convenient entertaining and provocative talk radio today is unapologetically ideological focusing on rush limbaugh the medium s most influential talk show rushed to judgment systematically examines the politics of persuasion at play on our nation s radio airwaves and asks a series of important questions does listening to talk radio change the way people think about politics or are listeners attitudes a function of the self selecting nature of the audience does talk radio enhance understanding of public issues or serve as a breeding ground for misunderstanding can talk radio serve as an agent of deliberative democracy spurring americans to open public debate or will talk radio only aggravate the divisive partisanship many americans decry in poll after poll the time is ripe to evaluate the effects of a medium whose influence has yet to be fully reckoned with

American Politics, Then & Now

2010-06-10

is there an american culture certainly says james morone americans are fighting over it now they have been fighting over it since the first puritan stepped ashore americans hate government no national health insurance and call for more of it lock em up they prize democracy power to the people and scramble to restrict it the electoral college in the 21st century they celebrate opportunity but only for some don t let those people in americans proclaim liberty then wrestle over which kind positive freedom from want or negative no new taxes in this volume morone offers his own answer to the conundrum of american political culture it is a perpetual work in progress immigrants arrive excluded groups demand power and each generation injects new ethnicities races religions ideas foods entertainments sins and body types into the national mix the challengers the devils we know keep inventing new answers to the nation s fundamental question who are we each essay in the devils we know takes up a different aspect of the creative conflicts that shape america ranging from huck finn to obamacare morone explores the ways in which culture interacts with other forces most notably the rules and organizations that channel collective choices the battle to define the nation s political culture spills over into every area of american life but three are especially important democracy economics and morals each in turn complicated by race race race written over 25 years these essays constitute a closely observed and deeply thoughtful vision of what america is its ideas images rules institutions and culture clashes together they explain just why america is the way it is and what it might become

Rushed to Judgment

2002-08-27

a history of american political theories is a comprehensive attempt to understand the full sweep of american political thought since the founding working within the liberal progressive tradition merriam reviewed american political history in its entirety from the founding down to his own day he was not out to reduce political thought to a single element such as economics alone his aim was to encompass the whole of modern social science the political science of the liberal progressive tradition has roots and assumptions that were born in this period and nurtured by scholars such as merriam the progressive tradition in general and merriam in particular interpreted the rise of a new science of politics that would be required for the liberal progressive world view he represented his work stands at a momentous fork in the road two great traditions of how american democracy should be understood interpreted and analyzed parted company and afterward each went their separate ways these traditions are represented respectively by the founders and the liberal progressives there was much at stake in these academic debates though the consequences were not entirely foreseen at the time an overview of the authors works and general source material covered in history of american political theories is impressive merriam viewed the study of american democracy as an eclectic activity embracing the broadest definition of the social sciences with particular emphasis on psychology such a transformation required that the social sciences be grouped as a whole rather than fragmented into separate and distinct academic departments

The Devils We Know

2015-08-07

america keeps a fine house anatol lieven writes but in its cellar there lives a demon whose name is nationalism in this controversial critique of america s role in the world lieven contends that u s foreign policy since 9 11 has been shaped by the special character of our national identity which embraces two contradictory features one the american creed is a civic nationalism which espouses liberty democracy and the rule of law it is our greatest legacy to the world but our almost religious belief in the creed creates a tendency toward a dangerously messianic element in american nationalism the desire to extend american values and american democracy to the whole world irrespective of the needs and desires of others the other feature populist or what is sometimes called jacksonian nationalism has its roots in an aggrieved embittered and defensive white america centered largely in the american south where the creed is optimistic and triumphalist jacksonian nationalism is fed by a profound pessimism and a sense of personal social religious and sectional defeat lieven examines how these two antithetical impulses have played out in recent us policy especially in the middle east and in the nature of u s support for israel he suggests that in this region the uneasy combination of policies based on two contradictory traditions have gravely undermined u s credibility and complicated the war against terrorism it has never been more vital that americans understand our national character this hard hitting critique directs a spotlight on the american political soul and on the curious mixture of chauvinism and idealism that has driven the bush administration

A History of American Political Theories

2017-07-12

conveying how the american political system is both extraordinary and complex the authors explain in a simple and straightforward way that there is a rationale embedded in the u s political system this underlying logic helps students see why political institutions are structured the way they are and why the politicians who occupy them and the citizens who monitor and respond to their actions behave as they do kernell and jacobson analyze political institutions and practices as imperfect solutions to problems facing people who need to act collectively throughout the text the authors highlight these collective action problems including the conflict over values and interests and the costs associated with finding and agreeing on a course of action they describe how the choices made to resolve problems at one moment affect politics in the future long after the original issues have faded they emphasize the strategic nature of political action from the framers careful drafting of the constitution to contemporary politicians strategic efforts to shape policy according to their own preferences

America Right or Wrong : An Anatomy of American Nationalism

2004-10-15

the american political tradition is one of the most influential and widely read historical volumes of our time first published in 1948 its elegance passion and iconoclastic erudition laid the groundwork for a totally new understanding of the american past by writing a kind of intellectual history of the assumptions behind american politics richard hofstadter changed the way americans understand the relationship between power and ideas in their national experience like only a handful of american historians before him frederick jackson turner and charles a beard are examples hofstadter was able to articulate in a single work a historical vision that inspired and shaped an entire generation

The Logic of American Politics

2006

about the united states supreme court during earl warren s term as united states chief justice and its involvement in politics

American Political Terms

1962

during a long period of the twentieth century stretching from the great depression until the reagan years defeat generally characterized the electoral record of the republican party although republicans sometimes secured victory in presidential contests a majority of americans identified with the democratic party not the gop this book investigates how republicans tackled the problem of their party s minority status and why their efforts to boost gop fortunes usually ended in failure at the heart of the republicans minority puzzle was the profound and persistent popularity of new deal liberalism this puzzle was stubbornly resistant to solution efforts to develop a republican version of government activism met little success the same was true of conservative strategies that stressed a more fundamental rejection of the democrats arguments technocratic initiatives to improve party organization and communications similarly failed to facilitate an electoral breakthrough only the democratic party s decline eventually created opportunities for republican resurgence this book is the first to offer a wide ranging analysis of the topic which is of central importance to any understanding of modern u s political history

The American Political Tradition

1989

has america in its quest for goodness sacrificed its sense of greatness in this sharp witted historically informed book veteran political observer alan wolfe argues that most americans show greater concern with saving the country s soul than with making the nation great wolfe castigates both conservatives and liberals for opting for small mindedness over greatness liberals who at their best insisted on policies of national solidarity have convinced themselves that small is beautiful prefer multiculturalism to one nation and are mistrustful of executive political power conservatives who once embraced strong active central government and an ideal of national citizenship now support huge tax cuts that undermine america s future ability to undertake any ambitious long term project at home or abroad no great society in wolfe s view has ever been built on the cheap wolfe notes that neither the conservatives call for small scale faith based initiatives nor the recent embrace on the left of a grassroots civil society can provide health care to tens of millions of uninsured americans or ensure national security in an age of terrorism to find better solutions wolfe looks back at specific moments in our national experience when in the face of sharp resistance aspirations for the idea of national greatness shaped american history he demonstrates how a bold and ambitious political agenda championed at various times by alexander hamilton john marshall abraham lincoln and the two roosevelts steered the country toward periods of national strength and unity steeped in a colorful panoramic reading of history return to greatness offers a fresh take on american national identity and purpose a call to action for a renewed embrace of the ideal of an activist federal government and bold policy agendas it is sure to become a centerpiece of national debate

The Warren Court and American Politics

2000

this volume showcases the most exciting new voices in the fields of business and political history while the media frequently warns of the newfound power of business in the world of politics the authors in this book demonstrate that business has mobilized to shape public policy and government institutions as well as electoral outcomes for decades rather than assuming that business influence is inevitable the chapters explore the complex evolution of this relationship in a wide range of different arenas from attempts to create a corporate friendly tax policy and regulations that would work in the interests of particular industries to local boosterism as a weapon against new deal liberalism to the nexus between evangelical christianity and the oil industry to the frustrations that business people felt in struggles with public interest groups the history that emerges show business actors organizing themselves to affect government in myriad ways sometimes successfully but other times with outcomes far different than they hoped for the result in an image of american politics that is more complex and contested than it is often thought to be the essays represent a new trend in scholarship on political economy one that seeks to break down the barriers that once separated old subfields to offer a vision of the economy as shaped by politics and political life influenced by economic relationships

The Development of [American] Political Science: from Burgess to Behavioralism

1967

one of our most eminent historians reminds us of the commanding role party politics has played in america s enduring struggle against economic inequality there are two keys to unlocking the secrets of american politics and american political history so begins the politicians the egalitarians princeton historian sean wilentz s bold new work of history first america is built on an egalitarian tradition at the nation s founding americans believed that extremes of wealth and want would destroy their revolutionary experiment in republican government ever since that idea has shaped national political conflict and scored major egalitarian victories from the civil war and progressive eras to the new deal and the great society along the way second partisanship is a permanent fixture in america and america is the better for it every major egalitarian victory in united states history has resulted neither from abandonment of partisan politics nor from social movement protests but from a convergence of protest and politics and then sharp struggles led by principled and effective party politicians there is little to be gained from the dream of a post partisan world with these two insights sean wilentz offers a crystal clear portrait of american history told through politicians and egalitarians including thomas paine abraham lincoln and w e b du bois a portrait that runs counter to current political and historical thinking as he did with his acclaimed the rise of american democracy wilentz once again completely transforms our understanding of this nation s political and moral character

The Republican Party and American Politics from Hoover to Reagan

2014-01-02

after the constitutional convention benjamin franklin was asked well doctor what have we got a republic or a monarchy franklin s response a republic if you can keep it this book argues we couldn t keep it a true republic privileges the common interest above the special interests to do this our constitution established an elaborate system of checks and balances that disperses power among the branches of government which it places in conflict with one another the framers believed that this would keep grasping covetous factions from acquiring enough power to dominate government instead only the people would rule proper institutional design is essential to this system each branch must manage responsibly the powers it is granted as well as rebuke the other branches when they go astray this is where subsequent generations have run into trouble we have overloaded our government with more power than it can handle the constitution s checks and balances have broken down because the institutions created in 1787 cannot exercise responsibly the powers of our sprawling immense twenty first century government the result is the triumph of special interests over the common interest james madison called this factionalism we know it as political corruption corruption today is so widespread that our government is not really a republic but rather a special interest democracy everybody may participate yes but the contours of public policy depend not so much on the common good as on the push and pull of the various interest groups encamped in washington dc

Return to Greatness

2009-02-09

where did the era of divided government come from what sustains split partisan control of the institutions of american national government year after year why can it shift so easily from democratic or republican presidencies coupled with republican or democratic congresses how can the vast array of issues and personalities that have surfaced in american politics over the last forty years fit so neatly within indeed reinforce the sustaining political pattern of our time these big questions constitute the puzzle of modern american politics the old answer a majority and a minority party plus dominant and recessive public issues will not work in the era of divided government byron shafer a political scientist who is regarded as one of the most comprehensive and original thinkers on american politics provides a convincing new answer that has three major elements these elements in combination not divided government as a catch phrase are the real story of politics in our time the first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities the old cluster of economic and welfare issues has not so much been displaced as simply joined by a second cluster of cultural and national concerns the second element can be seen in the behavior of political parties and party activists whose own preferences don t match those of the general public that public remains reliably left of the active republican party on economic and welfare issues and reliably right of the active

democratic party on cultural and national concerns the third crucial element is found in an institutional arrangement the distinctively american matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out in the first half of the book shafer examines how dominant features of the reagan first bush clinton and second bush administrations reflect the interplay of these three elements recent policy conflicts and institutional combatants in shafer's analysis illuminate this new pattern of american politics in the second half he ranges across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework in this light modern american politics appears not so much as new and different but as a distinctive recombination of familiar elements of a political style a political process and a political conflict that has been running for a much much longer time

Proceedings of 1967

1967

in this innovative account of the way policy issues rise and fall on the national agenda the first detailed study of so many issues over an extended period frank r baumgartner and bryan d jones show that rapid change not only can but does happen in the hidebound institutions of government short term single issue analyses of public policy the authors contend give a narrow and distorted view of public policy as the result of a cozy arrangement between politicians interest groups and the media baumgartner and jones upset these notions by focusing on several issues including civilian nuclear power urban affairs smoking and auto safety over a much longer period of time to reveal patterns of stability alternating with bursts of rapid unpredictable change a welcome corrective to conventional political wisdom agendas and instability revises our understanding of the dynamics of agenda setting and clarifies a subject at the very center of the study of american politics

The American Political System

1989

american political history a very short introduction captures the richness of american political history focusing primarily on national politics it explores the nature of the two party system key turning points in american political history representative presidential and congressional elections struggles to expand the electorate and critical social protest and third party movements provided by publisher

The Politicians and the Egalitarians: The Hidden History of American Politics

2016-05-17

reveals the important role of muslim americans in american politics since the 1950s and especially in the post 9 11 era muslim americans have played outsized roles in us politics sometimes as political dissidents and sometimes as political insiders however more than at any other moment in history muslim americans now stand at the symbolic center of us politics and public life this volume argues that the future of american democracy depends on whether muslim americans are able to exercise their political rights as citizens and whether they can find acceptance as social equals many believe that over time muslim americans will be accepted just as other religious minorities have been yet curtis contends that this belief overlooks the real barrier to their full citizenship which is political rather than cultural the dominant form of american liberalism has prevented the political assimilation of american muslims even while leaders from eisenhower to obama have offered rhetorical support for their acceptance drawing on examples ranging from the political rhetoric of the nation of islam in the 1950s and 1960s to the symbolic use of fallen muslim american service members in the 2016 election cycle curtis shows that the efforts of muslim americans to be regarded as full americans have been going on for decades yet never with full success curtis argues that policies laws and political rhetoric concerning muslim americans are quintessential american political questions debates about freedom of speech and religion equal justice under law and the war on terrorism have placed muslim americans at the center of public discourse how americans decide to view and make policy regarding muslim americans will play a large role in what kind of country the united states will become and whether it will be a country that chooses freedom over fear and justice over prejudice

A Republic No More

2016-07-12

a distinguished historian and political scientist provides a forthright and objective account of american party politics in this concise and invaluable guide in vigorous and lively language he examines the two major parties the peacemakers of the american community describing their historic functions and the way they have helped to achieve national

unity he discusses their make up their achievements and failures the images each has established of itself and of the opposition party the demographic forces influencing the american voter and the complex question of how the parties actually differ receive thought provoking treatment this invigorating analysis of the hard facts of american political life will live far beyond the election year of 1960

The Two Majorities and the Puzzle of Modern American Politics

2003

these scripts touch on the issues of the 1990s including the gulf war racial and sexual relations crises unique to big cities immigration and multiculturalism art and censorship revisionist history academic freedom and the transformation of the american presidency the american play by suzan lori parks features an abraham lincoln impersonator trapped in an outrageous beckett like world while naomi wallace s in the heart of america centers on a palestinian american from atlanta who is caught up in the persian gulf conflict kokoro by velina hasu houston chillingly depicts the stark predicament of a japanese mother caught between two impossible worlds marisol by josé rivera reveals the dark fairytale life of a young latin woman in a wartorn apocalyptic new york the gift by allan havis confronts overwhelming moral ambiguity in the farcical realm of university politics while nixon s nixon by russell lees offers an adroit treatment of the fascinating tortured nixon kissinger relationship the collection closes with mac wellman s 7 blowjobs a wicked send up of the compromise politics that determined the fate of the national endowment for the arts

Agendas and Instability in American Politics

1993-04

excerpt from the study of politics the present state of american political science this essay is addressed to graduate students my aim is to tell young men and young women some things it may be good to know about the profession they intend to enter if old timers think they learn something also they are welcome to whatever they pick up if many older members of the profession read this some of them will find confirmation of their own positions they may even encounter some of their own ideas stated in their own words for i have freely utilized what i have heard said over a period of at least three decades i hope of course that i have myself added something to the discussion if i have it is not likely to sound new to men of my own age i have not won any prizes for keeping my thoughts to myself over the years but the young people i have hope will encounter a thing or two here they have not already pondered about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our

edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

American Political History

2015

the underdog in american politics is an original analysis of how the underdog concept applies to the democratic party and american politics and culture in particular it analyzes how the power of the underdog has shaped and reflected the politics of democrats running for president from thomas jefferson to barack obama the author uses biography ideology campaign strategy and public policies to depict the many different points of contact between democrats and underdogs the core values of equality fairness and non discrimination are analyzed the role of sympathy and empathy towards underdogs is also examined

The American Political Science Review

1910

a strong and well informed set of reviews of efforts and achievements of african americans and their political allies across the broadest spectrum of arenas of government
 rufus p browning san francisco state university useful for undergraduate courses in black politics and american politics jennifer l hochschild princeton university these essays offer a current and comprehensive analysis of black politics and its impact at the national level on the american political system whether analyzing the supreme court interest groups public policy the congressional black caucus or political attitudes and behavior these essays demonstrate that african americans participate in national politics in a substantial way and that they have done so in a manner consistent with pluralist theory however they have been less active in executive policy making and this trend is also explored and analyzed contents introduction black politics in the united states by huey l perry and wayne parent a theoretical analysis of national black politics in the united states by huey l perry black political attitudes behavior and participation black political attitudes and behavior in the 1990s by wayne parent and paul stekler jesse jackson s campaigns for the presidency a comparison of the 1984 and 1988 democratic primaries by mfanya donald tryman blacks and national institutions blacks and presidential politics by henry b sirgo blacks and the national executive branch by huey l perry tracey ambeau and frederick mcbride the evolving congressional black caucus the reagan bush years by richard champagne and leroy n rieselbach the supreme court african americans and public policy changes and transformations by michael w combs blacks and national public policy black interest groups and the 1982 extension of the voting rights act by dianne m pinderhughes budgets taxes and politics options for african american politics by lenneal j henderson jr summary and conclusions the state of black politics in the united states and implications for the future by huey l perry and wayne parent

The Underdog in American Politics

2010-05-15

divided america tells the biggest story in american politics today it s the story behind the emergence of a ferocious power struggle between conservative republicans and liberal democrats that is tearing the country s politics apart drawing on extensive polling data and close analyses of presidential senatorial and congressional elections over the past fifty years two eminent political scientists show for the first time how partisan warfare has reduced both major parties to minority status and locked them into fierce power struggles in each election cycle thereby making america less stable and more difficult to govern because the two major parties are now evenly balanced in the national electorate control of the white house and congress can shift dramatically with each election neither republicans nor democrats operate with any lock on the presidency house of representatives or senate as demonstrated by the 2006 congressional elections earl black and merle black examine the party battles as they ve played themselves out in

the nation's five principal geographic areas each party has developed two important regional strongholds as exemplified in the 2004 elections when republicans won all the electoral votes and sizable majorities of house and senate seats in the south and mountain plains states while the democrats won almost all the electoral votes and large majorities in the northeast and the pacific rim states the midwest is the perennial swing region the authors describe the enormous changes that have occurred in the electorates of each region over the past fifty years with emphasis on how the size and partisan affiliations of key groups have changed and show how these transformations have generated today's unstable two party battles although the relentlessly competitive nature of modern american politics is generally appreciated the regional causes underlying this new state of affairs are not well understood because neither democrats nor republicans can produce national majorities simply by sweeping their regional strongholds they are locked in a fierce power struggle in each election divided america tells the story of these remarkable developments in clear vigorous prose and provides a pragmatic understanding of the strengths and weaknesses of each party for the foreseeable future each party will be within striking distance of winning or losing political power in every national institution understanding the party battles in america's regions is vital to understanding how today's losers can become tomorrow's winners

Blacks and the American Political System

1995

a study of the gap between the promise and practice of american democracy examines the historical national unity derived from the democratic ideal and the frustration of that ideal by political institutions and hierarchies
