with clear and vibrant expressions of nonduality time and time again the text gently points back to the futility of both the spiritual search and the search to end the search another game the mind loves to play with great humour compassion and clarity the book will draw you into a direct confrontation with your own absence an absence which paradoxically is also a perfect presence this may be the last book a spiritual seeker will ever need what is life when seeking ends just what is nothing more or less an ordinary person doing ordinary things not wishing to be more or less content to simply be herself dorothy hunt only this do you ever feel as if your spiritual search is getting you nowhere that despite sincere intention and effort you re reaping frustration instead of fruit in ending the search dorothy hunt unravels a dilemma that has vexed countless people on a spiritual path you may have tried all manner of practices meditation guru shopping chanting prayer and still you have not attained your heart s desire she writes this book is about the ego s spiritual ambition its search for its idea of enlightenment its struggles and its eventual fate as seeker becomes the sought ending the search explores the deep spiritual impulse to awaken and the ways a future focused mind co opts or veils what is timelessly free loving and ever present dorothy invites us to follow our longing for truth love or enlightenment back to their source the heart that is beckoning us beyond separation while describing and honoring different practices and paths taken in one s search for truth she

emphasizes the practice of self inquiry as taught by ramana maharshi we are invited to search not for an idea of something out there but for the true identity of the seeker the unnamable mystery that is compassionately aware existing right now in each of us the book also looks at the processes of embodiment and surrender the need for ruthless honesty without self judgment and in its concluding section shares a vision of life lived authentically the spiritual search is a call to remember who or what you essentially are explains dorothy hunt what ends the search is actually present from the very beginning beckoning you to come home in truth you are what you seek yet you must make the discovery for yourself this is your invitation with ending the search highlights the nature of spiritual ambition when practice becomes problematic how the thinking mind separates us from the moment silence and stillness our greatest teachers ego and the trance of separation the human heart as a doorway to the infinite the freedom of presence the price of realization gurus spiritual teachers and charlatans undoing core egoic beliefs resting the mind in the heart of awareness being on a spiritual journey can be confusing and overwhelming in a friendly and engaging way the authors offer a clear explanation of important guiding principles and exercises that help put the reader on her path to inner peace claudia a 40ish mother of two is complaining of feeling tired and often angry for no apparent reason with the direction of her yoga teacher claudia finds herself talking to a spiritual
