Receiver Troubleshooting and Repair 1952

if internet security is an important part of your job responsibility this first of its kind book is essential reading it presents detailed coverage of multicast security from the leading developer of the standards this unique resource discusses the security issues related to ip multicast networks protocols and other group communications technologies new algorithms and protocols for multi party secure communication are provided for easy reference the book looks at the security issues and solutions under three broad categories data authentication key management and policies

Radio and Television 1952

this book brings together insights into the new and considerably higher tech levels of audiovisual equipment and materials and the admittedly limited things non technicians can and should do to assure delivery of the instructional program extensively illustrated with diagrams and photographs volume ii goes into vcrs with considerable additional emphasis on cable and distribution systems a number of preventive maintenance and diagnostic approaches are discussed for classroom computers looking toward the future the authors also treat audio compact discs and videodisc technology

Direct Support and General Support Maintenance Repair Parts ... for Receiver, Radio R-392/URR (NSN 5820-00-503-1250). 1990

this book constitutes the refereed proceedings of the 7th international workshop on advanced parallel processing technologies appt 2007 held in guangzhou china in november 2007 the 78 revised full papers presented were carefully reviewed and selected from 346 submissions all current aspects in parallel and distributed computing are addressed ranging from hardware and software issues to algorithmic aspects and advanced applications the papers are organized in topical sections
