Welcome to the Jungle

2011-04-01

each year doctors diagnose an average of nine percent of children between the ages of five and seventeen with attention deficit hyperactivity disorder or adhd one of the most common childhood disorders it is also one of the most controversial since first identified in the late 1950s everyone from medical professionals to politicians have debated its causes its treatment and its implications for children today physicians believe it is an inherited neurological disorder best treated with stimulants hyperactive provides the first history of adhd addressing why children were first diagnosed with the disorder why biological explanations became predominant how powerful drugs became the preferred treatment and why alternative explanations have failed to achieve any legitimacy contending that hyperactive children are also a product of their social cultural and educational environment matthew smith demonstrates how knowledge about the history of adhd can lead to better choices about its diagnosis and treatment a revealing and accessible study of this controversial subject hyperactive is an essential book for psychologists teachers policymakers and parents

unlike people born in panjab who have a direct connection with and hence a memory of the land i have no liminal or tangible marker of belonging to panjab while my family did hail from panjab i was neither born here nor do i live here i have no address bank statement aadhaar card passport or land ownership to prove my connection with panjab in 2015 amandeep sandhu began an investigation that was meant to resolve the hole in his heart his emptiness about matters panjab for three years he crisscrossed the state and discovered a land that was nothing like the one he had imagined and not like the stories he had heard present day panjab prides itself on legends of its military and valourous past even as it struggles with daily horrors the green revolution has wreaked ecological havoc in the state and a decade and a half of militancy has destabilised its economy and governance sikhism the state s eclectic and syncretic religion is in crisis

its gatekeepers brooking no dissent and giving little spiritual guidance and panjab has yet to recover from the loss of its other half now in pakistan this revised edition includes a chapter on the 2020 21 farmers struggle which proved beyond doubt that the old spirit of the land with its undercurrent of resistance to power and hegemony still beats away the hope that panjab s unyielding knots can be untied continues to linger
