figure pull out the paper tray remove any paper from the input tray and then examine the condition of the paper replace any ripped curled wrinkled or bent paper avoid printing on paper that is dusty the following sections provide details for this topic paper cannot be loaded successfully paper type is not in the driver paper jam cutter troubleshooting on hold for paper recalibrate the paper advance other paper issues additional support options try one of our automated tools or diagnostics general print tips once you ve downloaded the pdf of your project and have your print dialog open make sure your printer is selected check that the page or paper size is set correctly 8 5 x 11 for most us products make sure the scale is set to 100 or that actual size is selected go to solution dainouye apprentice 08 12 2021 12 02 pm edited 08 12 2021 12 25 pm every time i try to print to the printer an error pops up that says load paper ltr plain 1 i have to manually select the second option to get it to print i ve tried setting the default paper tray several times but the error still pops up go to solution woodmarx1 apprentice 12 02 2019 07 49 pm this mf6422cdw is a newly installed machine for my office every time we print we have to select on the machine the paper source as it gives an error of load paper drawer 1 there is paper in the tray it is correctly identified i believe so i m not sure what this is about suggestions first ensure your printer is in proper working state verify that the printer has paper loaded if it isn t printing even if you ve loaded paper you may need to properly align the paper so the printer can use it check the inside of the printer to ensure there isn t a paper jam preventing the printer from working check1 make sure that paper is loaded loading paper check2 make sure of the following when you load paper when loading two or more sheets of paper flip through the paper before loading when loading two or more sheets of paper align the edges of the sheets before loading printer help how to troubleshoot printer issues updated 02 01 2021 by computer hope if you are experiencing problems with your printer the troubleshooting tips below may help you resolve the issues printer does not have power indicator first make sure that the printer is turned on solution you can load plain paper or photo paper important if you cut plain paper to a size of 5 x 7 13 x 18 cm or smaller to perform a trial print it may cause a paper jam note we recommend canon genuine photo paper for printing photos prepare paper align the edges of paper if paper is curled flatten it note solution resolve tray 1 empty or load tray 1 errors on b2360d b2360dn dell laser printer level 17 10 03 2022 01 02 pm ryannttate welcome to the hp community forum ryannttate wrote product hp envy photo 7155 all in one printer operating system not provided i ve tried everything to get my printer to print but it keeps saying load plain paper everything is a lot 1 print the nozzle check pattern follow these steps to print the nozzle check pattern turn on the printer and load one or more sheets of letter sized plain paper in the lower paper tray open the paper output tray by holding the sides of the paper output tray extend the paper output support press menu select setup then press ok issue description the printer displays a load tray 1 with specified paper message even if the tray has paper in it this happens when the printer pick tires are unable to pick paper from the tray the pick roller assembly hasn t reached its full range of motion solution the solution for this issue varies depending on its cause 1 the printer is not turning on your printer could fail to turn on if your wall outlet is not working well to check its condition plug in another electronic device like your mobile phone if the phone is charging plug in the printer and restart it after 30 minutes if the problem is your printer s cord you might have to replace it 541 new member 01 12 2022 03 08 pm product hp officejet pro 9018 operating system microsoft windows 10 64 bit my hp officejet pro 9018 9010 series does not recognize the paper tray is loaded with paper i loaded paper in the tray and the printer display keeps saying paper tray is empty please fill the tray with paper tags paper type load up to this many sheets plain paper letter 8 5 11 inches approx 50 sheets for one sided printing 216 279 mm or a4 8 3 11 7 inches 15 sheets for two sided printing 210 297 mm plain paper legal 8 5 14 inches 1 sheet 216 357 mm based on paper weight of 20 lb 75 g m2 do
