that there was a widely shared but largely unwritten strategic culture within british naval circles which accepted that in a war with a major maritime power the british response would be to attack enemy trade this is demonstrated by the fact that from at least the late 1880s the royal navy planned for the use of armed merchantmen to enforce an economic blockade of an enemy this it did by entering into detailed arrangements with major british shipping companies for the design and subsidy of liners with the potential for use as merchant cruisers and stockpiling their prospective armament in line with the contemporary corbettian view that seapower depends upon free communications the book concludes by asserting that the primary role of the grand fleet in the first world war was to guarantee the ability of the merchant cruisers on the northern patrol to interdict german seaborne trade rather than to engage in large set piece battles failing boys issues in gender and achievement challenges the widespread perception that all boys are underachieving at school it raises the more important and critical questions of which boys at what stage of education and according to what criteria the issues surrounding boys underachievement have been at the centre of public debate about education and the raising of standards in recent years media and political responses to the problem of boys have tended to be simplistic partial and owe more to quick fixes than investigation and research failing boys provides a detailed and nuanced case study of the issues in the uk which will be of international relevance as the moral panic is a globalised one taking place in diverse countries the contributors to this book take seriously the issues of boys underachievement inside and outside school from a critical perspective which draws on the insights of previous feminist studies of education to illuminate the problems associated with the education of boys this will be a key text for educators policy makers students and teachers of education sociology gender studies and cultural studies and others interested in gender and achievement a country s education system plays a pivotal role in promoting economic growth and shared prosperity sri lanka has enjoyed high school attainment and enrollment rates for several decades however it still faces major challenges in the education sector and these challenges undermine the country s
