The Long Apprenticeship

2012

after an established career as a literary critic david pierce turns his
attention to the story of his own life from a working class upbringing to an
education in catholic boarding schools and seminaries in sussex and surrey
and then onto university at lancaster his story is both personal and
evocative of the changes that britain underwent from the post war period
until the present with chapters on his father's lost jewish family and his
mother's irish heritage this is a memoir that celebrates continuity and
difference whether as a child witnessing the disappearing house dances in the

west of ireland or commenting on the impact of change and the new pierce is a compelling story teller who lets us into the chosen scene with a mixture of emotional engagement honesty and humour in pierce s record of his life his writing is sensitive thoughtful and committed at each stage he digs deep to reflect on what was happening to him and these reflections ensure that the reading experience is both full and rewarding whether he is discussing his earliest memories or a photo of himself as the eleven year old boy he once knew each episode is part of a larger inquiry into the nature of consciousness and how we record and internalise the world on every page we are invited to reflect with pierce on what we are reading and on what constitutes the material that comprises a memoir we accompany the author from a destiny obscure to a prose writer of distinction the long apprenticeship which contains 28 illustrations will appeal to fans of biographies and memoirs it covers the following life experiences the discovery of oneself as a writer the process involved in writing a memoir and in the uncovering of memory the attention to the self within a social history the effect of a religious upbringing and the recuperation of the self thereafter thinking about the purpose of a memoir david said a memoir is like an underground stream that comes to the surface you write for those who have gone before and for posterity as much as for yourself

Boom!

2013-06-15

since the early 1990s tens of thousands of memoirs by celebrities and unknown people have been published sold and read by millions of american readers the memoir boom as the explosion of memoirs on the market has come to be called has been welcomed vilified and dismissed in the popular press but is there really a boom in memoir production in the united states if so what is causing it are memoirs all written by narcissistic hacks for an unthinking public or do they indicate a growing need to understand world events through personal experiences this study seeks to answer these questions by examining memoir as an industrial product like other products something that publishers and booksellers help to create these popular texts become part of mass culture where they are connected to public events the genre of memoir and even genre itself ceases to be an empty classification category and becomes part of social action and consumer culture at the same time from james frey's controversial a million little pieces to memoirs about bartending iran the liberation of dachau computer hacking and the impact of 9 11 this book argues that the memoir boom is more than a publishing trend it is becoming the way american readers try to understand major events in terms of individual experiences the memoir boom is one of the ways that citizenship as a category of belonging between private and public spheres is now articulated
