this volume is the first text to provide a comprehensive account of the great books across the academic disciplines written by africans born in the continent and those who became naturalized citizens of african countries these great books are those that have had a powerful important or affecting influence on the author of a chapter in this book as an individual and on society the books included here are mostly of the storytelling type and thus not representative of most of the academic disciplines this volume allows each contributor to write a chapter on a discipline showcasing five great books written by african authors each selection is appraised and suggestions made by other experts in a discipline while every chapter entails an introduction to the topic a conceptual discussion of the discipline a book by book review of the five books and a conclusion and recommendations for

research using the selected books 1988 1989 1988 1973

the world cries out for ethical leaders we expect the best but we are often left profoundly disappointed while leadership programs may feature ethics as part of their curriculum the approach is often either simplistic or overly esoteric this second edition addresses this scarcity of resources for training ethical leaders providing a primer of several ethical frameworks accompanied by extended examples to help inform decision making it also addresses several leadership models that claim an ethical component the new edition also includes new chapters on the ethics of care and toxic leadership and new case studies for all chapters by providing a consistent case analysis based on the five components of leadership model readers benefit from a comprehensive approach to understanding ethical leadership

trying to regain your ability to consistently deliver new value for your customers inspired will take you and your product organization to a new level of customer engagement consistent innovation and business success filled with the author s own personal stories and profiles of some of today s most successful product managers and technology powered product companies including adobe apple bbc google microsoft and netflix inspired will show you how to turn up the dial of your own product efforts creating technology products your customers love the first edition of inspired published ten years ago established itself as the primary reference for technology product managers and can be found on the shelves of nearly every successful technology product company worldwide this thoroughly updated second edition shares the same objective of being the most valuable resource for technology product managers yet it is completely new sharing the latest practices and techniques of today s most successful tech product companies and the men and women behind every great product biofluids modeling the first book offering analytical and modern computational solutions to important biofluids problems such as non newtonian flows in blood vessels clogged arteries and veins bifurcated arteries and veins arbitrary stent geometries tissue properties prediction and porous media darcy flow simulation in large scale organ analysis this is a must have for any library this book introduces new methods for biofluids modeling and biological engineering the foregoing subjects are treated rigorously with all modeling assumptions stated and solutions clearly derived but that s not all key supporting physics based ideas algorithmic details and software design interfaces are equally emphasized in order to support our overriding objective of getting the anatomical and clinical information that physicians need importantly this volume provides a self contained

exposition that includes all required biological concepts plus the background preparation needed in fluid mechanics basic differential equations and modern numerical analysis the presentation style will appeal to medical practitioners researchers biomedical engineers and students interested in quantitative fluid flow modeling as well as engineering students eager to learn about advances in a rapidly growing and changing biological science as such the book represents must reading suitable at the advanced undergraduate level and motivated readers should be able to embark on related research following guided study in a fiery polemic on our personal finances gerri willis anchor and personal finance correspondent for fox business news reveals how liberal policy has decimated our wallets in rich is not a four letter word veteran financial journalist and pundit gerri willis takes on the progressive mind set championed by liberals that gives government bureaucrats the right to decide what s best for us resulting in bigger government programs more bureaucracy and more wasted taxpayer money she dissects obamacare and democratic tax initiatives to show how they have hamstrung the average american then she shows us how to overcome these left wing financial hurdles and grow our nest eggs despite the political pickpocketing from washington among the topics she tackles in the book how the progressive agenda has robbed americans of their financial freedom a new blackrock survey shows that 4 out of 10 americans haven t even started saving for retirement and how to get it back how the wide open spigot of college loan dollars has encouraged college administrators to boost tuition each and every year and how we can successfully navigate the system how with a stroke of president obama s pen company sponsored health care coverage was put on deathwatch as companies have begun to abandon employee health care coverage and opt to pay a less expensive federal

penalty why the knee jerk progressive response to the 2008 market crash and subsequent recession has acted as an albatross on the shoulders of american corporations keeping corporate tax rates at sky high levels among western nations and what we can do to create jobs and jumpstart the economy college can be expensive the average graduating college senior is nearly 30 000 in debt when he or she walks off campus there is also more financial aid available than ever before with more than 238 billion distributed in 2012 13 there are a lot of options out there and if you are not sure how to find the right financial aid for you this book is your answer we provide you with information on over 2 200 programs that offer scholarships internships or loans to more than 1 7 million students each year for example the chick and sophie major memorial duck calling contest awards 2 000 to the high school senior with the best duck call in the country there s also the van valkenburg memorial scholarship where you can win 1 000 if you re a descendant by birth or legal adoption of lambert and annetje van valkenburg this book will also provide hundreds of innovative ways to cut college costs including tips on how to earn college credit on an accelerated basis how to calculate your college budget how to make use of tuition prepayment plans how to combine higher education and course related employment and how to buy supplies and textbooks for cheap if you re looking to graduate debt free this book has you covered according to the most recent report done by the college board annual survey of colleges the average rate of tuition at four year public universities is 19 548 and even more shocking the average four year tuition rate for private colleges is 43 921 tuition costs of course are just the beginning however there is good news there is more financial aid available than ever before and despite all of these college cost increases a college education remains

an affordable choice for most families armed with the information detailed in this comprehensive and updated edition of how to go to college on a shoe string you will be privy to the more than 2 200 programs that offer scholarships internships or loans to more than 1 7 million students each year in addition to scholarships and grants you will learn hundreds of innovative ways to slash your college cost such as calculating and reducing your college budget buying your text books and supplies cheaply earning college credit on an accelerated basis combining higher education and course related employment performing national and community service and making use of tuition prepayment plans federal funds state aid and private sector aid if you want to learn hundreds of innovative ways to save thousands on your college costs then this book is for you

in a fiery polemic on our personal finances gerri willis anchor and personal finance correspondent for fox business news reveals how liberal policy has decimated our wallets in rich is not a four letter word veteran financial journalist and pundit gerri willis takes on the progressive mind set championed by liberals that gives

government bureaucrats the right to decide what s best for us resulting in bigger government programs more bureaucracy and more wasted taxpayer money she dissects obamacare and democratic tax initiatives to show how they have hamstrung the average american then she shows us how to overcome these left wing financial hurdles and grow our nest eggs despite the political pickpocketing from washington among the topics she tackles in the book how the progressive agenda has robbed americans of their financial freedom a new blackrock survey shows that 4 out of 10 americans haven t even started saving for retirement and how to get it back how the wide open spigot of college loan dollars has encouraged college administrators to boost tuition each and every year and how we can successfully navigate the system how with a stroke of president obama s pen company sponsored health care coverage was put on deathwatch as companies have begun to abandon employee health care coverage and opt to pay a less expensive federal penalty why the knee jerk progressive response to the 2008 market crash and subsequent recession has acted as an albatross on the shoulders of american corporations keeping corporate tax rates at sky high levels among western nations and what we can do to create jobs and jumpstart the economy
