Managerial Innovation at General Motors 1979 in this unprecedented study of america s leading executives john kotter shatters the popular management notion of the effective generalist manager who can step into any business or division and run it based on his first hand observations of fifteen top gms from nine major companies kotter persuasively shows that the best manager is actually a specialist who has spent most of his or her career in one industry learning its intricacies and establishing cooperative working relationships acquiring the painstaking knowledge and large informal networks vital to being a successful manager takes years outsiders no matter how talented or well trained seldom can do as well this in depth profile reveals much more than a fascinating collective portrait of the day to day activities of today s top executives the general managers provides stimulating new insights into the nature of modern management and the tactics of its most accomplished practitioners

Morristown National Historical Park (N.P.), General Management Plan 2004 there is a great deal of practice discussion and publication about strategy but surprisingly little investigation of the processes by which strategies actually form in organizations henry mintzberg one of the world s leading thinkers and writers on management has over several decades examined the processes by which strategies have formed in a variety of contexts and this book collects together his findings defining realized strategy the strategy an organization has actually pursued as a pattern in a stream of actions this investigation tracked strategies in organizations over long periods of time usually three or four decades and in one case a century and a half this revealed the patterns by which strategies form and change in organizations the interplay of deliberate with emergent strategies and the relationships between leadership organization and environment in the strategy formation process an introductory chapter considers the term strategy and the various ways it has been and can be used and then introduces the studies these are reported in the next ten chapters with descriptions and conclusions about the strategies were formed over time and how they combined to establish periods in the history of the organization these studies range across business six studies government two studies an architectural firm and a university as well as one professor in that university they include u s strategy in vietnam 1950 1973 volkswagenwrk 1937 1972 and the national film board of canada 1939 1975 the final chapter entitled toward a general theory of strategy formation weaves these findings together in two themes first is strategy formation in different forms of organization strategic planning in the machine organization strategic visioning in the entrepreneurial organization strategic learning in the adhocracy organization and strategic venturing in the professional organization the second theme considers stages in the formation of strategies from initiation through development to renewal

The General Managers 1982 this book presents a unique in depth examination of the effects that the popular approaches to management organizational change downsizing restructuring and reengineering had on a major american hospital the human cost of a management failure shows what can happen when management insists on accomplishing its ends strictly by the numbers the authors ask why top management so often and with seemingly such a cavalier attitude selects downsizing and similar methods when research indicates that they are all too often such poor choices based on a year long longitudinal study allcorn baum diamond and stein report on their interviews with 23 senior and mid level hospital administrators then interpret their findings from a psychoanalytic perspective to make clear that the human side of the workplace can only be ignored at great risk when change is contemplated and then implemented this is essential reading not only for corporate management but also for other professionals and academics throughout the social and behavioral sciences readers of the human cost of a management failure are oriented to the literature on downsizing restructuring and reengineering and to the context of the study case material follows enabling readers to draw their own conclusions with regard to the nature of the organizational change and its effects upon the hospital s employees and consultants offer their own viewpoints an update of events at the hospital after the study was conducted is provided along with summaries by each author of his own interpretation and how he interprets the others views in this way readers will get an unusual opportunity to evaluate their own viewpoints against those of the psychoanalytically trained researchers and to decide for themselves whether there are in fact better ways to make an organization economically competitive in the marketplace
