Studies on the educational quality of schools 2000-11-14 the priority program the educational quality of schools has been established seven years ago by the german research foundation dfg the projects in this program investigated conditions inside and outside of school and their impact on the development of mathematical scientific and cross curricular competencies in this book major findings of the program are presented the projects not only give an overview of their research questioning methods and findings but also of approaches and materials that have been developed to support learning and teaching in mathematics and science class rooms the studies reported here identify factors for weaknesses in the educational outcomes that became apparent in the international comparisons like timss and pisa the projects however provide empirically substantiated units on approaches that can help to improve the educational quality of schools publisher ed

Beyond Dissociation 2023-10-13 analysis and dissociation have proved to be useful tools to understand the basic functions of the brain and the mind which therefore have been decomposed to a multitude of ever smaller subsystems and pieces by most scientific approaches however the understanding of complex functions such as consciousness will not succeed without a more global consideration of the ways the mind brain works this implies that synthesis rather than analysis should be applied to the brain the present book offers a collection of contributions ranging from sensory and motor cognitive neuroscience to mood management and thought which all focus on the dissociation between conscious explicit and nonconscious implicit processing in different cognitive situations the contributions in this book clearly demonstrate that conscious and nonconscious processes typically interact in complex ways the central message of this collection of papers is in order to understand how the brain operates as one integrated whole that generates cognition and behaviour we need to reassemble the brain and mind and put all the conscious and nonconscious pieces back together again series b

Serious Games 2023-07-08 this book constitutes the refereed proceedings of the 9th joint international conference on serious games jcsg 2023 held in dublin ireland during october 26 27 2023 the 18 full papers presented together with 9 short papers and 14 poster papers were carefully reviewed and selected from 53 submissions they are grouped into the following topics technology and systems theoretical and design aspects health and wellbeing extended realities soft and social skills academic skills and posters and exhibits
