charles darwin s words first appeared in print as a student at
christ s college cambridge in 1829 and in almost every
subsequent year of his life he published essays articles
letters to editors or other brief works these shorter
publications contain a wealth of valuable material they
represent an important part of the darwin visible to the
victorian public alongside his ever present sense of humour
and reveal an even wider variety of his scientific interests
and abilities which continued to his final days this book
brings together all known shorter publications and printed
items darwin wrote during his lifetime including his first and
his last publications and the first publication with a r wallace
of darwin s theory of evolution by natural selection with over
seventy newly discovered items the book is fully edited and
annotated and contains original illustrations and a
comprehensive bibliography
