tales from the marketplace stories of revolution reinvention and renewal is a highly innovative approach to building an understanding of the realities of market led strategic change in companies it provides an engaging honest and effective understanding of real market strategy in major organizations by focussing on the forces behind value driven strategy nigel piercy provides new and incisive insights into strategy and marketing through business stories that are contemporary and provocative these new stories depict how major organizations have experienced revolution in their traditional markets created by new types of competitors with new business models the search for superior value is overtaking traditional brand and relationship strategies the challenge to companies is reinvention and renewal and the alternative is obsolescence and decline after all did the major banks really expect to be competing with supermarkets car companies virgin and internet based companies to provide retail bank services the book is based on the author s view that business is exciting turbulent and unpredictable the stories we read and study should be

too from dell computers and easyjet to amazon com and skoda cars it is the most innovative companies that have most to teach us about reinvention and new business models the inflexible analytical frameworks of the past no longer apply stories of reinvention and renewal show the creative strategies developed by companies to cope with threats and exploit opportunities around them tales from the marketplace is essential timely and designed to be highly readable for managers it also provides an innovative approach for undergraduate and mba level teachers and students and for participants on executive programmes in marketing and strategic management

2000

a unique investigation of the political uses of different forms of communication oral manuscript and printed in sixteenth and seventeenth century venice today we take it for granted that communication and politics influence each other through spin doctoring and media power what however was the use of communication in an age when rulers recognized no political role for their subjects and what access to political information did those excluded from government have in answering these questions filippo de vivo uses an extremely rich and diverse range of sources from council debates to leaks and spies reports from printed pamphlets to graffiti and rumours in the process he demonstrates just how closely political communication was intertwined with the wider social and economic life of the city challenging the social and cultural boundaries of more traditional accounts he shows how politics in early modern venice extended far beyond the patrician elite to involve the entire population from humble clerks and foreign spies to notaries artisans barbers and prostitutes

electric vehicles prospects and challenges looks at recent design methodologies
and technological advancements in electric vehicles and the integration of
electric vehicles in the smart grid environment comprehensively covering the
fundamentals theory and design recent developments and technical issues
involved with electric vehicles considering the prospects challenges and policy
status of specific regions and vehicle deployment the global case study
references make this book useful for academics and researchers in all
engineering and sustainable transport areas presents a systematic and
integrated reference on the essentials of theory and design of electric vehicle
technologies provides a comprehensive look at the research and development
involved in the use of electric vehicle technologies includes global case
studies from leading EV regions including Nordic and European countries China
and India

Paving the Road to Sustainable Transport

the world's cities offers instructors and students in higher education an
accessible introduction to the three major perspectives influencing city
regions worldwide city regions in a world system nested city regions and the
city region as the engine of economic activity growth the book provides
students with helpful essays on each perspective case studies to illustrate
each major viewpoint and discussion questions following each reading the world's
cities concludes with an original essay by the editor that helps students
understand how an analysis incorporating a combination of theoretical
perspectives and factors can provide a richer appreciation of the world's city
dynamics
