers and herbs and offers a variety of imaginative projects for them the final section is devoted to pot pourri the author includes recipes for deliciously fragrant mixtures and describes how pot pourri scented flowers and spices can be used to make many delightfully fragranced items there is a list of sources for herbs and essential oils lavishly illustrated throughout with simon mcbride's color photographs and decorated with some of edith holden's own drawings from the country diary of an edwardian lady and the nature notes of an edwardian lady the country diary book of
