 harm black children s sense of self the doll test illuminated its devastating toll dr kenneth clark visited
 rundown and under resourced segregated schools across america presenting black children with two
 dolls a white one with hair painted yellow and a brown one with hair painted black give me the doll
 you like to play with he said give me the doll that is a nice doll the psychological experiment kenneth
 developed with his wife mamie designed to measure how segregation affected black children s
 perception of themselves and other black people was enlightening and horrifying over and over again
 the young children some not yet five years old selected the white doll as preferable and the brown
 doll as bad some children even denied their race yes said brown skinned joan w age six when
 questioned about her affection for the light skinned doll i would like to be white what the children told
 us is the story of the towering intellectual and emotional partnership between two black scholars who
 highlighted the psychological effects of racial segregation the clarks story is one of courage love and
 an unfailing belief that black children deserved better than what society was prepared to give them
 and their unrelenting activism played a critical role in the landmark brown v board of education case

growing up in south dakota josh garrett davis knew he would leave but as a young adult he kept going back in dreams and reality and by way of books with this beautifully written narrative about a seemingly empty but actually rich and complex place he has reclaimed his childhood his unusual family and the great plains among the subjects and people that bring his midwestern plains to life are the destruction and resurgence of the american bison native american ghost dancers who attempted to ward off destruction by supernatural means the political allegory to be found in the wonderful wizard of oz and current attempts by ecologists to rewild the plains complete with cheetahs garrett davis infuses the narrative with stories of his family as well including his great great grandparents twenty year sojourn in nebraska as homesteaders and his progressive methodist cousin ruth a missionary in china ousted by mao s revolution ghost dances is a fluid combination of memoir and history and reportage that reminds us our roots matter how american bicyclists shaped the landscape and left traces of their journeys for us in writing illustrations and photographs in the later part of the nineteenth century american bicyclists were explorers cycling through both charted and uncharted territory these

wheelmen and wheelwomen became keen observers of suburban and rural landscapes and left copious records of their journeys in travel narratives journalism maps photographs illustrations they were also instrumental in the construction of roads and paths wheelways building them funding them and lobbying legislators for them their explorations shaped the landscape and the way we look at it yet with few exceptions their writings have been largely overlooked by landscape scholars and many of the paths cyclists cleared have disappeared in old wheelways robert mccullough restores the pioneering cyclists of the nineteenth century to the history of american landscapes mccullough recounts marathon cycling trips around the northeast undertaken by hardy cyclists who then describe their journeys in such magazines as the wheelman illustrated and bicycling world the work of illustrators including childe hassam before his fame as a painter efforts by cyclists to build better rural roads and bicycle paths and conflicts with park planners including the famous olmsted firm who often opposed separate paths for bicycles today s ubiquitous bicycle lanes owe their origins to nineteenth century versions including new york city s asphalt ribbons long before there were rails to trails there was a movement to adapt existing passageways including aqueduct corridors trolley rights of way and canal towpaths for bicycling the campaigns for wheelways mccullough points out offer a prologue to nearly every obstacle faced by those advocating bicycle paths and lanes today mccullough s text is enriched by more than one hundred historic images of cyclists often attired in skirts and bonnets suits and ties country lanes and city streets this is the biggest most comprehensive and most up to date appraisal of fitness vacation facilities throughout north america and the caribbean includes resorts fitness programs cruises and other programs the legend of bat masterson as the heroic sheriff of dodge city kansas began in 1881 when an acquaintance duped a new yorksun reporter into writing masterson up as a man killing gunfighter that he later moved to new york city to write a widely followed sports column for eighteen years is one of history s great ironies as robert k dearment relates in this engaging new book william barclay bat masterson spent the first half of his adult life in the west planting the seeds for his later legend as he moved from texas to kansas and then colorado in denver his gambling habit and combative nature drew him to the still developing sport of prizefighting masterson attended almost every important match in the united states from the 1880s to 1921 first as a professional gambler betting on the bouts and later as a promoter and referee ultimately bat stumbled into writing about the sport in gunfighter in gotham dearment tells how bat masterson built a second career from a column in the new yorkmorning telegraph bat s articles not only covered sports but also reflected his outspoken opinions on war crime politics and a changing society as his renown as a boxing expert grew his opinions were picked up by other newspaper editors and reprinted throughout the country and abroad he counted president theodore roosevelt among his friends and readers this follow up to dearment s definitive biography of the old west legend narrates the final chapter of masterson s storied life far removed from the sweeping western plains and dusty cowtown streets of his younger days bat masterson in new york city became a ham reporter as he
